

THIRD BATTALION IS ON WAY TO BORDER

Oregon Infantry Is Entrained Week After Mobilization of Militia Is Ordered.

CROWD CHEERS SOLDIERS

Shasta Locomotive Pulls Long Train That Will Have Right of Way Over All Other Traffic on Southern Pacific Line.

(Continued From First Page.)

of the troops were at the station to cheer them on their way.

By Thursday night the last troops will have left Camp Withycombe for the border, Captain Kenneth P. Williams, Federal mustering officer for Oregon, announced tonight.

Battery A, field artillery, 5 officers and 171 men, under Captain Charles W. Helme, will entrain at 9 o'clock tomorrow morning for Calexico, Cal.

The Second Battalion, comprising companies B, F and H, of Portland, and Company G, of Oregon City, under Lieutenant-Colonel John L. May, will leave camp by 6 o'clock tomorrow night in another troop train.

Captain White Leads Troop. Troop A, Captain George A. White, commanding, will leave tomorrow night with the Second Battalion.

Major Mosher will join the battalion at Woodburn.

The destination of the Second Battalion, like that of the Third, will be San Diego.

The First Battalion, comprising Companies A, of McMinnville, and B, C and D, of Portland, under Major L. A. Bowman, and the machine gun company of the Third Infantry, Captain Franklin P. Tebbetts, will move Thursday, completing the movement of Oregon troops to the border.

Colonel Cleland McLaughlin and headquarters of the Third Infantry also will go with this battalion. The destination of the First Battalion and headquarters had not been learned tonight by Captain Williams, though he expects information soon. It is not believed that the First Battalion will go to San Diego, however.

7000 WELCOME COMPANY M

Families Say Goodbye and Gifts Are Made to Soldiers.

SALEM, Or., June 27.—(Special.)—Every member of Company M got a reception and a farewell from about 7000 people, including his own folks, when the train carrying the Third Battalion stopped here at 7:30 for 10 minutes tonight. They got not only greetings and handshakes, but about a ton of good things to eat, two big truckloads of baskets and boxes filled up by mothers and sisters, and the boys without any mothers got fully as much as the other fellows.

Governor Withycombe had been asked to make a speech, but declined, saying the boys didn't want to listen to him with only a few minutes to talk to their own families.

There was little cheering. The people inside the block-long space roped off for relatives struggled in the jam to get nearer the particular head and shoulders they were looking for in car windows and the crowd outside the ropes was tense at the dramatic force of the scene.

A heavy shower discouraged no one. Besides the individual offerings there were 150 baskets of Royal Ann cherries, one for each member of Company M, from the Cherrians.

A touching incident occurred when Major Carl Abrams, battalion commander, got off the train to find his wife and baby boy, and wept as he kissed the child and said goodbye to his wife.

The wife of Lieutenant L. H. Compton, Major Abrams' aide, waited at the depot from 8 o'clock, but was unable to find her husband until just before the train pulled out.

ALBANY TURNS OUT IN FORCE

Coast Artillery Company at Attention as Train Reaches City.

ALBANY, Or., June 27.—(Special.)—Half the population of Albany, together with 250 automobile loads of Corvallis residents, greeted the troop train bearing the First Oregon militiamen to entrain for the border when it arrived here at 9:15 tonight.

The Albany delegation was headed by the Municipal band, while the Spanish War Veteran drum corps, of Corvallis, led the walkers. The Fifth Company, Coast Artillery, of this city, was also out in full uniform and stood at attention as the long train pulled into the station.

Most of the Corvallis people who were here were bidding good-by to a son, brother and in some cases a father numbered among the company from that city.

An aged couple whose son is a member of the Corvallis company arrived in the city on the noon train and remained at the depot from that time until the train arrived, in order to make sure they would get to see him.

The soldiers were showered with gifts, including articles of clothing and delicacies. The train cleared for the south at 9:30.

New Jersey Infantry Leaves.

SEA GIRT, N. J., June 27.—The First New Jersey Infantry got away today over the Pennsylvania Railroad for El Paso.

DRINK HABIT MAKES PAUPERS OF CAPABLE MEN

A Life Wasted Drinking Means a Dependent, Unhappy Old Age.

If you are a drinking man, look into your past life and note the many good opportunities for success you have missed because you were under the influence of liquor at the time you should have been strictly sober. Compare the success of your business life with that of the sober man. When you realize the habit of drinking means failure, go to the Neal Institute, corner Broadway and College, Portland, Oregon, or take the Neal Home Treatment—and have the craving and necessity for drink removed. It is safe and sure. Painful, dangerous hypodermic injections are never used. Reliable and permanent and fully guaranteed. Call and investigate, or write or phone for book or information. Phone Marshall 2400. All drug habits treated. Automobile sent patients day or night.

14 JOIN NAVY IN DAY

Recruiting Records Broken and Five More to Enlist.

TWO CITIES ARE YET AHEAD

Increases Ordered in Navy Are Believed to Be Responsible for Applications—Three Will Try for Annapolis.

All records for the local recruiting office of the United States Navy were broken yesterday when 14 recruits were examined and admitted to the service. In fact yesterday's record beats by one recruit the former record for any week since the local office has been in operation.

Two weeks ago the enlistments from Portland for seven days were exceeded only by the New York and Boston offices. This week bids fair, says Lieutenant John Blackburn, recruiting officer, to eclipse the records set up by those cities. Beside the 14 who were added yesterday, five more are expected to be added today, the physical examination having been given yesterday.

Lieutenant Blackburn attributes, in part, the large number of recruits to the fact that the Navy increase, that represents more than a 40 per cent increase, will offer a correspondingly large per cent of coveted ratings that may be acquired by the enlisted man through a term of faithful service.

Three of the recruits added yesterday were graduates of The Dalles High School. They are Lewis Gunning, Alfred Bayley and Frank Tyler. They passed both the mental and the physical

tests high. They intend to take the competitive examinations for Annapolis appointments. One other young man of The Dalles will also enlist as soon as he can be relieved of his present position. He is J. Sturtevant. Because of the increase that the Navy will soon receive in its number of men and officers, Lieutenant Blackburn has been laying the groundwork for getting the most and best recruits possible. He returned Monday from Medford, where he will soon open a branch of the local recruiting office.

Clatskanie Men Will Serve. CLATSKANIE, Or., June 27.—(Special.)—A mass meeting was held Saturday evening to ascertain the feeling of the able-bodied men toward the present crisis. G. F. Piezy, a Spanish War veteran, presided. One of the most stirring speeches of the evening was made by Enoch W. Conyers, one of the few remaining veterans of the Mexican War. Much enthusiasm was shown and several expressed their willingness to enlist if the call comes.

WOODBURN CROWD IS SILENT

Gifts Are Sent to Soldiers and Relatives Bid Farewell.

WOODBURN, Or., June 27.—(Special.)—When the train bearing the

Third Battalion from Camp Withycombe to San Diego pulled in here at 7:15 tonight it was met by an immense throng of people, who came to bid farewell to the members of Company I, of Woodburn, and also to Woodburn boys who had been transferred to Companies L and K. Soldiers bade farewell to relatives during the 14-minute stop. A truckload of gifts from relatives and citizens went to the Company I car, containing lunchboxes of oranges and tobacco. There was no cheering as the train pulled out, the boys understanding that they were leaving behind those too grief-stricken to cheer. The officers of Company I are prominent citizens of Woodburn. Captain Grover Todd, First Lieutenant F. A.

Lively and Second Lieutenant Benton Killin.

RAIN IS DEFIED AT EUGENE

Crowd of 1000 Waits for Troops to Pass Through City.

EUGENE, Or., June 27.—(Special.)—At 8 o'clock tonight more than 1000 citizens, despite a heavy downpour of rain, were at the Southern Pacific station waiting the arrival of the special train carrying the Third Battalion to the Mexican border. Southern Pacific officials announced that the train would not arrive in Eugene until 10:15.

TROOP TRAINS ARE RUN WITHOUT COST

Southern Pacific Paying for Land Grant Given by Congress Years Ago.

TRACKS ARE CLEARED

Movement of Oregon and Washington Militia Is Now Under Way.

Special Cars Are Sent to Clackamas Camp.

Uncle Samuel is at last in a fair way to cash in on its land grant given to the Oregon & California Railroad Company so many years ago, now the property of the Southern Pacific Company. For by the terms of that grant, the railroad company, its heirs and assigns, must carry soldiers, sailors, their equipment and goods without charge whenever the Government desires. And some right smart hauling of troops is in sight.

Special trains carrying soldiers will Special southward over the Southern Pacific for some time. All these troop trains will be run without any revenue whatever to the railway from Portland to Roseville Junction, in the vicinity of Sacramento.

Troops Have Right of Way.

Yet all the troop trains will have the right of way and all other trains, even the crack Shasta Limited, must wait on sidings while the soldiers pass on their way to Mexico. It is not expected that any new records will be made, however, by the trains, because they are mixed in character, made up of both passenger and freight cars.

The first troop train got away from Clackamas at about 6 o'clock last night carrying the Third Battalion. It was made up of one standard, eight tourist, two baggage, two box and two flat cars.

A special train will carry Battery A, leaving today. It will consist of the following: Five tourist, two baggage, three box and 11 flat cars.

Washington Also Moves.

The Second Battalion will get away on another special train today. One standard, eight tourist, two box, two baggage and two flat cars will carry the troops.

The headquarters staff, the regiment band and the First Battalion will be moved by special train leaving Camp Withycombe Thursday. This train will be composed of two standard, eight tourist, two baggage, two box and two flat cars.

This will complete the present movement of Oregon troops to the Mexican border. But from American Lake, where 2074 men and 65 officers of the Washington National Guard are encamped, will come a special train, expected to move tomorrow, carrying 240 officers and men, consisting of five tourist, two baggage, one stock, three box and three flat cars.

Naval Militia Awaits Call.

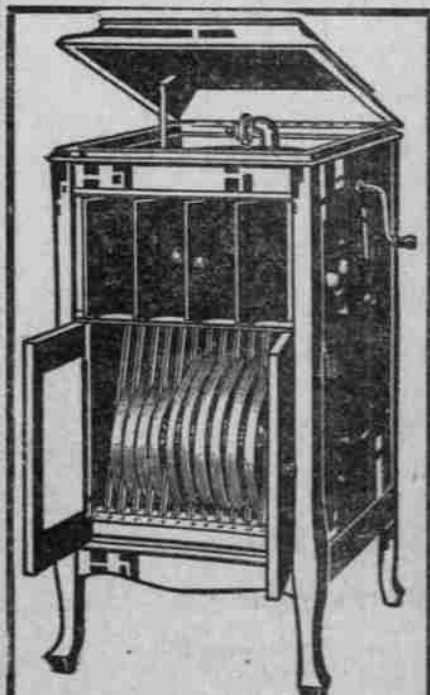

ABERDEEN, Wash., June 27.—(Special.)—The Fourth Division of Naval Militia of this city, under the direction of Lieutenant E. A. Bradner, is preparing for instant mobilization. The 10 members of this command are to be vaccinated this week, and preparation made to call the men together quickly if needed.

Lieutenant Bradner said today he was confident that the Fourth Division would be called out in a few weeks at latest and perhaps within a few days. In case of a call he expects to carry about 100 men from Aberdeen. There are five Naval Militia divisions in the state, which altogether have a membership of about 400 men.

ASTORIA MEN PATRIOTIC

Eighty Sign for Organization of Coast Artillery Company.

ASTORIA, Or., June 27.—(Special.)—At a meeting tonight 80 men signed for the organization of a local company of the Coast Artillery Corps. The meeting was under the auspices of the Spanish War veterans and it is probable that fully 150 names will be on the roll within the next few days.
