

**WOMAN WRITER IN LOVE WITH WEST**

Miss Ethel Lloyd Patterson Is Disappointed in Its Lack of Wildness.

**INDIANS NOT IN PICTURE**

Otherwise She Is Much Impressed With Pacific Coast Country, and She Will Write Much About Region.

Fancy that you had never been West, that all your life you had pictured the wild Western girls and cowboys. Then come to earth and fancy that, like Miss Ethel Lloyd Patterson, you really did arrive here and that you were an honest-to-goodness writer and had come with an idea to pen for the Eastern papers the terrors of the Indian wars in the West.

It sounds funny, but that's quite the general impression in the East, in spite of modern inventions, and Miss Patterson didn't exactly expect to find the West a wilderness, but it isn't what she thought it would be like, anyway.

Miss Patterson syndicates and special feature writer for H. H. McClure's, whose name has topped thousands of striking magazine and newspaper stories since she began to write, 10 years ago, arrived in Portland last week with Miss Martha Coman, of the New York Herald. Miss Coman is a former Portland girl, so she doesn't feel quite the same novelty about the West as Miss Patterson.

Even in spite of the fact that the West isn't so wild as she had imagined, Miss Patterson is quite in love with it, and every day the things that she hears and sees go into copy and back to the Eastern syndicates.

Before coming to Portland Misses Coman and Patterson passed 10 days at Glacier National Park. Both are inveterate horsewomen and so the greater part of their visit to the park was spent riding.

**Western Girls More Demure.** "You know," said Miss Patterson, "I have always heard of the dashing Western girls, and it certainly surprised me to note that at the park the girls from New York and the East were the only ones who wore knickerbockers to ride in. The Western girls still wore the cumbersome old divided skirt, and they certainly are not pleased to look at in that garb."

"Like the West?" Well I should say so; neither of us like the city. We visited friends on a farm near Spokane, and I never had so much fun in my life. There was something doing all the time, far more than in New York. I love my work, but on the country."

Miss Patterson is the sort of a girl that scenario and story writers picture as the girl reporter. She has those same big brown eyes that sparkle and don't miss a thing. She's an idealist, though. She loves the pines of the West, the great mountains and the beautiful, ever-changing landscape. It's even more human to her than the teeming life of New York. Ever since she was in Europe last, she's been longing to see the tops of the Western mountains. She climbed the Alps and other great mountains of Europe and now she's eager to conquer those of her own country.

**Travel Articles Under Way.** While here she is preparing material for a number of magazine articles on the order of "See America First," and when she returns to New York, will begin work on her fresh Western material.

Not that they really wanted to have a bit, just because it was so funny to be in a prohibition state, they enjoyed a prank in Washington. They went to the liquor station and took the oath that they have "never been arrested for drunkenness," never been "proprietors of a saloon," nor in any way had ever been guilty of the other things that disqualify the liquor buyer. Photographs of them were taken during the escapade.

The visitors at the home of Miss Coman's mother, Mrs. B. E. Coman, and have also been guests at the home of Miss Coman's sister, Mrs. C. W. Jones. They will return to New York via the Canadian Rockies in a fortnight, and as Miss Patterson says, will carry back some wonderful recollections of the West.

REPUBLICANS DECIDE TO MAKE SCHOOLHOUSE SPEECHES.

Old-Fashioned Campaign Planned for This Fall—Speaker of National Reputation Sought.

MEDFORD, Or., Sept. 10.—(Special.)—At a meeting of the Republican county central committee yesterday it was decided to hold an old-fashioned schoolhouse speaking campaign in Jackson County this fall. A corps of local speakers have volunteered for the work.

The local Republican candidates attended the meeting, and details of the county campaign were formulated. It is planned to secure at least one Republican speaker of national reputation, either Senator Borah or Governor Johnson, of California, preferred.

Vacancies in the county committee were filled by the following appointments: Judge D. H. Gilmore, Rogue River Precinct; W. W. Truax, Gold Hill Precinct; C. S. Bartlett, Pinehurst Precinct, and C. C. Purcell, Sterling Precinct.

The election in Jackson County promises to be very close, as in spite of the large Republican registration the Democrats usually carry the election in a Presidential year. According to the reports of the committeemen, however, Mr. Hughes is gaining in strength every day, and it is believed he will be given a majority in November.

Marooned Explorers Describe Life on Elephant Island.

Banjo Concert Is Saturday Feature. Men Exercise Regularly and Smoke Padding From Boots. Pipes Carved From Bones.

LONDON, Sept. 10.—Life on Elephant Island in the Anarctic as it was experienced by the marooned men of Lieutenant Sir Ernest Shackleton's South Polar expedition, who were recently rescued and taken to Chile, is described in a message received from Punta Arenas and published in the Daily Chronicle today.

"The day began," says the description, "with breakfast, which consisted merely of penguin, fried in blubber, and a drink of water. The morning's duties consisted in clearing away snowdrifts and catching penguin. Lunch was served at 1 o'clock, consisting of a biscuit with raw blubber. The afternoon was occupied with regular exercise over a track 100 yards in length.

"At 5 o'clock, when darkness fell, came dinner, consisting of penguin breast and beef tea. Lacking tobacco, the men smoked grass from the padding in their boots, while the pipes were carved from birds' bones and wood. The members of the party took turns in reading aloud from the only books, namely, the Bible, encyclopaedia, Browning, Bacon's essays and Carlyle's French revolution. Saturday evening was always marked by a concert, the feature of which was banjo playing. A banjo was the only musical instrument available.

"On an occasion there was a welcome addition to the diet, when several undigested fish were found in the stomach of a seal and greatly enjoyed. These were the only fish obtained during our stay. In August there was a change in the diet when limpets were gathered and seaweed was available as a vegetable.

"We were in the midst of one of these limpets and seaweed lunches when the rescue boat was sighted."

"When was the war over?" was the first question asked.

SAN FRANCISCO, Sept. 10.—For the first time in the history of politics, women will engineer a transcontinental campaign this fall, and will finance a special train to bear workers against the reelection of President Woodrow Wilson and in behalf of the Republican candidate, Charles E. Krebs, chairman of the women's auxiliary of the California Republican State Central Committee, received notification here today from the committee in charge of the campaign in New York that the train would be despatched from New York. The message carried also an appeal to women to "invest in patriotism and to assist in financing the enterprise." The train, the message said, would be called the "Women's Hughes Campaign Train."

## Peugeot Driver Captures 300-Mile Cincinnati Sweepstakes at Speed of 97.06 Miles an Hour

Three hundred miles—over a new course—at the scorching speed of 97.06 miles an hour—here is a test of tire stamina leaving no element of quality or construction untied!

Yet Goodyear Cords stood up under this grinding, wearing, punishing pace—stood up under it to a victorious finish.

They carried Aitken and his Peugeot straight to first honors.

Aitken's Labor Day victory at Cincinnati, supported by the series of remarkable racing records achieved with the aid of Goodyear Cords in the past few months, offers additional proof of the superior stoutness, speediness and endurance of these tires.

The same stoutness, speediness and endurance are advantages experienced by Goodyear Cord users in every-day motoring.

They are the qualities that led to the adoption of Goodyear Cord Tires as standard equipment on the Franklin, the Packard Twin-Six, the Locomobile, the Peerless, the White, the Haynes Twelve, the Stutz and the MacFarland.

They are the qualities that make these tires higher-priced—and better.

Abolishment of Commission Up to Electors at The Dalles.

THE DALLES, Or., Sept. 10.—(Special.)—Property owners will appear at the polls Monday to decide the question of whether or not the present Water Commission will be abolished and the water department made a part of the city affairs. **TONE UP YOUR STOMACH**

There is no tonic for the stomach that is not a tonic for every other part of the body. But the stomach depends, as does every other organ, on the blood for its energy.

There can be no perfect digestion without rich, red blood. This is scientifically true. The way then to tone up the stomach is to enrich the blood.

If your digestion is off and your blood is thin there can be no question about it. You need Dr. Williams' Pink Pills to restore the condition of your blood, use care in the selection of your diet and the stomach trouble will take care of itself.

Stomach trouble is debilitating. Dr. Williams' Pink Pills are a tonic and build up the weakened system generally. Most stomach remedies try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work as nature intended. There is no pleasure in eating predigested food. Tone up your stomach and your appetite and digestion will soon be normal.

A diet book will be sent free on request by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or a box will be sent by mail, postpaid, on receipt of fifty cents.

**BOMB TRIAL ON DOCKET**

Parade Case to Begin in San Francisco Today.

SAN FRANCISCO, Sept. 10.—A mass meeting was held here tonight for the purpose of raising funds for the defense of Warren K. Billings and other indicted suspects charged with responsibility for the bomb outrage which on July 23, turned the preparedness day parade into a tragedy.

The meeting was arranged by Robert Minor, illustrator of New York, who came here as representative of the International Workers' Defense League to aid in raising a defense fund. Men and women identified with all the radical labor movements in San Francisco were at the meeting, and mingled with the crowd were plainclothes men detailed by the chief of police.

As the meeting progressed enthusiasm went through the audience collecting money for the defense fund. Billings, who is charged by the police with being the man that planted the bomb, will go to trial in the Superior Court here tomorrow. More
