11 ON DIRECTORATE

State-Wide Auto Association Launched by Election.

MERGER NOW IS PROPOSED

Work for Better Roads and Marking of Routes Best Can Be Carried on as Unit of Portland Club, Believe Most Members.

By the election of a board of 11 directors, the charter members of the Oregon Statewide Auto Association formally launched the official life of their new organization during the course of a meeting held in the women's dining-room of the Chamber of Commerce in the Oregon building yesterday.

The following directors were chosen to govern the body: Julius L. Meier, W. B. Doan, John E. Cronan, Howard M. Covey, J. C. Olds, Phil Metschan, Jr., C. C. Overmire, W. J. Clemens, Emery Olmstead, A. J. Blitz and W. C. Bristol.

Backed by its group of 50 life members the association is planning to launch an active campaign for members. Judging from comments at yesterday's meeting, however, there is a possibility that the new association may be merged directly or indirectly with the Portland Automobile Club.

Merger Is Advocated.

Several members yesterday expressed the belief that the new association would probably have an ill effect on the prosperity of the Portland Automobile Club and on that score they urged that the two bodies be merged or that the two different directorates meet in order that they may arrive at some understanding whereby the activities of one association will not overlap those of the other.

H. B. Fleming, who came from California to organize the new association, explained the purposes of the organization and told what had been accomplished along the same lines in California. The principal objects of the association will be the marking of roads with definite guide signs of standard type and the issuances of strip maps.

Under the laws of Oregon the respective county officials are required to sign-post the roads within their jurisdiction on penalty of forfeiting their salaries. There was a well-defined sentiment at yesterday's meeting to organize a campaign to compel these officials to abide by the law.

Sign Arrangements Made.

C. C. Overmire, president of the Portland Automobile Club, explained that Roadmaster Yeon already has made arrangements to have metal signs erected on all crossroads in Multnomah County.

C. T. Haas suggested that the entire problem might be solved through the Legislature. Others present, particularly Edgar Frank, shared this belief. Mr. Haas said that it was a foregone conclusion that the automobile tax will be raised materially, perhaps doubled, next year, and he contended that part of the increase in the tax could be set aside to erect standard road signs throughout the state.

After discussing the broad question pro and con the members present decided that there was plenty of work for the proposed association to do and on motion of Edward Ehrman permanent organization was effected and the directors chosen. The directors are to meet at luncheon today to elect officers from among the directorate and appoint committees to carry forward the various phases of work contemplated.

COLD HITS GRANT COUNTY

Stockmen Amply Supplied With Feed and Cattle in Good Condition.

CANYON CITY, Or., Nov. 16.—(Special.)—Grant County has been in "cold storage" the past week. The thermometer hovered around the zero mark with the result that the water pipes burst, causing plumbers to work overtime.

There is plenty of feed in the county for a normal Winter, and the stock has come off the range in fine condition, so no loss is feared among stockmen.

MORE LIQUOR COMES

Imports Are Heavy Since "Bone Dry" Law Passed.

USERS LAY IN SUPPLIES

Many Are Understood to Be Ordering for Friends—Freight Business About Normal, but Express Trade Increases.

Heavy increase in shipments of liquor into Portland, following the passage of the "bone dry" law, is reported by express and transportation companies handling such shipments. Present indications are, judging from reports, that the record of over 17,000 shipments made into Portland last month will be greatly exceeded this month, and that the unusual volume of liquor shipments will continue until the actual going into effect of the new dry amendment.

Efforts are being made by many to lay in a supply of liquor before the amendment prohibiting the shipment is put into effect. This is considered to be the big reason for the increased shipments. Many who do not care for liquor are understood to be sending for shipments for their friends.

By far the largest volume of shipments is coming from California as being the place from which quickest returns can be secured.

Officials of the Wells-Fargo Express Company said yesterday that shipments of liquor through their concern had greatly increased since the passage of the dry amendment. They said they had no figures available as to the increase, but denied that the volume of shipments had doubled.

The Great Northern Express Company gave out a report that its business in the handling of liquor from California has increased approximately 5 per cent. This increase is in spite of the fact that only one steamer now is being run on the line between Flavel and San Francisco.

The increase is reported to be not so noticeable with lines handling freight business. Apparently the bulk of the purchasers do not wish to wait the time required to have freight shipments delivered.

Silverton Levy Is Four Mills.

SILVERTON, Or., Nov. 16.—(Special.)—The City Council has decided that a tax levy of 4 mills is all that will be required to care for the 1917 expenditures. The people will have a chance to decide whether they wish to add an additional 1 mill levy for the maintenance of a Carnegie library on the date of the budget meeting.

Assault of Parent Charged.

CHEHALIS, Wash., Nov. 16.—(Special.)—C. E. Pruett and Fletcher Barnett were elected constables in Chehalis on the Republican ticket at the recent election. They had no opposition. Justice Westover bound John Deskey over to the Superior Court yesterday on a second-degree assault charge under $500 bonds. Deskey is accused of assulting his father.

Meat Eaters' Backache

Meat lovers, as a class, seem to be much troubled with backache and rheumatic attacks.

Unless you do heavy work and get lots of fresh air and outdoor exercise, it is unwise to eat meat too freely or too often.

Meat is rich in nitrogen, and nitrogen foods generate more uric acid in the body than other foods. Thus more work is thrown upon the kidneys.

Uric acid is irritating to the nerves. It causes backache, headache, dizzy spells, pain in muscles and joints, and urinary disorders. It tends to cause gravel, stone or Bright's disease.

When the kidneys seem out of condition, use Doan's Kidney Pills.

Here's a Portland case:

PORTLAND PEOPLE TESTIFY.

H. C. Beardsley, of Beardsley & Thompson Repair Shop, 1088 East Twenty-fourth street North, says: "A kink caught me in the small of my back and put me in such a condition that I couldn't help myself for awhile. The pain was like an attack of lumbago and couldn't have been more severe if my back had been broken in two. I had trouble in controlling the action of my kidneys, owing to their being so weak. I used Doan's Kidney Pills and was freed from the complaint.

"What makes me so achy?"

DOAN'S KIDNEY PILLS
Sold by all Dealers. Price 50c. Foster-Milburn Co. Props. Buffalo, N.Y.
