Figures on wheat at the present time appear even more remarkable when compared with quotations made at this time last year, up to that time the banner year for wheat prices. Prices at this time last year ranged from 9 to 12 cents lower. The highest prices reached in August of last year at Portland was \$1.08, that quotation being offered on August 12.

While definite reports on alleged crop damage in various parts of the country will not be available for some time yet, the indications from partial reports received here are that the damage will curtail the production a considerable extent. It is these partial reports which is greatly responsible for the continued strength of the market.

There is now a good movement of wheat, the prevailing prices proving attractive to a great many farmers. Only enough, however, to supply local and California mills is better manned to portland. Practically all the remainder, unless there should be a speedy change in shipping conditions, will be sent. East by rall.

The grain which is being received in Portland is of unusually high quality. This is partially due to the harvest condition. Re-

Bond Market Also Lacking in Feattures-International Issues Exhibit Steady Diminution. U. S. Bonds Unchanged.

NEW YORK, Aug. 4.—Dealings in today's listicss market differed in no essential par-ticular from those of recent sessions. Ex-cept for the first hour, which witnessed a fair average of transactions at moderately

higher levels, the record was one of in-creasing apathy.

Conflicting crop news, labor conditions, which offered little encouragement, ad-ditional excellent rallway earnings and the further easing of money rates-all factors

further easing of money rates—all factors of importance in more normal times—were ignored or received with indifference.

Shipping shares were the leaders, so far as activity was concerned, the turnover in Mercantile common and preferred at moderate gains far exceeding any other issue. Marine 4½ per cent bonds also were active at the new high price of 107, and United Fruit reflected further action, Motor shares railied slightly from their low levels of yesterday. Petroleums were slightly more steady although trade conditions were without change, and munitions were spatistic with metals except Tennewer Departs, which again lost ground. Sugars suffered from further attrition quite as much to over-extended buil accounts as to statistical or trade developments. ments.
United States Steel, which was relatively inconspicuous, held steady with rails most of the day, but the latter shaded in the final hour, though only sominally.
