

CITY PLANT WANTED

Paving Repair Need Pressing, Says Commissioner Dieck.

PROPOSAL REJECTED ONCE

Two Million Square Yards of Improved Streets Will Come Under Municipality for Maintenance by First of Year.

With millions of square yards of pavement coming into the period of municipal maintenance this year the question of how to provide a means of keeping it in repair has become serious.

Commissioner Dieck has announced that he will offer as the only solution to the budget committee next Fall a proposal to establish a municipal paving repair plant.

Such a proposal was made to the budget committee last Fall but was rejected, and limited means were provided to handle the work this year.

Commissioner Dieck says the money allowed is entirely insufficient and that it will mean even greater expenditures next year than would be necessary had the paving plant or adequate funds been provided for this year.

There is now under municipal maintenance a total of 1,150,000 square yards of pavement. Before January 1 there will be 2,000,000 yards. The pavement of the entire Laurelhurst district will come into maintenance this year, a part of it already having passed into the city's hands.

The cost this year is held down by reason of the fact that the city has secured contractors to put the pavement in good condition before turning it over to the city. The Barber Asphalt Paving Company is now at work on the Laurelhurst district paving preparatory to its being turned over.

Estimates prepared last year showed that a paving plant could be established for about \$10,000, which would adequately care for the paving repairs at minimum cost.

3 SUE FOR DAMAGES

PERSONAL INJURY CASES INVOLVE \$27,201.

Blake-McFall Company Defendant in Suit for \$16,440—Steamship Company Sued for \$10,752.

Three Portland concerns were made defendants in damage and personal injury suits for an aggregate of \$27,201.30 filed in the Circuit Court yesterday.

J. W. Fournier brought suit against the Blake-McFall Company for \$16,440 for alleged injuries and damage sustained by his automobile in a collision with a car owned by the defendant on Oct. 4 at East Twenty-fourth and Burnside streets on July 15, 1914. He says he received permanent injuries.

Damages for \$10,752.50 are asked by Ludwig Weber, longshoreman, in a suit filed against the San Francisco & Portland Steamship Company. The amount is sought for injuries which he maintains he sustained when a freight elevator in the steamer Rose City struck him while he was assisting in unloading the vessel on December 4, 1915.

Don Abbott asks damages of \$167.80 for destruction and injury to property, which he alleges to have been caused when a section foreman, in the employ of the Spokane, Portland & Seattle Railway Company, negligently ran over his boat. He filed suit against the railway company for that amount yesterday.

sure makes separate regulations for the various bridges, according to their track arrangements. Traffic is divided into two classifications, "slow going" and "fast going." Slow going vehicles include freight motor trucks of 2000 pounds or more capacity, horse-drawn vehicles, bicycles and pushcarts. Fast going vehicles include emergency machines, automobiles, motorcycles and all other vehicles except motor trucks.

Following are the regulations as set forth in the proposed ordinance: Section 2. On the Broadway, O-W, R. & N. and Morrison street bridges and their approaches slow-going vehicles shall keep in a column next the right curb line, fast-going vehicles next the left curb line, and no vehicle shall cross to the right of the curb line, and it shall be unlawful for the driver of any vehicle to jockey or maneuver for any advantage of position.

Section 3. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 4. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 5. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 6. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 7. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 8. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 9. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 10. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 11. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 12. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 13. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 14. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 15. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 16. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 17. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 18. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 19. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 20. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 21. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 22. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 23. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 24. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 25. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 26. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 27. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.

Section 28. On the Burnside and Hawthorne bridges and their approaches fast-going vehicles shall keep to the right in a single column. Slow-going vehicles and motor trucks shall keep to the center roadway. Vehicles must not pass other traffic on right or left while on these bridges or approaches.
