GRAHAMONA IS BACK

Damaged Steamer Taken on Oregon Dry Dock.

CANNOT BE FOUND

Seven Frames Broken, One Cracked and Several Holes in Planking of Hull Found, but Repairs May Be Completed Today.

Seven frames broken and one cracked, with several holes in the planking of her hull between the frames, sums up the apparent damages to the Yellow Stack steamer Grahomona, which reached here yesterday from Salem, where she was taken Monday night after being floated from Eola Bar where she struck a snag Saturday night od sark. The steamer was lifted on the Ore-

gon drydock in the afternoon, as high water interfered with the use of the ways at Supple's yard and the steamer Ruth was on the cradle at the Port-land yard. She reported from Salem shortly before noon and a crowd of shipcarpenters was picked up and ma-terial required loaded, after which she

terial required loaded, after which she proceeded to the drydock, so immediately on being high and dry the task of tearing away the damaged frames and planking was begun.

While it is felt certain that the Grahamona struck a snag, no trace of the offending derellet was found. The steamer Gray Eagle, which went to the scene immediately on the plight of the Grahamona being made known, was used from which to sound through the Eoja Bar channel and good water was found over the entire area and no trace noted of an obstruction, the assumption being that the snag floated out after the damage was done.

Bassengers booked on the Northern Pacific from San Francisco. No freight from Flavel with 168 passengers and 166 tons of miscellaneous freight.

Marine Notes.

Hannevig & Johnson, of New York, who works and the Northwest Steel Company for a fifth steel steamer last week, have found over the entire area and no trace noted of an obstruction, the assumption being that the snag floated out after the damage was done.

out after the damage was done.
At Salem the steamer Gray Eagle
assisted in clearing the hold of water,
three six-inch pumps being used and
soft patches were applied so the Grahamona made her way here under her

the river at 4:45 o'clock yesterday afternoon.

Joe Blyth, of San Francisco, of the
custom-house brokerage firm of C. D.
Bunker & Co., is in the city on business.
Inbound, the gasoline schooner Tillamook
brought 1255 cases of salmon, So cases of
butter and cheese, also 10 tons of hides and
other freight, all from Coos Bay, and she
was cleared for the return voyage with
300 tons of miscellaneous cargo.

In tow of the steamer Sarah Dixon,
barge No. Si, of the Standard Oil fleet,
leaves down today. She dischargod 24,000
barrels of fuel oil yesterday at Willbridge,
The tanker Atlas unloaded at the same
betth, her cargo being made up of 83,087
gallons of pearl oil, 147,842 gallons of distiliate, 475,165 gallons of gasoline and 17,522 gallons of twine oil. The Atlas will
tow the barge down the Const.

With 20 drums of distillate and seven tons
of grain, the gasoline schooner Gazelle was
cleared yesterday for Newport.

United States Steamboat Inspectors Ed-United States Steamboat Inspectors Edwards and Wynn have set 5 o'clock this morning as the time for investi-gating the Grahamona case, Captain Bluhn and others of the crew being summoned to testify. Repairs may be completed on the vessel before the inreatigation is concluded and it is planned to start her on the return to Corvallis tomorrow morning. At first it was estimated she could not be made ready to resume service until Saturday.

ROSE READY NEXT MONTH

New Lighthouse Tender Comes to River for First Duties.

On the new lighthouse tender Rose, being placed in commission about July 15, which is the date now expected by Inspector Robert Warrack, of the Seventeenth Lighthouse District, she will ordered from Seattle, where she being finished, to the Columbia ver. Her first work will be on post lights and other aids to navigation between Portland and the estuary of the Columbia.

Derrick equipment aboard the Rose has a lifting capacity of eight tons, and Inspector Warrack says in many ways she will be able to do the work of the larger tenders, though built smaller and of shallow draft so as to be of service in the outside harbors of Oregon and Washington. Captain Modeer, who was first officer on the tender Manzanita under Captain Richardson is to command the Possible Prichardson is to command the Possible Prichardson in the command the Possible Prichardson is to command the Possible Prichardson is to command the Possible Prichardson in the Possible Prichardson is to command the Possible Prichardson in the Pos the tender Manzanita under Captain Richardson, is to command the Rose, and First Officer Ole Ericksen, of the Heather, goes on the Rose in the same capacity. W. C. Osman, first assistant engineer on the Manzanita, goes as chief engineer of the Rose, and other appointments are yet to be made.

RIVER HIGH AT WHITE SALMON

Present Stage Equaled Only Once Since Year 1894.

WHITE SALMON, Wash, June 27.— Special.)—With the exception of the cason of 1913 the White Salmon-Hood River district is passing through the highest water stage of the Columbia River since 1894. The morning of June 22, this season, the river at White Salmon was 33 feet and 6 inches above zero. In 1913 the water was higher by 3 feet 3 inches. In 1894 it was 10 to 15 feet bloker.

The fertile river bottom lands along the Columbia at White Salmon produce annually a heavy tonnage of hay. The first cutting usually takes place be-fore high water comes and one or two

o damage has occurred excepting loss of a hay crop by one rancher. The North Bank Road has experienced some trouble at the long fills near Cooks and the Door siding between White Salmer and Lule

to the contractor.

The tender made a trip to Tilla-mook Rock Monday under favorable sea conditions and delivered supplies there. The Mananita, which has been on Puget Sound, is due back from ther today. She will have to look after all work for the next two weeks, but there promises to be little demand for her services, as general work in the district has been taken care of up to date.

LUMBER SCHOONER UNDER WAY

Work on Second Vessel for Swayne & Hoyt at Aberdeen Starts.

ABERDEEN, Wash., June 27 .- (Special.)—The framework is being erected now for the second auxiliary lumber carrier being built at the Schubach yards for the Swayne & Hoyt Company, of San Francisco, and it will not be long until the keel for the third whin at these yards is lets! ship of these yards is laid.

Five sailing vessels now are en route here. These are the schooners Dauntless, 42 days from Noumea; Annie Larsen, 53 days from Lyttleton; Repeat, 19 days from Honolulu; Mabel Gale, 14 days from Kahulul, and A. B. Johnson, seven days from San Fran

Clatskanie River Overflows.

CLATSKANIE, Or., June 27.—(Special.)—The Clatskanie River is steadily rising, the banks are under water at aeveral points. Much damage will be done to crops if the overflow increases. The mills will also be forced cial)—The Clatekanie River is steadily rising, the banks are under water at several points. Much damage will be done to crops if the overflow increases. The mills will also be forced to close.
