

TROOP A BUCKING HORSES UNSEAT 7

Wild West Performance Is Put on at Every Drill by New Mounts.

NONE IS HURT SERIOUSLY

In Spite of Determination to Retain Viciousness of Range, Animals, as Well as Men, Are Learning Rules Fast.

BY WILL G. MACRAE.

CAMP BALBOA, San Diego, Cal., Aug. 2.—(Special.)—In the last two days Troop A has organized an aviation squad. This squad is made up of seven members of the troop, and all are troopers who have dismounted without orders; all of them have been thrown by their unbroken horses, yet, beyond forming an abrupt acquaintance with the pebbly surface of Camp Balboa, no one was injured and everybody is eager to have another try at the buckers.

Those who have unmounted without orders are William M. Bradshaw, C. M. Moran, Walter L. Musicians, Musicians, Orland S. Peabody, Stable Sergeant P. E. Penman and John C. Adams. Each has been thrown in the last two days, and each time the Wild West performance was executed just after Captain White had given the order to mount.

As a result of today's drill, Troop A barely missed being without a bugle. As Musicians Peabody mounted, his horse began "sunfishing" that would have unseated a Pendleton roundup rough rider. Musicians Peabody landed among some large boulders with the bugle trying to bore a hole in the small of his back.

It was another day of intense heat, but equitation school was held today. Both men and animals are learning fast. The formation of the line was even better than yesterday. The troop was assembled back of the company street and marched to the drill grounds in regular cavalry formation. The troop made a pretty picture as each set of fouls fell into proper place. Again the troop was divided into four platoons and Captain White was kept busy riding from one platoon to another during the period of drill.

Joseph F. Singer, executive-arms of the Oregon Legislature, appeared at Camp Balboa this morning and took lunch at the officers' mess. Lieutenant Cicero F. Hogan was able to obtain all the late Courthouse gossip from the visitor. He also inspected the troopers' mess and declared the food better than he enjoyed in Portland.

Barnett H. Goldstein, who failed in the physical examination, received his discharge papers today. He will leave at once for Portland.

NEW HATCHERY PROPOSED

Third Fish Plant Is Likely to Be Given Grays Harbor.

HOQUIAM, Wash., Aug. 2.—(Special.)—A third state fish hatchery is planned for Grays Harbor County, according to information received here, but the details of the project have not been learned as yet. The new hatchery is proposed for a branch of North River, in the southern part of the county, near the Pacific County line. A deed for property for the site and an agreement for use of North River and the creek where the hatchery is to be located, to the Standard Oil Company and Driving Company to the state, have been filed with the County Auditor. No word has been received here from L. A. Darwin, Fish Commissioner, regarding the hatchery plans, but it is understood the hatchery project is intended to obviate the necessity for building fish ladders over logging dams.
