When Winter Comes That House of Yours Simply Will Not Do

Let us impress upon you the futility of expecting to find comfort in the ordinary cold, draughty, inconvenient rented house.

The majority of rented houses were not built right in the first place and they haven't been properly taken care of. They are out of date and are exceedingly difficult to heat.

Let us show you some of our new, modern, compact, up-to-date homes in LAUR-ELHURST, which you can practically buy with your rent money. You will thank us later for urging their purchase upon you.

We know that no houses can be made of better materials than are used in these classy dwellings, neither can more up-to-date plans be found, nor more skillful workmen employed.

That this befief of ours is shared by others is evidenced by the large number of recent purchasers of mes in LAURELHURST.
