WHEAT RISE HALTS

Bids Put Out in Country Show No Advance.

BLUESTEM SELLS AT $1.48

Trade Looks for Reaction in Eastern Speculative Centers After Excitement of Past Week—Oats and Barley Are Strong.

The demand for wheat in the Northwest continued strong yesterday in spite of the unsettled close at Chicago. Bids put out in the country were about the same as on the preceding day, though for good lots of any kind buyers were ready to pay more.

At the Merchants' Exchange, November bluestem sold at $1.47 and December bluestem at $1.48, an advance of 1 cent over Thursday. Other bids ranged from ½ to 2 cents up. The following sales were posted at the Exchange:

5000 bushels November bluestem	$ 1.47
5000 bushels December bluestem	1.48
100 tons October bran	21.00
100 tons November bran	21.00

The opinion was more or less general in the grain trade that a reaction is due in the speculative markets in the East, after the excited advances of the past week, and many looked for a break yesterday. Chicago early in the day went 3 cents over Thursday's close, but the hot pace could not be maintained and the net gain at the wind-up was only ⅜ cent for December. From this it was figured that a turn in the tide has set in and the market has reached its crest, for the present at least.

Oats and barley scored further advances on the local board. Oats have displayed much strength of late and the demand has increased on the theory that oats have been too cheap in relation to barley. The oats market is not far from the Eastern basis and a renewal of rail shipments would occasion no surprise.

There was no announcement of further change in local flour prices. There is a good Eastern and export demand for flour, but with the car situation as it is now millers cannot take much advantage of this inquiry.

Bradstreets estimates clearances this week at 5,334,000 bushels of wheat and 870,000 bushels of corn.

Terminal receipts, in cars, were reported by the Merchants' Exchange as follows:

INSPECTION AT DELIVERY POINTS

Fruitgrowers' Agency Will Inaugurate Important Service.

According to a telegraphic dispatch to Paul H. Weyrauch, president of the Fruitgrowers' Agency, Inc., the Federal office of markets is to inaugurate a very important inspection service on apples at the receiving end. C. T. More, who has recently visited the leading fruit districts of the Northwest with this new service in view, is to be stationed at Fort Worth and Dallas, Texas, to supervise this inspection service.

The office of markets, through the cooperation of shippers and railroads, plans to inspect cars of apples which pass through Fort Worth and Dallas. As these two places are division points on a number of leading southern railroads, the service will cover fruit distributed over a large territory.

Inspection service on fruit going to Texas and tributary territory is especially important because shippers have hitherto been at the mercy of the buyer in these markets. Texas is so far distant from other large fruit markets that fruit which is rejected for any reason by a buyer there cannot well be diverted and hence must often be disposed of at considerable loss.

The Fruitgrowers' Agency has been working for this inspection service for some time and hopes ultimately to secure a service which will minimize the shipper's risk with unscrupulous buyers on declining markets.

ADVISORY BOARD IS APPOINTED

Co-operative Plan of Fruit Marketing Will Be Considered.

An advisory board has just been appointed by the Governors of the states of Oregon, Washington and Idaho for the purpose of considering a co-operative plan for marketing the fruit products of these states.

Governor Withycombe's appointees are Professor C. I. Lewis, Oregon Agricultural College, Corvallis; A. C. Allen, Medford, and Dr. C. A. Macrum, of Portland.

Governor Lister's appointees are Captain Paul H. Weyrauch, president of the Fruitgrowers' Agency, Inc.; Gordon C. Corbaley, managing secretary Spokane Chamber of Commerce, and T. O. Morrison, Assistant Commissioner of Agriculture, Division of Horticulture, Olympia.

Governor Alexander's appointees are Gottfried Lohrli, of Parma; W. N. Yost, of Meridan, and S. J. Klepfer, of Rathdrum.

This board was appointed as the result of a conference held at North Yakima. A meeting of this board is planned for the near future.

BUTTER PRICES HOLDING STEADY

No Bids for Extras at Produce Exchange. Eggs Unchanged.

Butter is holding steady at former prices at the produce exchange. Extras were offered at 36 cents, but there was no bid. Dairy butter was offered at 30 cents with 28 cents bid.

For case count eggs 39 cents was bid and 41 cents asked.

Tillamook young America cheese was offered at 18½ cents without bids.

Poultry and dressed meats were steady on the street.

I. L. Strong, a prominent produce man of Seattle, was a visitor at yesterday's session of the exchange.

POTATOES AND ONIONS ARE FIRMER

Buyers Are Paying Higher Prices for Both Products.

But for the car shortage a very heavy shipping movement would be under way now in potatoes and onions. The outside demand is active and even with the limited shipping facilities there is quite a fair movement.

Prices are firm and tending upward. The association's selling price of onions has been advanced to $2.10. The leading potato buyers are now offering $1.15 to $1.25 for potatoes at shipping points.

On Front street, Oregon potatoes were jobbed yesterday at $1.35@1.40, and onions were quoted at $2.25@2.50.

Apples Moving Freely.

Apples of all except the highest-priced grades are now moving freely on the street. Grapes are cleaning up well at firm prices. California pomegranates offered yesterday at $2@2.25 a box.

The steamer brought a moderate shipment of sprouts, beans, artichokes and other small vegetables.

Sugar Higher Again Today.

An advance of 15 cents in all grades of refined sugar was announced yesterday, effective this morning. Today's quotation will be $8.25 on standard cane granulated.

No other changes of consequence were made in the grocery list.

Hop Market Fairly Active.

There is considerable trading in hops in the Independence, Hubbard, Aurora and Woodburn sections, mostly at 10 to 12 cents. No business was reported from California. At Yakima the Rivard lot of 150 bales changed hands.

Bank Clearings.

Bank clearings of the Northwestern cities yesterday were as follows:

STEEL STOCK LEADS

Over Quarter of Dealings Are in One Issue.

ADVANCE OF FOUR POINTS

Other Speculative Shares Are Prominent in Day's Heavy Trading. Low-Priced Rails Also Come to Front—Closing Tone Firm.

NEW YORK, Oct. 20.—Trading in today's broad, strong and active market was completely overshadowed by the prominence of United States Steel, that stock contributing over 25 per cent to the total turnover, which approximated 1,350,000 shares.

Steel's extreme advance of four points to 119⅝ places the stock within 1¼ points of its record quotation made in the latter part of September and represents a gain of more than 11 points for the week, having fallen to 108 last Saturday.

Other active, though less strong, features included Republic and Crucible steels, Anaconda and Inspiration coppers, American Smelting, such equipments as American and Baldwin locomotives, General Electric and Westinghouse, Central Leather and numerous low-priced rails.

Foremost among the latter were Wabash issues, Rock Island, Missouri Pacific preferred, Chicago Great Western preferred and Minneapolis & St. Louis, the last named being distinguished for its advance of almost seven points. Interest in the shares has grown appreciably by reason of the better earnings submitted from month to month.

Motors also were restored to speculative favor, Studebaker and Maxwell recording substantial gains, while some subsidiaries and sugars were in renewed request, with new records for Cuban-American and Cuban Cane at 218 and 69½, respectively.

Dealings embraced fertilizers, Harvester, United States Industrial Alcohol, American Woolen, leathers and petroleums all at variable advances. Paper issues reacted three to five points from top levels on realizing sales.

Investment rails were under moderate pressure, but regained their losses in the general improvement of the last half hour.

Bonds of minor railroads were responsive to the advance in shares, but international issues suffered from further offerings. Total sales, par value, $7,260,000. United States bonds were unchanged on call.

BUYING HAS NOT BEEN CHECKED

Heavy Buying Probable as Long as the War Continues.

NEW YORK, Oct. 20.—Tomorrow Bradstreet's will say:

Trade and industry never moved at a quicker pace than at present. While abnormally high commodity prices counsel caution lest a sudden veering of trade conditions may come, demand is so insatiable that buying seemingly will go on while the European war lasts. As yet there is no sign of the saturation point being reached as regards supplies of goods, and while high prices are complained of, there is no evidence, aside from conservatism in buying some textiles that have advanced largely, of the buying movement being checked.

Weekly bank clearings were $6,665,210,000.

FLOUR ADVANCES AT MINNEAPOLIS

Chicago Bakers Will Start Campaign for Embargo.

CHICAGO, Oct. 20.—Another advance in the price of flour was reported at Minneapolis, and, according to a dispatch from Columbus, O., the National Master Bakers' Association announced that 185 bakers failed during the three Summer months because of the high price of flour.

In Chicago B. H. Dahlheimer, president of the Master Bakers' Association of Chicago, announced that the association will meet Monday to start a campaign, through Congressmen, to obtain an embargo on the export of wheat and flour until the domestic situation is relieved. Mr. Dahlheimer said that at the present rate Chicago, which was recently called upon to pay 6 cents for the traditional lightweight 5-cent loaf, would have to support a further raise.

RISE BRINGS SALES

Bulge at Chicago Leads to Heavy Profit-Taking.

TONE AT CLOSE UNSETTLED

Wild Rushes to Buy in Early Part of Session Send Market Up 3 Cents—All News of Day Is Bullish.

CHICAGO, Oct. 20.—Highest prices since the American Civil War, except during the Leiter "corner," resulted in the wheat market today from a series of wild rushes to buy and from a temporary scarcity of offerings. On the bulge, however, profit-taking sales were heavy and there was unsettled close. Final prices, with December at $1.69½ to $1.69¼ and May $1.69¼ to $1.69⅜, ranged from ⅝c decline to ⅜c advance, as compared with yesterday's close. Corn gained 1½c to 2⅜c and oats ⅝c to ⅝@⅜c. In provisions the outcome was unchanged to 40c higher.

Urgency to acquire wheat was manifested chiefly in the first half of the session. One of the main reasons appeared to be that yesterday's export sales were said to have reached the huge total of nearly 2,000,000 bushels. Other causes included a continuance of the Argentine drought, the assertion that only a third, instead of half, of the threshing in Canada had been done, and the fact that stocks in Great Britain were decreasing to a serious extent. Action of the British government in commandeering all the Manitoba wheat that dealers had contracted for tended also to stimulate buying here, until signs began to appear that foreigners had, temporarily at least, to a considerable degree, stopped following the upward movement in prices.

Corn futures jumped 5 cents a bushel at one time today, and the market for immediate delivery reached the notably high level of $1 a bushel for No. 2 yellow. Husking delays certain to result from the prevailing stormy weather had a good deal to do with the rise, and so, too, did adverse crop reports from Argentina, but more than half of the gains failed to hold.

Oats, although unusually active, seemed to be swayed altogether by the course of wheat and corn.

Provisions, influenced by grain, advanced to new high levels, but underwent some reaction at the last, owing to the profit-taking. An early break in the value of hogs was altogether ignored.

Leading futures ranged as follows:

	Open.	High.	Low.	Close.

INDIAN TIMBER TO BE SOLD

Annual Sales of $200,000 From Klamath Reservation Planned.

KLAMATH FALLS, Or., Oct. 20.—(Special.)—A plan for selling from the Klamath Indian Reservation each year enough timber to yield approximately $200,000 is announced by Superintendent William B. Frees. The announcement comes following the visit here recently of J. P. Kinney, assistant forester and really the biggest man in the forestry department of the United States Indian Service.

It is expected that within two months advertisements will be published asking for bids on several units of Indian timber. This is to be sold to provide money for the Indians to use in buying breeding stock and implements and generally improving their homes. The Klamath Indians are rich in land and timber.
