It is rare in a musical experience that one has the pleasure of hearing three artists, such as the Cherniavskys, willing to sink their individualities into one trio for the glory of ensemble ef-fect, and yet when occasion calls come on again on the same programme and win out as soloists on three musical instruments differing so widely as violin, piano and 'cello. Yet, this is what happened last night.

For Catarrhal Deafness and Head Noises

Here in America there is much suffering from catarrh and head noises. American people would do well to consider the
method employed by the English to combat this insidious disease. Everyone knows
how damp the English climate is and how
dampness affects those suffering from
catarrh. In England they treat catarrhal
deafness and head noises as a constitutional
disease and use an internal remedy for it
that is really very efficacious.

It to them and you will have been the means-of saving some poor sufferer perhaps from total deafness. The prescription can be easily prepared at home for about 75c and is made as follows:

From your druggist obtain 1 oz. of Parmint (Double Strength), about 75c worth. Take this home and add to it 1/2 pint of hot water and 4 ounces of granulated sugar; stir until dissolved. Take a tablespoonful four times a day.

Parmint is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are usually remarkably quick and effective.

Every person who has catarrh in any form should give this recipe a trial and free themselves from this desiructive disguss.—Adv.

The nurses boycotted the services early this week, when hospital authorities attempted to make attendance compulsory for nurses in the training school. Yesterday they were induced to go to chapel again. The nurses

Figures Presented to Show Holdings by Shippers During July and August-Abrogation of Weather Rule Also Desired.

Commission by the Southern Pacific Company, in recommendations submitted today by the railroad for relief of the present car shortage.

Blame for the shortage is placed by the railroad upon the shippers holding cars beyond the free time limit. It is argued that if the Public Service Commission will authorize a \$3 demurrage rate on both intra and interstate shipments, relief will be obtained.

Under the average agreement placed in effect by the Public Service Commission in August, 1913, a demurrage rate of \$2 is charged on intrastate shipments and \$1 for interstate shipments.

After citing numerous statistics con the car shortage, the Southern Company's recommendation

"Car efficiency can be obtained only by fixing the demurrage rate at a figure that will make it an incentive and figure that will make it an incentive and a benefit to the general shipping public to release cars with the greatest possible dispatch, and as the \$3 rate obtaining in California has brought about this to an extent not equaled in any other territory, we have to recommend its adoption in Oregon, where, because of the low rates and the 'average agreement,' five times as many cars are held in excess of the free cars are held in excess of the free

He accused the Democrats of making the Public Service Commission a political football and said that he wanted to place it in the hands of men who would make that commission a credit to the state and a benefit to the public service corporations.

5 Passenger 3400 r.p.m. Chalmers-\$1090 Detroit

QUALITY

That is the Real Secret of the 3400 r.p.m. **Chalmers Popularity**

Whenever you see the Chalmers trade mark you always see the phrase "Quality First." Whenever you think Chalmers you think "Quality." And if you have been reading my ads or have been in my salesroom, you are impressed with the fact that the 3400 r. p. m. is a Chalmers car of unusual quality.

I've often said that it is, in my opinion, the greatest car the Chalmers Company has built. And I have an excellent reason for saying this. It is a step ahead of any preceding Chalmers because it performs a shade better. The Quality in the new Chalmers is the kind of quality that tells on the road and tells wonderfully.

Now it is just this exceptional quality, just this shade of improvement that has brought Chalmers sales and production ahead in leaps these 12 months past. I don't think the men in charge of affairs at the Chalmers factory realized what they had in the 3400 r. p. m. Chalmers. At any rate they underestimated the demand. They built more than they had ever produced in any previous season, 'tis true, but still not enough.

The first making order was snapped up quickly. Then came a second lot. These went just as fast.

Now the factory is building the third lot and I understand that Chalmers has no intention of stopping even there. Quality it was that caused this unprecedented demand. Chalmers certainly have the right idea in building cars. "Quality First."

Been "Going It" Too Hard?

Lots of folks who are tired, cross, nervous, rheumatic and achy, are show-ing all the signs of early kidney trouble without realizing it.

This condition is too often the result of our great American fault of making one continual rush of everything whether work or pleasure, without taking enough rest, fresh air, exercise

We tear down faster than Nature can We tear down faster than Nature can rebuild. It weakens the kidneys. An early attack of kidney trouble isn't hard to get rid of, usually. Just give the body and nerves a rest and help the kidneys get stronger. Try Doan's Kidney Fills. They have helped thousands of kidney sufferers, many of them your own friends and neighbors. But don't delay, for chronic kidney disease is dangerous.

Why Suffer From Migraine or Sick Headache?

Dr.J.J.Caldwell says that this exceedingly distressing disease does not shorten life, but does not appear to be curable. Sufferers from this affliction are condemned to undergo the periodical attacks every few weeks until they are forty years of age, after which the attacts are less frequent, and finally disappear entirely. Palliative measures during the attack are all that it is possible to suggest, while care in the diet is the best preventive measure. An attack may often be prevented by taking two anti-kamnia tablets when the first symptoms appear, and one anti-kamnia tablet every two hours during the attack shortens it, eases the pain and brings rest and quiet. Anti-kamnia tablets may be obtained at all druggists. Ask for A-K Tablets, They quickly relieve all Pain.
