

GERMAN U-LINER IN AMERICAN PORT

Submarine Crosses Ocean with Cargo of Dyes.

VOYAGE REQUIRES 16 DAYS

Vessel Will Take Home 750 Tons of Nickel and Rubber Needed by Germany.

TUG WAITING AT CAPES

Commander Puts All Caution Aside, Blows Siren When in American Waters.

BALTIMORE, July 9.—The world's first submarine merchant vessel, the German underwater liner, Deutschland, anchored below Baltimore tonight after voyaging safely across the Atlantic, passing the allied blockading squadrons and eluding enemy cruisers watching for her off the American Coast.

She carried a message from Emperor William to President Wilson, a quantity of mail, estimated at 750 tons, and a cargo of 750 tons of costly chemicals and dyestuffs and is to carry back home a similar amount of nickel and crude rubber sorely needed by the German army.

Voyage Takes 16 Days. Sixteen days out from Bremerhaven to Baltimore, the submarine reached safety between the Virginia capes at 1:45 o'clock this morning, by a heavy pall of darkness which settled over the entrance of the bay, with the setting of a tell-tale half moon.

Once inside, the visitor threw caution aside and began shrieking his siren signalling a pilot, and at the same time attracting the attention of the tug Thomas F. Timmons which had been waiting in the lower bay for nearly two weeks to greet the Deutschland and convey her into port.

German Merchant Flag Flying. Three hours later, at 4:45 o'clock this morning, the big submarine started up the bay with the German merchant flag flying, under her own power, piloted by Captain Frederick D. Cooke of the Virginia Pilots' Association and conveyed by the Timmons. She was making more than 12 knots an hour, and could have docked in Baltimore tonight, but arrangements had been made for receiving her with formal ceremonies tomorrow and her captain was ordered to wait in the lower harbor. He and his crew of 29 men remained aboard the craft.

Regarding his vessel as a merchantman subject to no unusual restrictions, the skipper, whose name is said to be Captain Kairig, went up the Chesapeake without waiting to notify local customs and quarantine authorities of his presence.

Craft Under Surveillance. He was five hours away before Norman Hamilton, collector of Norfolk-Newport News, heard the news, and started on his trail aboard the Coast Guard Cutter Onondaga. At last reports tonight the cutter had not apprehended the submarine, and it is understood that she merely was ordered to keep the strange craft under surveillance as a neutrality measure. Quarantine and port regulations will be complied with when the vessel moves up to her dock tomorrow.

Little was known here tonight about what happened during the epoch-making cruise across the ocean, which in a small measure at least breaks the blockade on German trade with the rest of the world. None of the submarine's crew had landed and the agents of her owners had received only meager reports. Such information as was available came indirectly from the pilot and from Captain Hans F. Hirsch, of the North German-Lloyd liner Neckar, laid up here since the beginning of the war. Captain Hirsch boarded the Deutschland from the Timmons and made the trip up the bay with her.

LIFE OF ARGENTINE PRESIDENT SOUGHT

ANARCHIST IN GROUP OF SPECTATORS FIRES SHOT.

Attempt Made While Buenos Aires Is Celebrating Centenary of Independence of Nation.

BUENOS AIRES, July 9.—An attempt to assassinate President de la Plaza was made today by a self-styled anarchist. The President was standing on a balcony of a government building reviewing some troops when a man in the crowd of spectators suddenly drew a revolver and fired at him. The shot went wild and the would-be assassin was arrested.

The attempt took place while Buenos Aires was celebrating the hundredth anniversary of independence of Argentina. Dr. Victorino de la Plaza was elected vice-president on June 12, 1910, and succeeded to the presidency on the death of President Saenz Pena on August 9, 1914.

He was defeated for a second term in a bitterly contested election last June, in which the radical candidate, Dr. Hipolito Irigoyen, was elected. President de la Plaza leaves office on October 12.

CURRY TO OFFER SCOUTS

Spanish War Veterans Are to Raise Company of 100.

BANDON, Or., July 9.—(Special.) Preliminary arrangements for the organization of a company of 100 scouts, whose services will be tendered to the Government, are being made in Curry County, with District Attorney J. C. Johnson and F. B. Tichenor, of Port Orford, at the head of the movement.

Both Mr. Johnson and Mr. Tichenor are veterans of the Spanish-American War, and the former has seen 18 years of service in the Army. Unless the threatened trouble with Mexico clears away shortly, recruiting offices will be opened in Langlois, Port Orford, Gold Beach and Brookings.

MINE SALE IS POSSIBLE

Shipments of Ore From Property Near Eugene Indicated.

EUGENE, Or., July 9.—(Special.)—The sale of the Lucky Boy mining properties in the Blue River district probably will be completed within the next few days, according to J. W. Owen, of Blue River, who was in the city today.

Portland men took an option on the property several months ago and have been carrying on extensive development work.

An application has been made to the County Court asking permission to use the county road in hauling ore to the railroad.

BILLY SUNDAY AT HOME

Evangelist to Spend Summer Working on Hood River Farm.

HOOD RIVER, Or., July 9.—(Special.)—Accompanied by "Ma" Sunday and his two sons, Rev. W. A. Sunday arrived here last night from Winona Lake, Ind., and will spend the summer at his Hood River home. The noted evangelist will remain here until about the middle of August, tending his hay and doing other farm chores.

He will begin a series of evangelistic sermons at Detroit September 10. Before leaving for the East, however, he and his family will spend a week at Ocean Grove.

WATER BUREAU IS LOSING

Cool Weather Stops Sprinkling and Meters Cut Revenue.

Cool weather during the present summer has meant the loss of a great deal of revenue to the city water bureau, owing to the curtailment of sprinkling. The bureau has been caught on its metered services by reason of far less use of water than last summer, and is also about 1200 applications behind for sprinkling under the flat rate system.

Each sprinkling application represents at least \$3 in revenue for the year. The loss through use of meters will run into the thousands of dollars, it is estimated.

OREGON BOYS ARE CHEERED

Regiment Has Enthusiastic Reception at Exposition.

SAN DIEGO, July 9.—(Special.)—The Third Regiment, Oregon National Guard, was the attraction today on the exposition drill grounds, where it was received with marked evidence of favor.

A big demonstration was given by people accustomed to seeing work of the pick of Uncle Sam's regulars. The regimental band gave a special concert in the Plaza de Panama and made a distinct hit.

SUICIDE EFFORT SUCCEEDS

Mother Who Shot Self While Grieving for Loss of Child Dies.

ALLIES MAKE SOME FURTHER PROGRESS

British Meeting Stubborn Resistance.

VILLAGE IS TAKEN BY FRENCH

Russians Continue to Pile Up Successes in East.

FOE REPORTED RETREATING

Brussloff Said to Be Making Surprising Advances on Both Sides of Kovel Railroad.

PARIS, July 9.—The French have carried German positions east of Flaucourt on a front of four kilometers and to a depth of from one to two kilometers. They also have captured the village of Blaches, according to the official statement issued by the War Office today.

LONDON, July 10.—The British troops have made "steady progress in the face of stubborn resistance," in the neighborhood of Ovillers, on the Somme front, according to the official statement from general headquarters last night. Two German counter-attacks near the Bois des Trones were repulsed.

Russians Continue Successes. The Eastern war front continues to overshadow the western from the spectacular viewpoint, the Russian forces going from success to success. Not only has General Leitchitzky, in the south, occupied the railroad junction at Delatyn, west of Kolomea, thus cutting off General von Bothmer from his supply base, but General Brussloff, in the north, is making surprising advances on both sides of the Kovel Railway toward the Stokhod River.

Tonight's Russian communication reports the enemy forces in this region retreating in great disorder and adds that the Russians have occupied Huleviche, which is about 24 miles to the east of Kovel, while apparently the Russians already are across the Stokhod River somewhere in the region of Janovka.

Critical Point Threatened. German possession of Baranovichi and Kovel is absolutely essential if she is to retain her hold over the invaded parts of Poland and Lithuania, but it is considered likely that it is only a matter of a few days before the Russians will be in possession of Kovel, which would compel Von Linsingen's retirement from the Lutsk salient.

German official and unofficial dispatches reflect greater anxiety over the Russian advance than over the Anglo-French, which the German military critics contend will not interfere with the operations against Verdun. Major Morant and other German critics express surprise at the extent and persistence of the Russian advance.

AUTO ROBBER IS BUSY IN SPOKANE

DRIVER OF JITNEY AND YOUNG WOMAN LATEST VICTIMS.

Highwayman Declares He Will Rob One Automobile a Night This Week in Spite of Police.

SPOKANE, Wash., July 9.—(Special.)—Claude A. Owen, 1804 Sharp avenue, driver of a jitney on East Sprague avenue, is the latest victim of the automobile robber who says he is back to Spokane to spend a week and "will hold up an automobile each night this week in spite of the police."

Owen was obliged to drive an automobile for more than an hour shortly after 12 o'clock Saturday night while a young woman occupied a seat with him. The robber, masked and about 35 years old, sat in the rear seat with two guns trained on Owen, according to the report to the police.

The robber, who declared he is the same one who held up the East Sprague avenue car recently, said while in the jitney he could have killed Patrolmen Harris and Akers and could have "shot their legs off" as he watched them for two hours before holding up the car.

While a search of the jitney driver gave the robber a \$4.65 profit, the woman passenger concealed her valuables. The highwayman told Owen his pal was sick in a hospital at Butte and that it would be necessary to hold up some other automobile.

"I don't hurt anyone," explained the bandit, who told Owen to go to the police station and tell all about it. He then told of a long list of holdups and robberies, saying he was the one who had held up all the streetcars here recently.

GOVERNOR IN HUMBLE BED

Mr. Withycombe Chooses Boarding-House Instead of Hotel.

ONTARIO, Or., July 9.—(Special.)—Governor Withycombe stopped off here tonight to enjoy a good night's rest, leaving his party to go on to Caldwell, meet ex-Governor Hawley and President Harry Wilson, of the American Nitrate Company, and visit the nitrate fields of Malheur County on Succor Creek, 50 miles south of Ontario. The Governor eluded a reception committee of the Commercial Club and citizens and went to a boarding-house instead of to a hotel. He went motoring with friends in the evening and could not be found.

At bedtime the reception committee was still looking for the automobiles expected to arrive from Succor Creek.

TREE YIELDS 1071 POUNDS

Cherry Record Reported by White Salmon Grower.

WHITE SALMON, Wash., July 9.—(Special.)—A record cherry yield of 1071 pounds of Royal Anns from one tree, which brought \$48.19 at the local cannery, and 216 pounds of Governor Woods from another, bringing \$27.59, a total of \$75.69 from two trees, is reported by George Thomas, of this place. The cannery is putting up a large pack, pays cash for fruits received, and is proving of great benefit to the growers. Outside canneries offered a fraction of a cent per pound more for strawberries and cherries, but the majority of the growers have been loyal to their home institution.

STATE FUND LOOTER ESCAPES FROM JAIL

J. F. Gillies Pries Way Out at Olympia.

WOMAN ACCOMPLICE HINTED

Another ex-Prisoner with Supreme Court Claim Agent.

FLIGHT IN AUTO INDICATED

Alarm Given by Cellmate, Who Is Locked in by Departing Fellow-Captives in Unguarded Prison; Rewards Offered.

OLYMPIA, Wash., July 9.—(Special.)—J. F. Gillies, twice convicted of embezzling \$20,000 from state industrial insurance funds while employed as claim agent for the state, last night pried off two flimsy locks with a bolt as a jimmy, and escaped from the Thurston County Jail. With him went Henry Roberts, awaiting transfer to the reformatory for a statutory offense.

An automobile is known to have left town about midnight, and it is believed to have taken the two men toward Canada. At a late hour today no trace had been reported of either. Shortly after dark last night Gillies and Roberts locked an old man held on a minor charge in his cell and pried their way out. This man's yells attracted Deputy Sheriff Gifford at 8:30 today.

Sheriff McCorkle was at Centralia and James Penning, County Game Warden, who occasionally slept at the jail, was out of town.

By sawing off the riveted end of the bolt by which their cell would have been locked, had that precaution been taken, Gillies and Roberts slipped out the bolt and then sawed the end of it off on the bias to make a chisel point, by which they pried their way out.

Gillies evidently let himself from the window to the ground 15 feet below with a blanket.

Rewards Are Offered. Sheriff McCorkle was notified at Centralia, where he remained until noon searching trains.

Governor Lister immediately offered a reward of \$250 for Gillies, and the Sheriff authorized a reward of \$150 for Roberts.

The driver who took a machine from a local garage had not been found today.

Mrs. Gillies lived across the alley from the jail and was permitted to visit her husband once a week. Roberts' mother and a girl to whom Roberts was reported to be engaged, lived a block away. He has other relatives in Olympia.

Gillies declared after his conviction that he would never go to the penitentiary.

Roberts was recently surrendered by his bondsmen.

Chief of Police Caton at noon today (Continued on Page 4, Column 2.)

CROWN POINT TOP IS WEDDING ALTAR

COLUMBIA TURNS GOLD, SUN BLAZE OF RED FOR CUPID.

Miss Leat Jones Becomes Bride of Benjamin Russell Amid Artistic Setting of Highway.

The artistic temperament of Miss Leah Jones prompted her to start her married life in one of the most artistic settings that could be found, so she chose the crest of Crown Point.

It was last Saturday that Miss Jones and Benjamin Russell, both of Portland, stood on Crown Point and were married by Rev. Alexander Beers, pastor of the First Free Methodist Church. Accompanied by her mother, sister and brother-in-law, besides her husband-to-be and the minister, Miss Jones drove out the highway in the early evening. It was just 7 o'clock when the ceremony was performed, when the sun was setting in a blaze of red. Rev. Mr. Beers said that the view was inspiring.

He said that he had traveled many places but had never seen such a beautiful sunset. "The river looked like a thread of gold," was his enthusiastic remark.

After the ceremony had been performed the party drove to Multnomah and Horse Tail Falls and returned to Crown Point Chale, where the wedding supper awaited them.

Mr. Russell is connected with the Southern Pacific Railroad.

NORTHWEST WHEAT SHORT

Winter Estimated at 23,000,000 Bushels Less Than in 1915.

OREGONIAN NEWS BUREAU, Washington, July 9.—The Department of Agriculture estimates that the winter wheat crop of the Pacific Northwest this year will fall 23,000,000 bushels below the crop of 1915. Detailed figures follow:

Table with 3 columns: State, Estimate, Crop. Oregon: 11,621,000 vs 10,290,000. Washington: 15,245,000 vs 30,630,000. Idaho: 8,415,000 vs 11,810,000.

The Spring wheat crop of Washington this year is estimated at 15,731,000 bushels, as against 19,758,000 bushels last year. Figures are not given for the other Northwest states.

FAIR WEATHER PROMISED

Portland Compares Favorably With Other Cities in Matter of Climate.

Monday—Fair and warmer. This is the weatherman's prediction, backed up by a breeze coming from the Northwest. The Northwest breeze is generally reckoned to make such a forecast good against all odds.

The temperature yesterday was of the ideal summer sort, being just 72. It was warmer in Portland than at Seattle or at San Francisco, where it was 68. At Los Angeles it reached 74 and down on the Mexican border it aspired to the century mark.

INDEX OF TODAY'S NEWS

OREGON SEEKS TO BAR OUT DISEASE

Infantile Paralysis Is Object of Quarantine.

TRAVELERS TO BE INSPECTED

State Health Board Calls on Governor to Issue Orders.

DOCTORS TO MEET TRAINS

Effort Is Being Made to Secure Co-operation of California and Washington to Avert All Possible Infection.

OREGON ADOPTS PREVENTIVE MEASURES AGAINST INFANTILE PARALYSIS. State of quarantine declared at every railroad station in Oregon. Governor Withycombe to issue proclamation to health officers and county judges instructing complainants with quarantine.

Children under 15 years of age, when incoming passengers from East, to be inspected for infection by health officers.

Quarantine of all juvenile arrivals suspected of being infected with infantile paralysis. Attempt to secure co-operation of Washington and California in the adoption of similar measures.

Suspected cases to be reported to State Board of Health without delay.

The entire state of Oregon will be protected by strict preventative measures against the possible introduction of infantile paralysis infection, through orders issued yesterday by the State Board of Health, and forwarded by State Health Officer David N. Roberg to all local health officers, and county judges, throughout the state.

To further insure the observance of these precautions against the plague that is terrorizing New York, Governor Withycombe has been requested by the State Board of Health to issue a proclamation to the county judges of Oregon, instructing them to establish the quarantine at every railroad station within their jurisdiction.

Close Inspection Required. The plan is simple, though necessarily involving a great deal of close observation and the employment of a regiment of medical inspectors and assistants.

Incoming passengers, under 15 years of age, from all Eastern points will be met at each station by authorized inspectors. Their temperatures will be taken. If the temperature be above normal, or if any other indication of the dread malady is observed, the child will be placed under strict quarantine.

Dr. Roberg stated that the Board of Commissioners of Portland will be asked to enact at once an emergency ordinance providing for assistance in the local enforcement of the regulations.

Text of Order Given. The text of the order issued by the State Board of Health, and which has been sent broadcast to every municipal health officer, county health officer, and county judge in Oregon; is as follows:

1.—That quarantine quarters be established at every railroad station at which incoming Eastern passengers may arrive.

2.—That the city and county health officers are ordered by the State Board of Health to inspect all incoming passengers under 15 years of age.

3.—Health officers are ordered to keep a record of the children's names; date and point of departure, and destination; all points of stop-over, and length of time of stop-over.

4.—Health officers are ordered to keep a record of the temperature of each child under 15 years of age, to establish absolutely that the child is not infected.

5.—The finding of any infection of infantile paralysis must be immediately telegraphed or telephoned to the State Board of Health.

Local Aid to Be Asked. In Portland, the Municipal Health Bureau will be asked to render co-operative assistance. Dr. Roberg believes that a great number of nurses, deputy inspectors who are physicians, and assistants, will be necessary to handle the heavy passenger traffic expeditiously.

The chief surgeons of the various railroads will be asked to cooperate in the preventative measures adopted, and requested to instruct the company surgeons at all stations in the state (Continued on Page 3, Column 3.)

THE WAR WILL END WHEN

(Continued on Page 3, Column 2.)
