War Prospects in Mexico and Firmness of California Barley Are Factors in Strengthening of Market-Wheat Is Steady.

There was another advance of a quart In the local oats market yesterday. The prospects for war with Mexico is one of the main factors in the strength of th market, and another is the firmness barley in California. There were rumo in the trade yesterday that small amoun of outs had already been taken by the Government. Sellers in the country have practically withdrawn from the market.

SPAIN ESTABLISHES FLOUR PRICES fiteps Taken by Government to Regulate Market Conditions.

According to a report which comes to the commerce Department from Barcelona, under a new parsed last year the Spanish gov-erament is empowered, when circumstances warrant, to reduce temporarily customs duties on foodntuffs, to acquire and sell such merchandise, and to adopt any measures that may be deemed expedient in role tion to vessels flying the Spanish flag.

Recently, as a result of the lowering of
the stock of wheat in a province of South-

ern Spain, the government requisitioned a cargo of 6000 tons of wheat en spute from Argentina to Spain. Under the direction of the governmental authorities, the ship was the bread shortage was threatened. Under the plan adopted with reference to the shipment of wheat, the cargo was placed \$2.94 per 100 lbs, with the obligation that millers soll the flour at \$3.02 per 100

By reducing the freight cost the expectation is that the net cost of the wheat will not exceed the amount fixed as the government's selling price therefor. In addition to this, the consignees to whom the wheat Science was originally shipped will be indemnified

NEW YORK, June 26 .- Las week's liquilation was resumed on a broader basis toay, the movement being one of almost tendy declines, with some slight recovery

steady declines, with some slight recovery at the close.

The Mexican situation was again the paramount factor, although other developments, such as the Federal Court order directing the dissolution of the Corn Products Redining Company and less optimism regarding crop prospects helped to bring about the general shrinkage of values.

Corn Products common, on an extraordinary large overturn, made an extreme decline of 5% to 18%, with 11 for the preferred at 83. Mexicans averaged iosses of 2 to 4 points, with 5 for Petroleum, Motors and the west group were 2 to 8 points down, with 8% for Bethlehm Steel before it rebounded.

with 915 for Bethlehem Steel before it rebounded.

United States Steel manifesoted actual
neaviness for the firs time in weeks, declining it to 52% with but little recovery.
Coppers and the time shares were heavy
to weak, and shipping issues were again
ndversely influenced by rumors of further
reductions in ocean-soing rates. United
States industrial Alcohol added 514 to tis

ADVERSE CROP CONDITIONS LEAD TO WHEAT UPTURN.

Increased Prospect for War With Mexico Also Used by Bulls to Elevate Prices.

CHICAGO, June 26.—Reports of black rust and other adverse crop conditions in the Southwest, together with increased prospect of war with the Carranciana, tended today to bring about an upturn in the wheat market here. Largely as a result closing quetations, although unsertied, were the to the net higher, with July at \$1.01%, and September at \$1.04%. Corn finished unchanged at the up, call varying from the decline to the advance, and provisions at a rise of 75% to 20c.

Coarse grains were strengthened by an improved demand from shippers, including export sales of 200,000 bushels of corn and 250,000 bushels of corn would be shipped from here this week, Higher temperatures, though acted somewhat me to bearish offset on corn.

though, acted somewhat as a bearish offset on corn.

Excellent crop reports made the bulls
timid regarding cats.

Highest prices of the season were
reached for pork and ribs (bacon). The
basis of the advance was a rise in the
value of hogs. Announcement from Liverpool that a movement was in progress
there to boycott bacon from the United
States appeared to have no effect on the
market here.

and Edward Williams sustained a broken shoulder bone as a result of automobiles skidding on the slippery roads yesterday. None of the cars was damaged to any extent. While coming down the grade from Bingham Springs the Dos Swearingen car skidded over the bank, pinning beneath it the five occupants. Mr. Williams was the only one injured.

It required two horses considerable time to extract the John Mumm machine from a ditch into which it had skidded. Many who started toward the mountains were stuck in the deep mud. The condition of the road after the heavy rainfall made driving very dangerous and many serious accidents were narrowly averted.

Good road building and the building of high-ways will be of greater benefit to the people at large than almost any other National development. They will be paid for by the people. The lower cost of motor vehicles and the production of power trucks opens a field of development that will intensify road building. Such traffic, together with that created by motor buses will have the same big development here as abroad. A good road is one that is serviceable every day in the year and this can only be brought about by hard-surfacing with BITULITHIC.
