HOSPITAL IS VETOED

Commissioner Baker Calls for New Vote on Pierce Bill.

PRECEDENT DECLARED BAD

Objections of Ottizens of Sellwood Should Guide Council, Is View. Referendum to Be Invoked if Ordinance Is Passed.

passed by the Council Wednesday giving Dr. E. A. Pierce the right to establish a tuberculosis sani-tarium in Sellwood become a law. City Commissioner Baker yesterday filed a veto against the ordinance as passed, setting forth objections to its pro-visions. This means that the Council will again have to pass the received visions. This means that the Council will again have to pass the measure. This is the first time the veto power as vested in each of the Commissioners under commission government has been used. The charter provides that any Commissioner may, within 10 days of the passage of an ordinance, file written objections in the form of a veto and that the measure thereupon must be voted on again by the Council. In the meantime Sellwood residents, who are up in arms against the proposed sanitarium in their district, have prepared to invoke the referendum against the ordinance in case it again carries. The ordinance granting the carries. The ordinance granting the permit was passed by vote of Mayor Albee and Commissioners Daly and Albee and Commissioners Daly and Dieck, with Commissioners Baker and Bigelow voting against it. Unless one of the three who voted for it changes his vote the ordinance will stand as

Objections Are Detniled. Commissioner Baker in his written objections gives in detail his objections to the sanitarium being built in Sell-wood. He says it is establishing a precedent which means that the Countries of cil cannot consistently refuse similar permits for other parts of the city.

Following are Commissioner Baker's reasons for demanding reconsideration of the ordinance as set forth in a communication sent to City Auditor Barbur vesterday:

yesterday:

I he by object to ordinance No. 32,186, fentitled "An ordinance authorizing Dr. Edward Allen Pierce to maintain a sanatorium, exempting him from provisions of ordinance No. 27,785," passed by a majority of the Council October 4, 1916, for the following reasons:

First—By the provisions of ordinance No. 27,785, it is made unlawful for any person to establish, conduct or maintain within the city any sanatorium for the treatment or care of persons afflicted with tubercular diseases, and with the force and effect of this ordinance still unimpaired, a majority of the Council has enacted or-

Class Legislation Charged. Second—Ordinance No. 32,186 is victous class legislation which the Council should onat countenance; moreover, it grants a spe-cial immunity privilege and favor to Dr. Pierce, at the expense and to the detriment of a large number of citizens and taxpayers, who have vigorously voiced their objections

who have vigorously volced their objections thereto.

Third—The enactment of this ordinance sets a bad precedent. If this institution is a financial success, as it undoubtedly will be, other applications for the passage of similar ordinances authorizing the establishment of like sanatoriums in other parts of the city will unquestionably follow. Under the principle of fair play what excuse will there be for denying these applications? Since the state institution for tubercular patients at Salem is crowded to overflowing, we may expect to see numerous small sanatoriums such as that proposed scattered throughout the city.

Fourth—There is not the slightest warrant or excuse for the enactment of the ordinance. Notwithstanding the precense about this proposed sanatorium being a haven for the peor and unfortunate affilicted with tuberculosis, who at the present time are wandering in the highways and byways of the city, it is notorious fact that the proposed institution will be but a commercial enterprise with open door only for a few of those who are well able to pay handsomely for the care and attention offered.

Physicians' Warning Cited.

Not without again receiving a majority vote of the City Council will an

Physicians' Warning Cited.

Fifth—Whether or not the public health, peace or safety is endangered by the establishment of such an institution in Sell-wood is immaterial in this instance. The fact remains that the medical profession itself has led the public to believe that the germs of the "great white plague" may be communicated or transmitted from one to another in a variety of ways, by expectoration and otherwise. That the people of Sell-wood have been convinced by this propaganda that a sanatorium of the kind proposed is a menace to the public health and safety is fully proved by the vehement protest of a large number of Sellwood residents and property owners, who have appeared before the Council when this matter was under discussion. The members of the Council are servants of the people, and it is the duty of each member to respect the wishes of the people. In this instance it is beyond debate that an overwhelming majority of the residents and property owners of Sellwood on twant Dr. Pierce's sanatorium in their community. This being true, ordinance No. 32.185 has no place among the ordinances of the city. Physicians' Warning Cited.

AUTO PLANT COMING HERE

Maker of Trucks Announces City Will Get Assembly Factory.

While in Portland only 20 minutes between trains Wednesday, Watt Moreland, of Los Angeles, designer of the truck bearing his name, announced to the officials of the McCraken Motor Company, local dealers, that an assembly plant will be established by the company in Portland in the immediate future. The location and dimensions of the proposed plant have not been determined, but it is understood that the industry will commence operations by termined, but it is understood that the industry will commence operations by employing about 50 men.

Instead of shipping trucks from its big plant in Los Angeles direct to Portland, Mr. Moreland says the materials will be sent here in "knocked down" condition and assembled at the Portland headquarters.

HUGHES' STAR RISES

Melvin J. Winstock Says Republican Tide Flowing In.

WILSON "BLUNDERS" CITED

Campaign Worker Says Observations

Election of Hughes next month is as certain now as was the election of Wilson at this time four years ago, in the opinion of Melvin G. Winstock, of Portland, who returned yesterday from a tour of Washington in the interest of the Hughes campaign. He says Hughes sentiment is in the air every-

his ear to the ground has not always been able to determine the direction the public opinion wind is blowing.

"He thought it was a big step to win 400,000 votes by his attitude in this case but he overlooked 500,000 in California.

"In the will leave in about a week for a speaking campaign in California.

"It was 'shotgun' methods and not affected by the Adamson bill. It was 'shotgun' methods and nothing else.

The business of the association being completed in the morning, the delegates spent the afternoon in a trip over the Columbia River Highway.

TAXABLE AREA INCREASED

Monmouth Votes to Assess Lands

and nothing else. Reversal of Condition Cited. "Put the shoe on the other foot and suppose that on the Saturday before the threatened railroad strike the men had not been in a controversy but the railroads were seeking to further their own interests. Suppose the roads had told President Wilson and Congress that unless the Interstate Commerce Commission was forced by the following Monday to allow the roads to increase freight rates 25 per cent to as Are Based on Personal Talks

Election of Hughes next month is asserted in now as was the election of Wilson at this time four years ago, in

Mexican Question Asked. "'And what would the Republicans have done in Mexico?' is asked. "My idea is that they wouldn't have waited as long as did Wilson, but if they had waited until Villa's raid and massacre, waited until Villa's raid and massacre, it is my opinion that they would have forthwith demanded that Carranza deliver Villa dead or alive to the Americans within 60 ds is or drastic action would follow. The Latin-American countries would have been called into conference and a solemn pledge taken that no Mexican territory would be taken by the United States, but that the country would be handled as was the Philippines and restored to its standing as a nation as soon as that was possible.

"And then in regard to the Lusitania affair I believe Republicans would have cabled the American Ambassador in Germany to interview the Kaiser when the advertisements were inserted in

the advertisements were inserted in Eastern publications warning against Americans taking passage on the ship and would have demanded a with-drawal of the order.

Republican Attitude Prophesied. "In the event of a refusal the United States would have seized every German ship now in American waters and would have refused shipments of any commodity to neutral nations until they gave bond to guarantee that these shipments would not be sent to Germany. This would have ended the present war in six months' time.

"Mr. Hughes is the only Presidential candidate who has got the nomination without making a pledge of office or principle to a living soul. He did not barter Cabinet positions for convention aupport that would give us a Bryan that turns pale at the sound of a boy's popgun and a Daniels at the head of the Navy Department that gets seasick every time he goes out in a rowboat."

Mr. Winstock is campaigning under In the event of a refusal the United
