Our Absolute

Guarantee

We Guarantee that the "Handy Vol-ume" Issue is authorized by the publish-ers of the new Encyclopzedia Britannica: that its contents are identical, page for page (including every map and illustra-tion), with the Cambridge University Issue now selling at three times the price; that it is manufactured by the same printers and binders as the more expen-sive book; that it is printed on the same quality of India paper, from newly made plates; and that, because it is smaller, it is easier to handle than the Cambridge issue.

We Guarantee complete and entire sat-isfaction with the contents of the Ency-clopaedia Britannica and with the form of our "Handy Volume" Issue. To any-one, who for any reason is not satisfied and returns the set within three weeks, we guarantee to return all he has paid (including shipping charges).

Booksellers, Stationers and Complete Name-

gation tramped in from the rain out-side and their leaders demanded an outdoor demonstration.

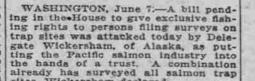

Woman Delegate Carried Around

Woman Delegate Carried Around. A proposal to use the uniformed po-lice to queil the demonstration was discussed among the leaders, but it was decided that the experiment was too dangerous. By this time some of the enthusiasts who had been waving ban-danas became dissatisfied with their efforts, so they took off their coats and waved them about their heads. One delegate put a black slouch hat with a bandana around the rim on a tall pole and paraded around. "Whoop!" he roared. "She's in the ring." The delegates from the state of Washing-ton wrapped an American flag about

sreat principles of human justice and moral truth. Would any disinterested patriot untouched with partisan projudice or personal feeling hesitate long to hame the leader best fitted to serve this cause? His name is on the lips of the Nation. Two great parties claim him as their own. He was our leader in 1912. He was the leader of the Republican party for many years. He was President of our Nation for seven years. There is no man in America today who holds, as he does, alike the confidence of the American people and the ungrudging respect of every nation in the world. He has been a master politician, but he has refused ever to play politics with the destiny of his country.

lose out.

They never foresee, or grasp opportunities. Take two instances.

After the long depression which ended about '96, came a tremendous wave of industrial pros-perity to the United States. Anybody with half an eye could see that real estate would have a tremendous rise as well. It did—it doubled and tripled in value. But there were not very many people who bought land for this big rise. Now if you want to buy a farm, you have to pay two or three times as much for it as you did ten or fifteen years ago.

You pay dear because you hesitated.

The great war in Europe is another example. Anybody could see that it would bring a tremendous scarcity in metals, chemicals, dyes and other things, and force high prices. It has. But very few people bought iron or copper, or quinine or dye-stuffs, for the inevitable rise.

Now they pay dear.

These are big instances. Every day brings lesser ones. There is one in front of you now.

You can now buy the "Handy Volume" Issue of the new Encyclopaedia Britannica at one-third the price of the Cambridge University issue of the same work. This phenomenally low price was possible only by making contracts for an enormous printing, when prices were very low. Now prices for paper and printing and binding have risen rapidly, unexpectedly, and we cannot obtain from the publishers any more sets at present prices. After June 17th you will have to pay from \$11 to \$19 more per set for identically the same work, \$11 more 開開

for the cheaper to \$19 more for the more expensive bindings. We be-lieve you will never be able to buy it as cheaply as you can now.

Which are you going to do-decide, or wait-and pay more?

Standard for 148 Years

For 145 years the Encyclopaedia Britan-nica has been not merely the standard encyclopaedia in the English language, but the foremost work of its kind in all the world.

The new Eleventh Edition cost more to produce than any other set of books ever issued—more than a million and a haif dol-lars for the editorial preparation alone.

Of this new edition, issued by the Cam-bridge University Press, more than 75,000 sets have already been sold at a total ex-ceeding fourteen million dollars.

This issue, costing from \$166 to \$250 per set, was beyond the reach of a large num-ber of people to whom the Encyclopaedia Britannica is a keener need than to many who could afford it at this price.

To meet the demand for a popular issue at a popular price the publishers prepared for us a "Handy Volume" Issue, page for page the same, with the single difference of a smaller page.
