Democrats Declare They Will Carry State by 10,000, Basing Claims on "Silent Vote" -- Re-election of Representatives Indicated.

(Continued From First Page.) good margin, because of the conceded state, must carry Multnomah County by

a big majority.
This has been recognized by both sides in the campaigning, for the heavy work has been done in this county. Both sides have sent some of their strongest speakers to Oregon, and, with few exceptions, they have limited their paign activities to Multnomah

For the Republicans, in addition to the two nominees themselves, such men as ex-Senator Albert J. Beveridge, Gifford Pinchot, H. D. Estabrook, Senator Norris, of Nebraska, and ex-Senator Theodore Burton, of Ohio, have made campaign addresses in Oregon, the latter having spoken outside of Portland.

Noted Democrats Visit.

The Democrats have been particularly ective, with such speakers as ex-Senator Charles A. Towne, Judge Albert D. Nor-toni, Secretary of Labor Wilson and this Bainbridge Colby, in Portland, and Senator Gore outside of Portland.

Oregon's two Democratic United States Senators, George E. Chamber-Iain and Harry Lane, also have been called home to assist in the campaignting in addition to assist in the campaignting in a difficulty of a call to have hidden in this home.

a certainty in the Hughes column.

In a pre-election statement last night Judge Charles L. McNary, of Salem, chairman of the Republican State Central Committee, claims the state for Hughes by at least 25,000 votes.

"Cônfidence that Governor Charles Evans Hughes and the entire Republican ticket will be successful in Orespon was never so strong as at this class." gon was never so strong as at this clos

hour of the campaign," said Judge "Advices have been received at Republican state headquarters from every county in the state that harmony pre-valls and that the small defections in-

cident to every campaign will be off-set by Democratic accessions. "Harmony has obtained in the organization work throughout the state, and unless all political signs prove false a Republican plurality of 25,000 in Oregon is inevitable."

Democratic Claim Is 10,000.

Judge Samuel White, chairman of the Democratic State Central Committee, on the other hand, claims the state for Wilson by 10,000. Said Judge White: "I think the state will go for Woodrow Wilson by at least 10,000, and maybe 20,000. I claim Multnomah County unquestionably by a substantial majority. Conditions which prevail in Multnomah County are no different than those which prevail in every other night at the Elks' Club. A direct wire

Prohibition Is Again Issue. Oregon is one of eight states that will vote today on state-wide prohibition, the others being Michigan, Missouri, Calfornia, Montana, Nebraska and South Dakota. The territory of Alaska is also voting on prohibition.

In Montana, the vote is on a prohibition law. In the other states it is on a prohibition amendment to the respective state constitutions. Likely, tion, the others being Michigan, Missouri. Calfornia, Montana, Nebraska and South Dakota. The territory of Alaska is also voting on prohibition. In Montana, the vote is on a prohibition law. In the other states it is on a prohibition law. In the other states it is on a prohibition amendment to the respective state constitutions. Idabo already has state-wide prohibition of the "bone dry" brand, but it is prohibition by legislative enactment and not by constitutional amendment. A prohibition amendment to the state con-stitution is now on the ballot.

The Oregon prohibition amendment is an amendment to the present prohibition amendment, that would prohibit the importation of any liquor into the state, each family at present being per-mitted to import two quarts of spiritu-ous liquor or 24 quarts of beer in any 28 days.

"Brewers' Amendment" Doomed. There is also on the ballot the so called "brewers' amendment" to permit the manufacture and sale in Oregon of beer containing 4 per cent of alcohol. This measure will unquestionably be deteated by a big vote. There is more doubt about the so-called "bone dry" prohibitory amendment.

R. P. Hutton, superintendent of the Oregon Anti-Saloon League, in a statement yesterday predicted that the brewers' amendment would be swamped by a majority of 48,000 votes, and that the first time today.

the "bone dry" prohibition amendment would carry by 8000 to 15,000 majority. "Reports from every county received at Anti-Saloon League headquarters," said Mr. Hutton, "presage a majority of 61,050 against the brewers' amend-

ment will carry 24 counties, lose in six and be virtually even in five others. I estimate that Multnoman County will give a majority of 10,000 votes against the bone dry amendment, Clatsop about 500 against, Curry 200 against, Gilliam 100 against, Lincoln 500 against and Polk 200 against with results aven in olk 200 against, with results even in clumbia, Josephine, Wasco, Washing-on and Yamhill.
"The other 24 countles, however, I

that will wipe out this negative vote and carry the amendment by \$000 to Mexican Refuges at El Paso

Still another state now having prosilit another state now having pro-hibition which will vote on a measure similar to the Oregon "brewers' amend-ment" is Washington. Measure 24 on the Washington ballot is practically the same as the Oregon brewers' amendment. A measure is also on the Wash-ington ballot, No. 18, to permit hotels to dispense liquor under certain re-
