Permanent officers of all these branches will be elected at the various meetings.

Announcement was made yesterday by Mr. Neuhausen that a one and one-half round-trip rate has been granted by the railroads for the state-wide conference of the Oregon Hughes Alliance on Friday, October 6. This rate will be effective for the trip to Portland from October 4 to 6, inclusive, and returning from Portland, from October 7 to 10, inclusive.

Non-Delegates May Attend.

Others who desire to attend the conference, in addition to the regularly elected delegates, may take advantage of this low round-trip rate. The conference will be held in Liberty Hall, Tenth and Yamhill streets, and the day's work will be divided into two sessions. At the morning session, opening at 10 o'clock, permanent officers will be elected; reports received and committees appointed to adopt a constitution and bylaws.

The afternoon session will begin at 2 o'clock. At this session half-hour addresses will be made by Oregon's three members of the National House of Representatives, W. C. Hawley, N. S. Sisson and C. H. McCary. That same night the delegates and visitors will attend the rally to be held at the Army, at which Lewis, Clark, Fairbanks, of Indiana, ex-Vice-President of the United States, will be the speaker.

not in the garbled fashion that it appears above. Some while ago, while enlisting in the Army were stimulated by possible Mexican engagements, Mr. Pierce was called upon to stand sponsor for some 19 young fellows who wanted to enlist, but had no parents to give their consent. Mr. Pierce was appointed their guardian and gave his consent as parent by proxy.

But yesterday he received a marked newspaper and the remarkable information that he had 19 sons in the Army. Worse than all, it appeared in a newspaper published in the town which was his home—up to seven years ago. Particularly embarrassing is the situation, because Mr. Pierce has not long been married and only a short time ago was receiving congratulations upon the arrival of his first-born.

Eppenstein, according to the patrolmen and Ervin, did the mile in better than 40 seconds on several occasions on more or less crowded streets, and scoffed at arrest, waving the khaki and the Stars and Stripes before all officers and Ervin in particular.

STATE FAIR CRITICISED

Livestock Body Complains of Improper Stabling of Stock.

STATE FAIR GROUNDS, Salem, Or., Sept. 27.—(Special)—Members of the Oregon Pure-Bred Livestock Association at a meeting here tonight severely criticized the State Fair management for what was declared to be inadequate attention of the livestock department this year.

Members said that the greatest conclusion existed in the methods of stabling stock and that the stock was not classified in the different barns according to breeds. Considerable criticism was leveled because the management had not closed stock entries on September 15 as advertised, but had held entries open until the judging began. The association voted to insist that next year an early closing date be fixed and adhered to.

Officers elected were: C. L. Hawley, of McCoy, president; N. C. Maris, of Portland, secretary, and Charles Cleveland, of Gresham, treasurer.

WOMEN URGED TO HELP

Oregon Must Assist in Vote Campaign, Says Mrs. McArthur.

"The women of Oregon must do their part with the women of other Western states, in assisting to pass the National Suffrage amendment," said Mrs. Lewis A. McArthur, of Portland, yesterday in discussing the campaign now being waged by the suffrage workers in this

state to defeat President Wilson and all Democratic Congressional candidates.

"We must remember that we did not win our suffrage alone. The Eastern Women helped us with speakers and with money.

"And we must not forget that in spite of the earnest demands of thousands of women that there are 20 state constitutions which hopelessly block the path of state action. The only way by which those states can obtain for women the power to vote is through an amendment to the United States Constitution.

"The issue of suffrage for women is no longer a local one; it is National and paramount. The means of bringing this before the unwilling voters. We women have the political forces us to put no faith in the Democratic party and their leader.

"Every woman voter who conscientiously cares for the political liberty of the women of this country should use her vote against Wilson and the National Democratic candidates at the coming election.

Appeal No. 1
Look for the
2nd Appeal

Oregon Bakers' Appeal to the Public

The cost of manufacturing a good loaf of bread has steadily increased for several years. When the European war broke out in 1914 the Oregon Bakers were able to protect themselves against the great advance in the prices of flour, sugar, shortening and other ingredients for months ahead. The bakers gave the public the benefit of the flour they bought at low prices. But during the Winter of 1915 and up to June and July, 1916, there were steady advances in the prices of all raw materials, as follows:

Patent Flour.....100%	Gasoline.....100%
Rye Flour.....124%	Horse Feed.....25%
Sugar.....66%	Waxed Wrappers.....70%
Shortening.....60%	Salt.....14%
Milk.....40%	

Increase of Costs

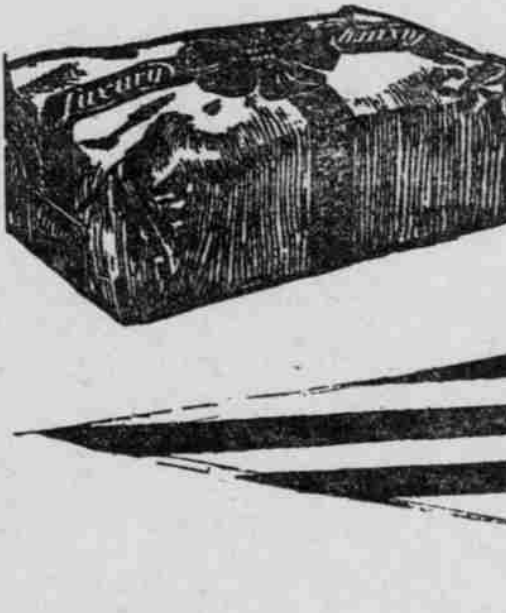

The above advances nearly all took place before the spectacular rise in wheat during the past month. These last advances came unexpectedly. The bakers were not prepared. They did not look for these rises.

The Public Must Look for Higher Prices of Bread or a Decrease in the Size of the Loaf, or Both.

Look for the next appeal, which will appear soon. Please read these appeals carefully. We promise you good bread and your money's worth. We want to tell you of the tremendous difficulties under which we are operating at the present time.
