Senator La Follette Charges Big Financial Interests With Mexican Moves.

AMENDMENT IS DEFEATED

Effort to Prohibit Use of Navy to Collect Debts or Enforce the Claims of Citizens or Cor-

porations Fails

"WASHINGTON, July 20.—Senator La Foliette again delayed passage of the navai bill today, continuing until a few minutes before adjournment the attack he began yesterday against the measure. As soon as he concluded the Sen-ate defeated, 44 to 8, his amendment to prohibit use of the Navy to collect private debts or inforce claims of American citizens or corporations. A substitute by Senator Norris to prevent such employment of navai vessels until court procedures had been exhausted and ar-bitration denied also was defeated.

In a seven-hour speech Senator La Follette charged that the big financial interests of the country, centered in two great Wall street groups known as the Morgan and Standard Oil combinations, were responsible for the movement for a large Army and Navy. Speaking on his amendment, the Wisconsin Senator declared he had been inconsin Senator declared he had been informed upon good authority that General Carranza was negotiating agreement along those lines with Latin-American countries and later would ask the United States to enter into it.

The proposed naval programme, Senator La Follette declared, meant the inauguration of a policy to build a Navy as great or greater than Great Britain's within the next 10 years.

"But when we have done that what

ain's within the next 10 years.

"But when we have done that what then?" he continued. "When you build. England and Germany will build more. You will drive them to it and after you have spent your \$315,000,000 you will just find yourselves in a new place to start. Your only limit then will be the limit of taxation upon the American people. Such a course violates all precedents and principles of the Government."

After adjournment tonight Senator Swanson, in charge of the bill, said he knew of no other long attacks to be made against it, and expected its passage tomorrow. Following the vote Senator Chamberlain will ask that the Army appropriation bill be taken up.

Congressmen to Appeal to Secretary Lane for Mining Plant.

will confer with Secretary Lane tomorrow and urge that one of three mining

has been appropriated, be established
at Moscow, Idaho, or Butte, Mont.
The Secretary, the Idahoans learn, is
disposed to establish one station in
Alaska, another at Seattle and a third
in the Southwest. The Idaho delegation say that a station at Seattle would
be remote from the biggest mining districts of the Northwest and that a more
accessible point should be selected.

SUCCESSOR IN SUPREME COURT OF JUSTICE HUGHES, RESIGNED

Photo from Underwood & Underwood. JUDGE JOHN H. CLARKE.

President Wilson has sent to the Senate the nomination of Judge John H. Clarke, of the United States District Court for the Northern District of Ohlo, to be an Associate Justice of the Supreme Court of the United States to succeed Charles E. Hughes. Confirmation is expected without difficulty. By this action New York State is left without a representative on the Supreme Court bench of the United States, a situation which has not existed for many years. In announcing the appointment of Judge Clarke, the White House gave out a short biography: "John Hessen Clarke, the present United States District Judge at Cleveland, was born at Lisbon, O., September 18, 1857. He was graduated from Western Reserve University in 1877 and was admitted to the Ohio bar in 1878. Up to the time of his appointment as District Judge he practiced law in the courts of Ohio."
