

NATION NOW WAITS CARRANZA DECISION

War Preparations Rushed and Militia Is Sent to Border Without Physical Tests.

CONGRESS SUPPLIES FUNDS

Emergency Expense Measures Are Prepared—Railroads Prepare to Crowd Supplies and Men Through to Texas.

WASHINGTON, June 26.—The United States now is waiting for General Carranza's final word in reply to the note sent yesterday demanding release of the prisoners taken at Carrizal and a formal diplomatic announcement of intentions.

The note reached Mexico City late last night. Special Agent Rodgers reported its receipt, adding that he had called in his first efforts to place it in the hands of the Carranza Minister of Foreign Relations. Undoubtedly it was delivered today. Officials looked for an answer within a day or two at most.

Meanwhile both Congress and the War Department have been busy with their preparations for war.

Rush Call Made for Troops. War Department activities during the day covered a wide field. Supplemental orders to departmental commanders called for greater haste in getting the National Guard to the border.

Authorization went out to accept the men under the physical examinations on which they entered the state service, postponing final examination until they are on route or ready for the border. Those found unfit will be sent back at once.

Estimates to cover the pay and maintenance expenses of the state troops totaling \$38,000,000 up to January 1, were laid before Congress. With them went figures of \$13,000,000 for the purchase of horses and mules for Army use. The total estimates of the Quartermaster-General alone pass the \$100,000,000 mark.

Army Bill Put Through. The House passed the annual Army appropriation bill after adding \$26,000,000 for emergency purposes during the brief debate that preceded the vote. An urgent deficiency bill carrying \$25,000,000 for National Guard pay, equipment and transportation was framed in committee for presentation to the House tomorrow.

Railroad representatives were called into conference at the War Department to discuss the shipment of troops and supplies to the border.

A definite plan was mapped out under which traffic agents in all lines will work with Army supplies, insuring them right of way at all switching points.

Military Censorship Proposed. Plans for military censorship over newspapers, magazines and other publications as well as other lines of communication were talked over in a conference conferring broad powers in this regard upon the President was framed for submission to Congress.

In the Senate, the National Guard draft resolution was passed with amendments, which will necessitate its return to the House possibly by conference. The National Guard. They estimate that when the regiments reach the border under new orders, some companies will be physically inspected by the men discovered to be physically unfit on final examination.

Great Force to be Entrained. Indications were that 10,000 might reach the border this week. Two weeks probably 50,000 could be transported south and within three weeks the whole force summoned under President Wilson's call might be moved.

President Wilson expressed to callers today his appreciation of the announcement of business houses throughout the country that their employees would be permitted to serve with the National Guard without loss of salaries. He said that the employers have sent such announcements direct to the White House, and the President has written thanking them. To one New York company whose offer reached him today he wrote: "The patriotic response of the business men of America in the present unusual circumstances has been what I personally, confidently expect."

New Treatment For Constipation Is Successful

Lubricating Bowels With Refined Paraffine Oil Gives Fine Results.

To lubricate the inside of the bowels with highly refined petroleum is the basic principle of a treatment for constipation now being used in North America and Europe with remarkable success. The value of petroleum for such a purpose was first advocated by Sir Wm. Arbuthnot Lane, M. D., an eminent English physician. The new remedy which is being sold by The Owl Drug Co. under the name of Amerol is not a medicine in the ordinary sense of the word; it contains no drug, alcohol or poison. It is a colorless, tasteless and odorless liquid paraffine, which when taken passes through the bowel, oiling the passage as it goes and softening all the hardened masses which have caused the constipation. The resulting movement is absolutely natural, easy and agreeable. Amerol does not absorb into the system. It causes no pain or griping and is not in the least weakening in its effects. It is sold in pint bottles at 50c per bottle.

HERE IS HOW MEXICO'S FIRST CHIEF LOOKS TODAY.

LATEST PHOTOGRAPH OF VENUSTIANO CARRANZA.

General Carranza, while visiting the department of communications of Mexico, Mexico City, was presented with a miniature of the latest model field gun designed and constructed by a Mexican engineer. General Carranza has of late visited many of the government's departments in Mexico City and is becoming quite popular with members of all branches of the service. When Carranza appeared on the balcony of the National Palace and stated to the populace his views concerning the presence of the United States troops in Mexico, he was greeted with great cheering.

pected it would be, and it affords me genuine pleasure to have this opportunity to express my admiration and gratification.

Some to Stay in Mexico.

State Department estimates fix the number of Americans remaining in Mexico at approximately 1000. All of those who decide to leave are expected to be en route north by the end of the week. Some have announced their intention of remaining, whatever happens. This number grows less from day to day, however, as individuals change their minds and apply for transportation. The department is unable to estimate how many are determined to stay.

Consuls at Manzanillo and Fronteras have started home. No consuls now remain in the interior. Some are living at ports where American war craft are keeping vigil for refugees to give their countrymen aid. At Vera Cruz, where more than 400 Americans from Mexico City arrived in the last few days, the congestion has been relieved by the departure of a Ward liner, crowded above capacity.

Equipment is Ample.

In connection with oil fields in the Tampico region, it is known that the attitude of the Carranza commander in charge at the fields themselves has been much more conservative than that of General Nafarrete at Tampico itself. State Department officials feel that this condition may serve to protect the wells somewhat in the event of war.

MOOSE ARE FOR HUGHES

(Continued From First Page.)

permitted to select their own candidate for President. He intimated that he might vote for President Wilson.

While the debate was at its height Charles H. Wilson, Democrat in charge at the Carranza Convention from Virginia to the Progressive National Convention opposing the endorsement of any other than a Progressive for President. He challenged the right of James B. Garfield to vote for Hughes on the ground that he held the National committee from Virginia. Mr. Garfield said he had never heard of the action and finally declined to be sworn in.

The following states voted for the endorsement of Hughes on the rollcall:

Oregon Votes for Hughes. Alabama, Arizona, Arkansas, California, Colorado, Connecticut, District of Columbia, Georgia, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Maryland, Michigan, Minnesota, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, South Dakota, Texas, Vermont, Virginia, Wyoming, Hawaii. Many of the committeemen in voting took occasion to explain their votes. Harold Le Joken, of Illinois, said that 70 per cent of the Progressives of his state would vote for Hughes. William Plunkett, of Pennsylvania, said that 85 per cent of the Progressives in Pennsylvania were for Hughes. Dr. Harris, of Rhode Island, said that a majority of the Progressives in his state favored Wilson. Committeeman Griffiths, of Washington, said that a majority of his constituents favored a third ticket and that President Wilson had many supporters.

Resolution Finally Adopted.

The resolution as finally adopted after seven hours of debate was as follows:

"Whereas, The statement issued by this committee in January and the platform adopted by the Progressive National Convention set forth that putting aside all partisan considerations in view of existing world and National conditions, we would work with any man or party who saw the Nation's need and put forth a leader fit to meet it, and, "Whereas, We believe with Colonel Roosevelt that in nominating Charles E. Hughes, of New York, the Republican party has put forth such a leader, we endorse and concur in the recommendation of Colonel Roosevelt that we support Mr. Hughes."

The executive committee organized following the adjournment of the committee meeting. Mr. Perkins was re-elected chairman, O. K. Davis secretary and Elton H. Hooker treasurer. The executive committee will meet in New York within ten days to confer with Mr. Hughes regarding campaign plans.

Systematic mountain climbing as a sport began in 1854, when Sir Alfred Wills ascended the Watterhorn.

MR. HUGHES STANDS FOR AMERICANISM NOTE

Nominee Indorses Stand of Colonel Roosevelt on Nationalism Issue.

DEMOCRATS ARE ASSAILED

Weakness and Inertitude of Administration Blamed for European Troubles and Mexican Situation.

(Continued From First Page.)

of thing could not continue if the Administration took measures to stop it. That responsibility the Administration cannot evade by condemning others.

"It was officially stated by the Secretary of State in the Mexican note of June 20, 1916, that for three years the Mexican republic has been torn with civil strife; the lives of Americans and other aliens have been sacrificed; vast properties developed by American capital and enterprise have been destroyed or rendered non-productive; bandits have been permitted to roam at will through territory contiguous to the United States and to seize, without punishment or without effective attempt at punishment, the property of Americans; a demonstration of an unpardonable neglect for which the Administration is responsible.

Nation Still Unprepared.

"And still we are unprepared. That unpreparedness in the midst of perils, and after the experience of three years, is a demonstration of an unpardonable neglect for which the Administration is responsible.

"The Government now has and must have most emphatically the unstinted and patriotic support of every citizen in its effort to bring about a safe, sound, loyal and patriotic support of the Government is one thing; approval of the fatuous course which the Administration has followed is quite another. I cannot in this message adequately review that course; that I shall do later.

"No intelligent man is deceived by the temporary prosperity due to abnormal conditions and no one can fail to appreciate the gravity of the problems with which we shall be faced when the war ends. We are alive to the imperative necessity of assuring the bases of honest business.

Stable Foundation Put First.

"I am in deep sympathy with the effort to improve the conditions of labor in the mining industry. It unquestionably is a patriotic and safe-guarding the future of the Nation by protecting our women and children. I believe in workmen's compensation laws; and I believe in the conservation of our resources so that they may be protected, developed and used to the utmost benefit of the Nation.

"To what agency shall we look for the essential constructive programme on which our security and prosperity depend? It is in the Republican party. That party has not the National outlook. Both its political and economic policies are fatal handicaps. I have no sectional word to utter. We are to elect a President of the whole country, not of the North, East and West, will be the result of our endeavor. But it is sober truth that the Republican party forward we must make the Republican party the instrument of our advance.

"We want deeds, not words; far-reaching National policy. The Progressives have insisted on a responsible, not invisible, Government; an efficient administration. I yield to no one in that demand. I am eager to recall the best ability of the country to our aid. For the conduct of the department the executive is directly responsible, and there is no excuse for the toleration of incompetence in order to satisfy partisan obligations.

Earnest Effort Solicited.

"I am deeply appreciative of your endorsement. I find no difference in platform or in aim which precludes the most hearty co-operation and the most complete unity. It is within the party that the liberating spirit you invoke can have the widest and most effective influence. I solicit your earnest effort for the national cause."

The letter to Colonel Roosevelt was as follows:

"I warmly appreciate the cordial letter of endorsement which you have sent to the Progressive committee. No one is more sensible than I of the lasting indebtedness of the Nation for the policies of the National spirit, for demand of an out-and-out 100 per cent Americanism, and for the insistence upon the immediate necessity of a thorough-going renaissance, spiritual, military and economic.

"I am in this campaign because of the conviction that we must not only frame, but execute, a broad constructive programme, and that for this purpose we must have a united party, a party inspired by its great traditions and reconsecrated to its loftiest ideals. I know that you have been guided in this emergency by the sole desire to be of the largest service to the United States. You have sounded forth the trumpet that shall never call retreat. And I want you to feel that I wish to have all the aid that you are able and willing to give. I want the most effective co-operation with all those who have been fighting for the cause. Let us work together for our National security, and for the peace of righteousness and justice.

Mr. Hughes Wants to See T. R.

"I inclose a copy of my telegram to the committee, in which I have set forth my attitude. I shall later undertake a full discussion of the issues of the campaign. " Hoping that I may have the pleasure of seeing you at an early day, I am, my dear Colonel Roosevelt, with cordial regards, faithfully yours, "CHARLES E. HUGHES."

Mr. Hughes has virtually decided, it was learned today, on the man who will become the party's next National chairman and probably will announce his name in a day or two. Branch headquarters, it is expected, soon will be established in Chicago and also on the Pacific Coast.

Joseph Keating, former National Republican committeeman from Indiana, and Charles Warren, of Detroit, have been strongly urged for vice-chairmanship, to take charge of the Chicago office, and Ralph E. Williams, Republican committeeman from Oregon, as a vice-

JOHNSON SUPPORTS HUGHES

Former Bull Moose Leader Follows T. R. in Indorsement.

SAN FRANCISCO, June 26.—William H. Crocker, Republican National committeeman, who arrived here from the East with Governor Hiram Johnson, said today in a newspaper interview that Governor Johnson would support Charles E. Hughes, the Republican nominee for President.

State Chairman for Hughes.

SEATTLE, June 26.—L. Roy Slater, chairman of the Progressive state central committee, issued a statement in Seattle today in which he urged Wash-

ington Progressives to support Hughes for President. Thomas Murphree, chairman of the Progressive delegation at the National convention, also urged Progressives to vote for Hughes.

Slater and Murphree are perfecting organization of the Progressive-Republican League to work for Progressive principles inside the Republican party.

ACCEPTANCE HELD DOUBTFUL

La Grande Friends of Mr. Murdoch Think He Wanted No Nomination.

LA GRANDE, Or., June 26.—(Special.)—Had Victor Murdoch been nominated by the Progressive National Committee at Chicago tonight, his friends here who have long personal acquaintance with him, renewed by his visit to La Grande yesterday, do not believe he would have accepted. In fact it is reported on the best authority that he confided flat-footedly to friends that he would not. He said of the platform, in an interview, that he was

"not a Democrat and not a Republican, and that the action of the two Chicago conventions left him high and dry."

What he said concerning his support of Hughes could not be learned and he said nothing concerning it from the platform. The only intimation he made of a semi-official nature that might be used as a criterion of his position with Hughes was that he very vigorously criticized Wilson and his Mexican policy.

Connaught to Have Irish Post.

OTTAWA, June 26.—Confidential advice reaching the Canada capital from England intimated that the proclamation of home rule for all Ireland, outside the six Ulster counties, will be accompanied by the announcement that the Duke of Connaught, Governor-General of Canada and an uncle of King George, will be the representative of royal authority in the self-governing portion of the country.

"Asphalt-base" best: in theory and practice

U.S. Gov. experts report that oils made from asphalt-base crude "distill without decomposition" (do not break up and lose their lubricating value under cylinder heat), and "are much better adapted to motor cylinders, as far as their carbon-forming proclivities are concerned, than paraffine-base Pennsylvania oils."

The following extracts of letters from Pacific Coast motorists (typical of hundreds we have received) show the practical experience of all those who use

ZEROLENE the Standard Oil for Motor Cars

Three speech bubbles containing testimonials: "Have covered over 35,000 miles. The valves have never been ground", "I covered over 16,000 miles without adjusting valves or cleaning out carbon", "After running 20,000 miles motor was absolutely free from carbon, and nothing to be done to the motor".

(Names of owners and cars furnished on request) Next time you empty your crank-case, refill with Zerolene. Copy of address on Motor-Cylinder Lubrication before the American Society of Naval Engineers, by Lieut. Bryan, U.S.N., will be sent on request. Standard Oil Company (California) Portland
