

AMERICA PRAISED BY GERMAN EDITORS

Press Commends Fair and Neutral Conduct in Treatment of Submarine Liner.

DEUTSCHLAND CREW FETED

New Commercial Relations Forecast as Result of Breaking of British Blockade—Voyage Tempestuous at Start.

BERLIN, via London, Aug. 24.—Most of the buildings here are decked with flags, in celebration of the return of the merchant-submarine Deutschland. The newspapers give the exploit of Captain Koenig a prominent place in their editorial comments and discuss the possibility of the Empire's getting certain much-needed materials through merchant submarines. Captain Koenig and his crew have been feted as heroes. The press gives liberal praise to the fair and neutral conduct of the United States Government. The Cologne Gazette says:

"The American Government was thoroughly and correctly neutral. The American fleet was not in the vicinity of the merchant-submarine Deutschland. The newspapers give the exploit of Captain Koenig a prominent place in their editorial comments and discuss the possibility of the Empire's getting certain much-needed materials through merchant submarines. Captain Koenig and his crew have been feted as heroes. The press gives liberal praise to the fair and neutral conduct of the United States Government. The Cologne Gazette says:

COURT HELD ON STREET

Municipal Judge Views Headlights Used by 15 Motorists.

Municipal Judge Langguth last night held court in the street in front of police headquarters at Second and Oak streets, to determine the truth of motorists' pleas that they had not glaring headlights. About 15 alleged delinquents who had entered pleas of "not guilty" in court were required to have the lights inspected. No penalties were handed out last night.

This is the second of Judge Langguth's night schools. After the first class several months ago, the judge was stopped on his way home by a policeman who told him that his headlights were too bright.

VALUABLE ALASKAN DOGS IN "FATHERS OF MEN"

The Vitaphone Blue Ribbon feature, "The Fathers of Men," from the famous novel by James Oliver Curwood, author of "God's Country and the Woman," presents a number of interesting scenes which show the mode of travel in the great Northwest.

In this country the woods and the mountains are almost impassable and without the use of dog sleds the section would not be habitable.

These dogs are hitched in numbers of ten, single file, to the sleds, which serve as the only transportation the traders have from one post to another. Robert Edson and Naomi Childers are the principals in the photoplay.

The "Rail Rider," which features House Peters, is a gripping railroad drama adapted from the story "B," which appeared in the March issue of the Railroad Man's Magazine.

Patrons of the T & D Theater will have an opportunity of seeing these two exceptional photoplays on the same programme for one week, commencing Sunday, August 27.

OFFICIAL WAR REPORTS

French.
PARIS, Aug. 24.—French troops today completed the occupation of Maurepas and carried their line 200 meters beyond the town on a front of two kilometers, according to tonight's communication. The afternoon report says:

"South of the Somme last night, after a very lively bombardment directed against Houdcourt wood, the enemy attempted an attack with grenades, which was mastered immediately by our fire. Southwest of this wood an attempted enemy attack was caught under our curtain of fire and the enemy was prevented from leaving his trenches."

"In the Champagne several German surprise attacks on a minor post in the Tahure region were repulsed easily."

Bulgarian.
BERLIN, Aug. 24.—The following official report was received from Sofia today:

"We defeated the enemy on the Struma on August 21. The enemy escaped by flight on the right bank. The whole ground in the neighborhood of the villages of Erikel, Mervor and Towolova was covered with the bodies of the enemy. Up to the present we have counted more than 400 dead, including the bodies of several officers."

"Our troops burnt 50 French dead on the right bank of the Vardar. In the vicinity of Navadagn we captured a hostile detachment and one machine gun. The French left 70 dead behind them."

GERMAN LINER OFF

North-German Lloyd Steamer Slips From Boston Harbor.

MERCHANT FLAG IS FLOWN

Vessel, Ostensibly Bound For New London, Conn., Not Heard From as Night Passes—Preparations for Arrival Lacking.

BOSTON, Aug. 24.—The North-German Lloyd liner, which has been in refuge here since the outbreak of the war, slipped out of the harbor early today, presumably for New London, Conn., for which port she obtained clearance papers last night.

No news had been received of the vessel at a late hour tonight and efforts to reach the steamer by wireless failed. A message from New London says that at the new state pier, where it was reported the vessel would dock, preparations were in evidence and no one in authority at the pier had any information as to the steamer's whereabouts.

Officials of the line asserted the change was made to reduce docking charges, and denied reports that there was any connection between the liner's movements and the expected arrival of the German merchant submarine Bremen.

The liner had went out under the flag of the German merchant marine, the first time it had been carried out of Boston harbor since the war began. She was without consort. Her crew, a full complement in command of Captain Jachens, had been augmented by additions from the several other ships of the line here. The liner had departed in the early hours as cheers rang out from the decks of other refugee vessels.

Captain J. J. Hartling, the pilot who took the steamer out of the harbor, would make a short stop at Cape Cod, he said, as if they were on a routine trip and not a special service to be rendered at her destination. The liner had a cargo steamer of 4761 tons, was the smallest of the refugee ships at this port.

The liner had is making the voyage under charter to the Eastern Forwarding Company, American agents of the German company which is operating the merchant submarines, according to C. Kuhlwein, local agent of the North-German Lloyd line. Virtually the entire voyage would be within the three-mile limit, he said.

DANES TO VOTE ON SALE

LANDSTING CAUCUS DECIDES ON COURSE TO BE PURSUED.

Influential Politicians Predict That Result of Elections Will Be Authorize Pending Treaty.

COPENHAGEN, via London, Aug. 24.—The Landsting sat in committee today and adopted a resolution that if the sale of the Danish West Indies to the United States for \$25,000,000 cannot be postponed until after the war, the question shall be settled by general elections. The resolution was adopted, 39 to 7. The resolution will be submitted formally to the Landsting tomorrow at an open meeting.

King Christian received the leaders of the various parties today and

erred a further intense bombardment this morning.

"The Hohenzollern redoubt the enemy shelled our lines heavily and attempted a raid which failed completely."

"In a raid which we carried out northwest of La Bassée we entered the enemy trenches."

"A hostile statement says: 'South of Thiepval the British made a further advance of 300 yards, capturing an enemy trench 400 yards in length. Many prisoners were taken in this sector. Yesterday 32, including two officers, were passed back. There are no additions to the already reported. Today further number was taken, the exact number not being ascertained.'

"A hostile bombing attack against our new trenches north of Baesent-le-Petit was easily repulsed last night. There has been considerable hostile shelling tonight along the front, mainly in reply to our bombardment."

Russian.
PETROGRAD, via London, Aug. 23.—Tentative forces have been determined attacks against the Russians, who recently forced their way across to the west bank of the Stokhod, in the vicinity of Rudka-Cherivach, northeast of Kovel. Today's announcement by the war office says:

"The enemy yesterday opened a fierce artillery and machine gun fire on our positions near Tobot, on the west bank of the Stokhod, 38 miles northeast of Kovel. In the afternoon enemy columns commenced an offensive, but were driven back by our rifle and machine gun fire."

"The presence of Turkish troops on the Zlota Lipa (Galicia) is disclosed by prisoners taken."

"Our troops from front our offensive west of Lake Van is developing. North of Mush we occupied the region of the village of Arindovank. In the direction of Mosul our troops defeated the fourth Turkish division in the region of the village of Bahtia. Two regiments were surrounded and taken prisoner. One of the regiments surrendered in a body with its commander and staff, captured and machine guns being captured."

Germans on Western Front.
BERLIN, via London, Aug. 24.—Today's statement on the fighting in the West says:

"The North of the Somme last night fresh efforts on the part of the enemy were rendered futile."

"Near Maurepas and especially to the south, strong French forces were repulsed after stubborn fighting at various places."

"On the right bank of the Meuse the artillery fighting in the Thiaumont-Floury sector and in the wooded mountain near Chapire increased considerably in intensity. Several French attacks south of Thiaumont work broke down."

"Our troops burnt 50 French dead on the right bank of the Vardar. In the vicinity of Navadagn we captured a hostile detachment and one machine gun. The French left 70 dead behind them."

"The American Government was thoroughly and correctly neutral. The American fleet was not in the vicinity of the merchant-submarine Deutschland. The newspapers give the exploit of Captain Koenig a prominent place in their editorial comments and discuss the possibility of the Empire's getting certain much-needed materials through merchant submarines. Captain Koenig and his crew have been feted as heroes. The press gives liberal praise to the fair and neutral conduct of the United States Government. The Cologne Gazette says:

GREEKS PUSHING TO STEM BULGAR TIDE

Issue Is Forced on King by Refusal of Garrison at Seres to Retire.

ATHENS DEEPLY STIRRED

Bulgarian Wings Meanwhile Continue Pressure—Serbs Launch New Offensive—Task Suspicious in Hilly Land.

BY ARTHUR S. DRAPER.
LONDON, Aug. 24.—(Special.)—Greek volunteers are rushing to the colors to resist the Bulgarian threat. While Czar Ferdinand's troops continue to advance east of the Struma, the battle at Seres is still in progress, according to advices from Athens.

The Greek garrison at Seres has been reinforced by officers and men assembled at Saloniki. To them has been added a corps of Albanians. Many of the Greek troops are reported to have taken places in the ranks of the allies, and a furious struggle is promised.

Issue With Greece Is Forced.
The issue between the Teutonic allies and Greece has now come to a head. King Constantine and his ministers are making great efforts to prevent trouble, but the situation is getting beyond their control.

The general staff at Athens has ordered that the Greek troops at Seres retire before the Bulgars. But the commander of the town has rallied around him a strong force and seems determined to dispute the Bulgarian advance.

Meanwhile the Venizelists at Athens and throughout Greece, realizing that their position is becoming untenable, are agitating for intervention on the side of the entente. Their task is made easier by the intense feeling roused in Greece over the situation.

Crisis May Come Sunday.
The crisis may come next Sunday, when a mass meeting will be held in celebration of the anniversary of 1908. Athens is stirred to its depths by the Bulgarian menace. Repeated promises of the Teuton allies that Greek sovereignty will be respected have failed to allay the fears of the populace. Many in the capital demand that Greece strike now, before the Bulgars reach their goal.

In the battle which continues with unabated fury in the whole front north of Saloniki the pressure against the allied wings has not relaxed. The Bulgars have now forced their way on the heights which are the key to the city, while on the right they say they have cleared the allied forces from the left bank of the Struma.

Launch Offensive.
The Serbs are battling heroically to stem the Bulgarian tide. In an effort to check the advance west of Lake Ostrovo they have launched an offensive along the heights which are the key to the Moglenia Valley and have succeeded in winning back a height near Lake Ostrovo.

Because of the hilly country here, the Serbs must drive the Bulgars from heights which are the key to the Moglenia Valley and have succeeded in winning back a height near Lake Ostrovo.

Some influential politicians express the opinion that the result of the elections will be that the Rigas will ratify the treaty of sale with the United States.

WASHINGTON, Aug. 24.—Senator Stone, chairman of the Senate foreign relations committee, announced tonight that action of the Danish Landsting in rejecting the proposal to sell the Danish West Indies to the United States would make no difference in the attitude of the United States, nor cause any delay in the effort to have the treaty providing for purchase of the islands ratified as soon as possible.

Some Senators thought that the position taken by the Danish Landsting was a serious blow to the treaty, but many of them doubt that it can be ratified at this session.

WATERVILLE, Me., Aug. 24.—Vigorous praise for the Administration's European policies were the outstanding feature of an address here tonight by Secretary of War Baker, principal speaker at a meeting held in connection with the DeMorgan campaign in Maine in behalf of President Wilson.

The President's course, Mr. Baker said, has infused the spirit of the Declaration of Independence and of the Golden Rule into this country's foreign relations.

"The Administration has kept the peace," he said. "It has done so because we would be done by. It has maintained friendly relations with the European belligerents and placed this country in a position from which the end of the great European struggle, the moral forces of the United States can be excluded in the interest of justice and humanity."

"There are those who hint, but dare not say, if they had been in the places of responsibility the world would have involved us in that maelstrom. They indulge in a cheap form of eloquence about what they would have done, and state that the world would have been affected to believe that in an obscure way we are hurt in our self pride because all the rest of the world is thus engaged in the struggle for peace."

"The United States is today the friend of each and every nation. Our fields are growing. The crops are to be fed the multitudes whose hands have been withdrawn from the plow by the war. Our workshops and factories are making the implements of rehabilitation which will make life possible again in Europe."

"Between Europe and the United States a narrow lane marked by buoys is maintained for ship traffic, the surrounding waters being seized incessantly."

"When a submarine has been located, five or six torpedo boats surround it, each paying out a long steel line with a torpedo attached. Steering a zigzag course at high speed, the torpedoes frequently are brought into contact with a submarine."
