

CANADA COUNTS ON WILSON'S ELECTION

Business of \$500,000,000 Annually Expected if Underwood Tariff Stands.

RECIPROCITY NOT WANTED

Present Situation Is Better Because Nothing Is Given in Return. Mr. Taft Comments on Dominion's Ambitions.

CINCINNATI, Nov. 3.—(Special)—Newspaper reports of Canada's intense interest in the American Presidential election comes as no surprise to ex-President Taft, who in an authorized interview said:

"Newspaper reports show that Canadian business men and manufacturers are greatly interested in the American Presidential campaign and that Canadians hope President Wilson will be re-elected, in order that there may be no change in the Underwood tariff. 'I don't blame them. Were I a Canadian manufacturer I would hate to see Mr. Hughes and a Republican Congress elected. Our election is almost as vitally interesting to Canada as to our own country.'"

"During my Administration the American Congress offered Canada the benefit of our great buying capacity in return for access to the Canadian markets. We called it the Reciprocity act. But Canada voted it down overwhelmingly. Canadian business men did not want to have to compete with American manufacturers on even terms. Then the Underwood tariff was enacted. We threw down our tariff wall and opened our markets to the competition of the world. Canadian business men, through the Underwood tariff, secured even more from America than they would have gained under the Reciprocity act—and they gave absolutely nothing in return."

"Here are some figures, compiled at Ottawa, which show why the business men of Canada are watching our campaign with such interest. In 1915, before the Underwood tariff was enacted, Canada sent into America products to the value of \$195,000,000. In 1915, the second year of the Underwood tariff, the exports to us were worth \$215,000,000 and in 1916 these exports had increased to \$300,000,000. Next year they expect to see us \$500,000,000 worth of their products."

"\$500,000,000 Trade Hoped For. 'Do you blame them for being on pins and needles over the outcome of our election? If that Underwood tariff should be changed, those \$500,000,000 will be spent for American-made goods instead of for goods made in Canada.'"

"But that is not all. Because the Underwood tariff does not provide that Canada shall give American manufacturers the same rights in Canada that it gives to Canadians over here, many of our American manufacturers are being forced to locate in Canada and to employ Canadian workmen. The Monetary Times, a financial newspaper of Toronto, estimated that in 1912 168 American firms, with investments of \$22,000,000 in Canada, were in Canada. The same authority says 300 American factories, worth \$600,000,000, were in Canada."

"Canada is getting rich at the expense of American manufacturers and American workmen. They catch us going and coming. They bring their products over here without paying a duty and they collect a tariff from us when we send any of our goods across the line to them."

"Organization Is Prepared. 'Canadian newspapers say that when this war is over Canada will find itself with a wonderful organization, perfected for the purpose of making munitions, but which can be immediately turned into peaceful pursuits. The newspapers tell of 100 new factories now used for war purposes, but which will be turned into other lines at the close of the war. The output of those factories will be brought into this country and sold in competition with the output of our factories. 'I don't blame Canadians for keenly watching our campaign. They have so much at stake it is the most natural thing in the world that they should do so. As long as the Underwood tariff remains in effect Canadians are practically on a party with our own manufacturers in American markets and they have to give nothing in return. It's a question of Canadian manufacturers and Canadian workmen against American manufacturers and American workmen. If the Democrats win, the Canadians retain their American market, and American manufacturers and American workmen must pay the price. 'Ware I a Canadian business man, I should watch the American campaign closely.'"

T. R. ASSAILS WILSON

President Declared to Put Future in Jeopardy.

'SWAPPING HORSES' URGED

Nation Pursued That Course, Says Speaker, When It "Swapped" Buchanan for Lincoln—Guiding Hand Now Needed.

NEW YORK, Nov. 3.—Colonel Theodore Roosevelt criticized President Wilson in emphatic words tonight in an address at Cooper Union, delivered at the request of a campaign organization of business men who oppose the re-election of Mr. Wilson. Taking as his subject, "Our Nation's Crisis," Colonel Roosevelt said that a world cataclysm has overwhelmed civilization and that "the times have needed a Washington or a Lincoln, but unfortunately we have been granted only another Buchanan."

WASHINGTON'S OWN WORDS QUOTED

Colonel Roosevelt then read the statement from Washington's letter to the Army's suffering at, without sufficient clothes or blankets or shoes, the men marched with bleeding feet through snow, submitting without a murmur. "This is what Washington said," commented Colonel Roosevelt. "Does Mr. Wilson think that these men of Valley Forge were not patriots because they were starving?" Mr. Baker and Mr. Daniels have done evil to this country only because they stood where their master, Mr. Wilson, placed them. I call your attention to their statements not only because they are foul slanders on everything that is good in human nature and on every American worth calling an American, but

near future," the nominee told an audience at Newburgh, "because there are quite a number of things that we must carefully consider." Among the chief of these Mr. Hughes ranked commercial competition after the war, with European nations, "not at all wanted by war, but disciplined, organized as they have been before." The Underwood tariff, Mr. Hughes said, "would not meet the situation, as a measure of protection to American industry."

BETTER ODDS AWAITED

DEMOCRATS NOT WILLING TO RISK SEVEN AGAINST TEN. Ten Thousand Dollars Offered Even That Hughes Will Carry 50 Counties in New York State. NEW YORK, Nov. 3.—(Special)—Much money was wagered today in Wall street at odds ranging from 10 to 7 and 10 to 7 1/2 that Hughes will defeat Wilson. There was much new Hughes money coming into the street, and little Wilson money reported offering, the Administration supporters being of the belief that they will be able to get better odds Saturday or Monday. At noon odds were quoted by several commissionaires at 10 to 7 and 10 to 7 1/2. Ruling prices late today were quoted at 10 to 6 asked and 10 to 7 offered. One offer was made of \$10,000 at even money that Hughes will defeat Wilson in 50 counties of New York State, or that Wilson does not carry 10 counties. A bet of \$25,000 to \$30,000 was offered that Wilson will not carry New York City by 110,000. Another bet of \$10,000 even was offered that Wilson will not carry New York City by 100,000. Odds of 10 to 12 were quoted that Wilson will not carry New York City by 90,000, and 10 to 15 was offered that the President will not carry New York City by 80,000; also an offer of \$10,000 to \$25,000 that he will not carry the city by 70,000 plurality. Whitman continues the favorite, at odds of 2 1/2 to 3 1/2 to 1. German Census to Be Taken.
