

2 SHOT DOWN ON SEATTLE STREETS

Hospital Patient Resents Marriage of Woman Once His Agent.

PAIR IS LURED TO FATE

German Flees From Scene of Shooting Immediately Afterwards and Police Believe Suicide Has Followed Fray.

SEATTLE, Wash., Aug. 16.—Frank von der Heider, said to be the owner of a hotel at Vancouver, B. C., shot and killed J. A. Collinson and probably fatally wounded Collinson's wife tonight when he met them on the street near a hospital, where he has been a patient.

After the shooting von der Heider fled and was still at large late tonight.

Collinson and his wife were residents of Vancouver. The police learned from a physician that von der Heider came here from Vancouver 16 months ago, because of his German origin, and left his property in the care of the woman, who then was known as Antone Mattino. Yesterday, the physician said, von der Heider came to him in a state of nervous prostration, complaining that for several months returns from the hotel had been unsatisfactory and that he had just learned that the woman whom he had left in charge of his property and Collinson had been married.

The physician sent von der Heider to the hospital. Last night von der Heider telegraphed to Vancouver, asking Mr. and Mrs. Collinson to come to Seattle at once, so that he could discuss the matter with them.

Mr. and Mrs. Collinson arrived this morning and communicated with von der Heider, who invited them to go to a theater with him tonight, and asked them to meet him at a street corner near the hospital.

Mr. and Mrs. Collinson kept the appointment, and when von der Heider came out of the hospital he rushed up to them and commenced firing. Collinson was killed instantly and his wife fell to the sidewalk dangerously wounded. Von der Heider, hatless and coatless, fled from the scene. The police tonight were unable to find any trace of him, and it was feared that he had committed suicide.

Thirsty Hcho Waters Teams He Finds on Street.

Wearry Willie Barrows Bucket and Satisfies Waiting Horses and Continues Journey Afoot.

OREGON CITY, Or., Aug. 16.—(Special.)—A typical "weary Willie" called at the Oregon Commission Company Monday and asked D. C. Robbins for a tin bucket. Mr. Robbins, thinking the man wished to bathe his feet, as they were protruding from his well-worn shoes, complied. The tramp filled the bucket with water at the nearby hydrant and commenced watering the teams that were tied to the public hitching post north of the Oregon Commission building. There were 15 teams in all, but the "traveling man" did not stop until each horse had received its share.

On his return to the Commission Company building, he thanked Mr. Robbins for the use of the bucket and said that he had been thirsty on many occasions while on his travels and always made it a rule to water horses when he saw them tied to a hitching post. He then vanished.

\$1,000,000 PLOT FOILED

COUNTERFEITING PLANT ON STATEN ISLAND RAIDED.

Scheme Was to Make Great Quantity of Bogus Money and Destroy Machinery Before Passing It.

NEW YORK, Aug. 16.—A conspiracy to manufacture and circulate \$1,000,000 of counterfeit silver certificates and United States Treasury notes was frustrated here today by William J. Flynn, chief of the Government Secret Service, and several of his assistants. Eight arrests were made after raids on a house at Grant City, Staten Island, and one in East Ninth street, this city.

A complete counterfeiting outfit was found, consisting of photographic apparatus, lithographic presses, electrolytically etching tools, paper and colored ink. An illicit wine and liquor blending plant also was unearthed. Two of the men taken in custody were operating this plant, it was alleged.

According to the Secret Service men, the counterfeiters apparently were well supplied with money, their outfit alone having cost upward of \$2000.

Their scheme was to manufacture the \$1,000,000 in spurious bills then destroy the plant before attempting to dispose of the bogus money, it was alleged. Seventy photographic negatives of genuine bills already had been made and the impressions transferred to gelatin and wax plates. Some of these after having been electro-plated had been etched. Pieces of silk and human hair also were used in the process of making the counterfeit.

Chief Flynn declared tonight that the ringleader of the conspiracy is an expert photo-engraver and etcher. The work of fitting up the plant, it was said, began several months ago.

When the First Shot Don't Land?

He reloads his artillery, adjusts his "sights" and aims one that will bring down the game.

That's just what I'm doing with the prices on this stock of Men's Shoes. Every price that has failed to sell out a line, slick and clean, has been subjected to another pruning, because—

Every Shoe Must Go

A price is no good to sell unless it sells. This stock must be sold and the prices must sell it.

If you're a man and need shoes, yet deliberately pass up this opportunity to own really good shoes for so little money you should go "barefoot" the rest of your days. And you'll agree with me when you look at the shoes. For instance—if you've a five-dollar bill you can buy some good cigars, light one, come in and get a six or seven dollar pair of shoes and still go out with change in your pocket.

SCHOOL PLANS WAIT

Plague Delays Opening of Term for 1,000,000.

TENTATIVE DATE CHOSEN

Another Postponement May Be Necessary, Say Physicians, as Outcome of Epidemic Cannot Now Be Forecast.

NEW YORK, Aug. 16.—While September 25 was set today as the tentative date for opening the public schools of this city, postponed from September 11, because of the epidemic of infantile paralysis, Health Commissioner Emerson said it was by no means certain New York's 1,000,000 school children under 16 years old could resume their studies as early as that.

Definite plans cannot be made, Dr. Emerson informed William G. Wilcox, president of the Board of Education, because it is impossible to foresee whether the disease can be checked or whether the epidemic will assume still greater proportions.

Another decrease in deaths and new cases today encouraged the health authorities. There were 24 deaths today and 113 new cases, making the total fatalities 1497 and the total cases 6625. Twenty-two patients were discharged from hospitals today as recovered.

The Rockefeller Institute disclaimed a reported "corner on monkeys" for experimental purposes, the officials saying that the Institute had been unable to acquire enough of the animals for its own work.

SALT LAKE, Aug. 16.—Frank Wylie, 25 years old, a carpenter from Idaho Falls, Idaho, who came here last Friday, developed a case of infantile paralysis today. There is much speculation as to where the man contracted the disease. He had been at Idaho Falls several months and so far as known here no case existed there.

THE UTAH STATE BOARD OF HEALTH received a telegram from the Brooklyn Board of Health today advising that Mrs. Ellen Smith, of 21 Clearmont avenue, Brooklyn, had refused treatment for a case of infantile paralysis at her home and had left for Bingham, Utah, near here. All trains will be watched and the woman quarantined if she arrives.
