

CANADIANS PRAISE BRITISH 'LAND SHIP'

'Creme de Menthe' Leads Way, While Germans Pour Bullets in Vain.

TWO WHOLE LINES TAKEN

Advance Made in Face of Determined Resistance, in Which Germans Fought With Desperate Courage of Despair.

OTTAWA, Ont., Sept. 22.—Tribute to the fighting abilities of His Majesty's land ship Creme de Menthe is given by the press here today at Canadian corps headquarters in France, in an account received here today of the part played by the Dominion's troops in the offensive of September 15.

The morning of September 15, dawned bright and clear, and the message from the front. "There was a frosty nip in the air. Suddenly our massed artillery burst into a frenzy of activity. Smoke and fire of all calibers were hurled over the heads of the infantry. Shortly after 6 o'clock our battalions began their attack in successive waves. Our infantrymen moved forward, climbing over the shell-torn ground and leaving the battered trenches. The noise was terrific. Machine gun and rifle fire poured into them.

"Creme de Menthe Leads Way." "Gradually they mounted the last ridge, saw Martinpuich on their right and looked over to the Breck ruins and white chalk mounds of the sugar refinery and the trenches to the right and left, which were to be their objective.

"No sooner were the first lines of German trenches secured than the assaulting waves pressed onward. "In their midst, moving ponderously but steadily, came several of the new armored cars. His Majesty's land ship 'Creme de Menthe' led the way and the effect was electrical. In vain the Germans rained a storm of bullets against the invulnerable cars. They were powerless to stop the advance.

"Although our infantry were the first to reach the enemy line, the cars assisted materially in silencing the German machine-guns. Ten officers, including a battalion commander, were prisoners. At the same time the trenches on either flank, known to us as the 'candy' trench and the 'sugar' trench, were captured and captured.

"Second Blow Delivered at Once. "So successful was the attack that the troops, commanded by Sir Byng, decided to strike another immediate blow. He ordered that the village of Courcellette, together with the German trenches between Moquet farm and the northwestern edge of the village, be attacked. By 6 o'clock in the evening all preparations were completed, but no attack was launched. The objective was a different one, instead of a large and strongly fortified village on the right.

"A famous French-Canadian battalion, having as its objective the large farm of Courcellette, behaved with the greatest skill and gallantry. On their left a Halifax battalion cooperated brilliantly in the capture of the rest of the village. A Canadian light infantry battalion, together with the Montreal battalion, at the same time captured the line of trenches to the west and established a strong position.

TWO WHOLE LINES CAPTURED

"Thus, within little more than 12 hours, the Canadian captured two whole lines of the German defensive positions on a wide front and to a depth of from 1000 to 2000 yards. This was accomplished in the face of a desperate and determined resistance and which the Germans fought with the courage of despair.

Friday's War Moves

ON THE Somme front in France, French and British again have taken the offensive and been rewarded with additional gains. General Haig's men made progress toward Bapaume, while General Foch's soldiers, who apparently have begun another effort to eject the Germans from Comblès and its salient north of the Somme, also met with success.

General Haig's troops straightened out their line between Martinpuich and Flers, a distance of about one mile, by taking two lines of German trenches. The British front there now runs on a direct line north of the two villages. London also records improvements of other positions on the British front.

OFFICIAL WAR REPORTS

Germans in Balkans.

BERLIN, via London, Sept. 21.—The text of today's statement on the situation in the Dobruja region is: "In Dobruja strong Roumanian forces attacked southwest of Topral Sari (14 miles southwest of Constanta). By an encircling counter attack by German-Bulgarian-Turkish troops against the flank and rear of the enemy, the Roumanians are being driven back in disorder. "Macedonian front—fighting activity in the Florina rivulet is still lively and has been reawakened to the east of the Vardar River."

French.

PARIS, Sept. 21.—Today's official statement says: "North of the River Somme, German forces this morning delivered a strong attack upon our new positions between Le Priez farm and Rancourt. Our curtain of fire, however, checked sharply the great advance of the enemy and compelled them to retire to the trenches whence they had started, at the same time inflicting upon them heavy losses."

Germans on Western Front.

BERLIN, via London, Sept. 23.—Reporting military operations in France, the German official statement issued today says: "The front—apart from lively artillery and hand grenade engagements on the Somme and in the Meuse region there is nothing to report."

Bulgarian.

SOFIA, Sept. 21, via London, Sept. 22.—Only minor fighting on all the Bulgarian fronts, with no change in the general situation is reported in an official statement issued by the War Office today. The text of the statement follows: "Macedonian front, Wednesday—There is no change in the situation. Our troops at Florina and Kaimakalan Heights passed the day in relative quiet. A Russian attack on Hill 1279, north of the village of Arnenik, failed. Hostile battalions were repulsed in disorder in the Moglenica Valley. On both sides of the Vardar, there was weak artillery fire. In the Struma Valley and along the Aegean coast quiet prevailed."

Germans on Eastern Front.

BERLIN, via London, Sept. 22.—German troops in Valbyria to the west of Lutsk yesterday repulsed weak Russian attacks, says the German official statement issued today. In the fighting on the Eastern Front, the German troops repulsed weak Russian attacks, says the German official statement issued today. WITH THE BRITISH ARMY IN FRANCE

LONDON, Sept. 22.—Some of the best stories of the battle are told only after battalions which have been in a big fight in the line. Then, after they have slept, they recall vivid incidents in the midst of charges and the struggle for positions. They live over again their sleepless nights and days when they faced death in their grapple with the foe.

Italian.

ROME, via London, Sept. 22.—Italian troops have made further progress on the Trentino front, the War Office announced today. Persistent bad weather again interfered with the activity of the troops yesterday throughout the whole theater of operations. The statement says: "Nevertheless, some further progress is reported in connection with our persistent advance at the head of Vancell and the head of the Vardar, north of Monte Stef, in the Upper Cordevate. On the Julian front there were limited artillery actions. "Hostile batteries shelled Goribia without doing any harm."

Austrian.

BERLIN, Sept. 22, by Wireless to Sayville, N. Y.—The official communication issued by the Austro-Hungarian headquarters today reads as follows: "Front of Archduke Charles—In the Carpathians the Russian attacking army has fallen off somewhat. Russian attacks north of Dorna Watra, southwest of Luceacaln and in the district of Ludova were repulsed. The summit of Smotrea was regained. "Front of Prince Leopold of Bavaria—On the front of General Boehm-Ermolli, the artillery combat increased. East of Symbulky the enemy opposes fresh columns to our attacks. Everywhere the enemy was repulsed."

Prisoners Under Red Cross Flag.

The Baron was sent across the open with the other prisoners under a Red Cross flag and with the warning: "If your men get the other side, do not help it." The Baron was wounded in the leg by German shrapnel.

German Discovers Himself Out.

When the Canadian saw something move under a pile of earth in a battered German trench they occupied, they dug out one dead German who had been killed by a shell-burst, and one slightly wounded in the arm. They bound up the wound and dug him out as far as the hips and then told him, "This is our busy day; see if you can't do the rest for yourself." That German did not alone dig himself out, but kept on digging all night, helping the Canadians make a new trench.
