BILL FOR BIG NAVY PASSED BY SENATE

Eight Capital Ships This Year, Total of 157 Ships in Three Years, Voted.

HOUSE RAISED \$45,857,588

Measure Now Goes to Conference and Administration Leaders Expect to Save at Least Six of Biggest Vessels.

WASHINGTON, July 21.-The naval washington, July 21.—The havai appropriation bill, with a three-year building programme, including the immediate construction of four dread-noughts, four great battle cruisers and 58 other craft, passed the Senate late today by a vote of 71 to 8. It carries \$315,825,842, or \$45,857,588 more than the total as the measure passed the House.

Many proposals to curtail the enor-Many proposals to curtail the enormous building increases written into the measure by the Senate naval committee were defeated overwhelmingly and as soon as final passage was announced the Senate voted to insist on its amendments and send the bill at once to conference. The House is expected to insist on its building programme and a long struggle is in prospect before an agreement is reached.

Two Democrats, Senators Thomas and Vardaman, and six Republicans, Senators Clapp, Curtis, Gronna, La Tollette, Norris and Works, voted against the bill, which has had the support of leaders of both parties during the week of debate that preceded passage.

Construction of 157 vessels, including 16 capital fighting ships, within three years, at an estimated cost of \$558,180,576, is contemplated in the Senate programme, the largest ever proposed in Congress. Of the total appropriations in the bill \$110,726,156 is for the first year's building expenditures.
