

WILSON'S THREAT TO MEXICO'S RECITED

Mr. Hughes Declares American Policy Was Violated, Country Left to Anarchy.

CITIZENS LEFT TO SUFFER

Nominee Denies That Administration Deal With Small States in Same Spirit as It Did With Large Ones.

RICHMOND, Ind., Sept. 21.—Instructions said to have been given by President Wilson to John Lind, his personal representative in Mexico...

"I have only recently received this authentic information of the actual instructions that were given with respect to the government of Mexico...

American Policy Abandoned. "There is no basis for that in the recognition of small states," Mr. Hughes added.

In a document addressed today, most of them rear platform addresses of only a few minutes, the Republican nominee for President outlined his views on Americanism, protection of American rights, the protective tariff and other party policies.

"I was going through the streets of Lafayette," Mr. Hughes said, "I saw a campaign placard which had been put up by our friends on the other side. That placard bore this statement: 'No idle men. Plenty of work. A full dinner pail.'"

Voters Asked to Remember. "I thought what an extraordinary tribute to the memories of the American voters. How was it in 1914 and the early part of 1915, after the passage of the Underwood bill? Was there plenty of work? Were there then full dinner pails?"

"If we have no idle men today, it is not due to the policies of our friends on the other side, but in spite of their policies and because of the European war."

In his discussion of the Administration's Mexican policy Mr. Hughes reiterated that the question was not of recognition of Huerta or his non-recognition.

"That is a matter which presents a false issue," he said. "We have been told in recent years that all states should have the same respect that great states enjoy. We were told by the Administration only a few days ago that our influence on this hemisphere really depended on our proving demerit to our neighbors, that we had no desire officiously to meddle in their affairs or to interfere in their internal administration. It was said that there must have a demonstration of our absolute good faith in dealing with the neighboring nations."

Mexico Left to Anarchy. "The truth is that we do meddle with their affairs in a way which forfeited to us the esteem that we should have enjoyed and finally resulted in leaving Mexico to the ravages of revolution. We left them to an anarchy which is indescribable and to atrocities which will not bear repeating in polite society."

Mr. Hughes again declared for the protection of American rights, including lives, property and commerce.

"We are not here for this nation or for that nation," he said, "for this side or that side. So far as I am concerned, if entrusted with the executive responsibility I shall, to the utmost of my powers, maintain American rights on land and sea, throughout the world with respect to all nations. I stand here for the rights of Americans, square to the world."

In his address today Mr. Hughes again assailed the Administration for the enactment of the Adamson law.

"If I were the Executive of this country and any questions were brought to me," he told a crowd at Wabash, "I should say: 'Why, we will have the entire force of public opinion directed to the just settlement of this, promptly and thoroughly, according to justice and equity.'"

Attraction Is Defended. "But if anybody says that this has got to be done and the principle of arbitration must be surrendered, I would stand like a rock for that principle which has and all citizens must cherish, if we are going to go forward and have peace and prosperity in the United States."

An anxious engineer, eager to make up lost time, started to pull the special train out of Logansport before Mr. Hughes had finished. The nominee stopped his talk and waved his hand.

RESOURCEFUL GIRLS GET TO WORK DESPITE TRACTION STRIKE.

ZOE AND KLAIRIE EL REY ON SKATES.

NEW YORK, Sept. 21.—Zoe and Klairie El Rey, two resourceful sisters, have taken roller-skates, car schedules being uncertain. When the big strike tied up "L" surface and subway, the girls decided to skate to and from their home and keyed on their rollers and gave them a trial. So successfully did their scheme work, they definitely adopted it for getting about the city. Daily they roll along, arm in arm, through traffic blocks and over cobble and arrive at the place of employment.

to the conductor. "No," he shouted, "wait a minute, don't go yet. I have a word more to say."

Mr. Hughes held the train five minutes to finish his talk on the Adamson law.

At Lafayette, another stop, Mr. Hughes referred to the protective tariff as an American doctrine, rather than a partisan prejudice.

"Henry Clay called the policy of protection, the American doctrine and so it is," Mr. Hughes said. "It ought not to be a partisan doctrine."

"The future of the United States, Mr. Hughes told several audiences, is 'nothing but agitation and disturbance unless reason rules our force.'"

Sense of Justice Invoked. "I can see the United States embroiled in the most serious social convulsion," he said, "I can see a certain course of action taken that would lead us perilously close to civil war. I lived these things in New York."

"I do not say these things with merely the profession of a candidate; I lived these things in New York."

In nearly every address the nominee referred to the campaign as "good-natured."

"I speak without bitterness," he said, "and with desire to be absolutely fair; I am the friend of every citizen in this country, Democrat or Republican."

The nominee was tired out tonight. He will leave tomorrow to continue his campaign through Indiana.

OPEN SHOP IS DECLARED

2 BIG SEATTLE SHIPPERS CANCEL LONGSHOREMEN'S AGREEMENT. Concerns Said to Have Conceded Union Demands in Part to Rush War Munitions to Russia.

SEATTLE, Sept. 21.—Mitsui & Co. and Frank Waterhouse & Co., two of the largest shipping firms engaged in the trans-Pacific trade out of Seattle, and which have been virtually the only big companies on the Seattle waterfront employing union longshoremen, today notified the international Longshoremen's Association that hereafter they would operate on an open-shop basis, with the rate of pay in force at non-union wharves.

Both companies signed the scale demanded by the longshoremen soon after the waterfront strike began June 1. At the time it was said the companies had enormous shipments of war supplies for Russia in their warehouses, which had to be moved immediately regardless of cost. The congestion of freight has been relieved, and the companies decided to cancel the agreement and conduct their business on the same basis as the other big employers who have been working cargoes with non-union men.

Only one company, the Humboldt Steamship operating on the coast, is working under agreement with the longshoremen's union.

DR. ROBERG IS AT BEND

State Health Officer to Stop Pollution of Deschutes.

BEND, Or., Sept. 21.—(Special.)—State Health Officer Roberg is here this week arranging for the prosecution of owners and residents of property situated on the banks of the Deschutes River, from which sewage matter is allowed to get into the stream. Dr. Roberg is acting under a statute passed by the 1911 Legislature and is making an effort to create public sentiment against the nuisance. Because the local water supply is taken from a point several miles up the river there is no danger of pollution affecting the town, but towns and residents on irrigated lands below Bend are endangered. Dr. Roberg points out that stringent measures will be taken to remove the cause.

BLACKMAIL TRIALS MOVE TO NEW YORK

Attorney for Prisoners Says He Will Implicate Prosecutor With Woman.

METHODS BEING REVEALED

Wealthy Chicagoan Said to Have Been Compelled to Pay \$5000 and Provide \$100,000 Trust Fund to Prevent Exposure.

CHICAGO, Sept. 21.—(Special.)—Despite their fight to have their trials held in this city, members of the alleged blackmail syndicate will be taken to New York. The Government has decided on this, as every thread of the case has a New York end. Attorney Erbsstein, for the prisoners, made a hard effort at the hearing tomorrow to secure a two weeks' delay.

He said tonight he would not press his demand for return of the papers and other property of the prisoners, seized on the raid upon the Tyson apartment as the suspect in a case of prospective victims, with voluminous data on the record of each person.

Attorney Promises Sensation. Another development of the day was the announcement by Erbsstein that he would make Attorney Fleming, of the local prosecuting attorney's office, one of his witnesses and question him closely on his alleged acquittal and relations with Helen Evers, the "beauty" of the alleged syndicate and who worked out under \$25,000 bond.

Erbsstein intimates this testimony may be sensational.

Still another development was the admission by Federal officials that unusual care was being taken to protect Frank Crocker, alias the "Boston Punk," alias the "Boston Count" and other aliases, who is the chief of the Government's case against the syndicate that Crocker would be assassinated for his treachery to his associates.

Reduction of Bail Refused. Erbsstein attempted today to obtain the release of Edward Donahue and Henry (Shiek) Russell, who are still in jail in default of \$25,000 bail. Commissioner Foster declined to reduce the bond and the prisoners were unable to find sureties for the amount required.

Meanwhile Helen Evers was busy throwing up fortifications around her alibi, and her attorney says the Government's case against her will not stand. He said he would call perhaps 50 witnesses, several of whom will testify that Miss Evers was in Chicago all the time the Government charges she was in Montreal helping hold Mrs. Klipper a prisoner.

Gradually some alleged facts relative to the methods of the so-called blackmailers were revealed in the way in which they are said to have gone about their work—are coming out, and in at least one of these, a Chicagoan, name not revealed, is connected.

Wealthy Man Hires Detective. This man, said to be a wealthy manufacturer, married and living with wife and children on the North Side, fell into the clutches of a fastidious young woman. All was lovely for a time. Then the enchantment mysteriously passed over 18000 which he enjoyed a little vacation, and also set aside a fund of \$100,000 so that the fair one would not be without means of support for the rest of her life. She is said to have added:

"If you do not see the justice of this will, I will propose, perhaps your wife will."

He saw the justice of it all, passed over the \$6000 and made preparations to pay the \$100,000 trust fund. Then he went to a detective agency. Certain facts came to light. Her fangs were revealed, and the man began to breathe naturally once more.

\$12,000 TO BE SPENT

TELEPHONE COMPANY TO EXTEND SYSTEM AT BEND. Improvements Planned in Central Oregon District Provide for Five Years' Growth.

BEND, Or., Sept. 21.—(Special.)—More than \$12,000 will be spent by the Pacific Telephone and Telegraph Company this fall in extending and improving its system in Bend, according to an announcement made here by J. Halliday, district commercial superintendent, who is here. The exact time for starting work will depend on when supplies can be obtained from the East.

Ever since the company took over the lines of the Pioneer Telephone Company in Crook and Jefferson Counties last Spring it has been engaged in making extensive studies and surveys to determine the extent of the improvements needed. The company's policy according to Mr. Halliday, being to provide for five years' growth. This feature of the work now is completed and the work of placing new poles, hanging cables and making other improvements would be going on now were it not for the difficulty of obtaining necessary supplies.

It is expected that this trouble will be overcome in about two months and that the work then will proceed.

GERMANY TO HOLD GREEKS

Soldiers Captured at Kavala Will Be Lodged in Silesta.

Berlin, Sept. 21.—By wireless to Sayre, N. Y.—The Greek force transferred from Kavala to Germany will be lodged at Goerlitz, a town of Prussian Silezia, says the Overseas News Agency. The force is composed of 400 officers and 6000 men.

The officers will be distributed among boarding-houses and hotels and the soldiers will be placed in barracks.
