

RELIGION IS URGED

Rev. Thomas Jenkins Says Overindulgence Is General.

NEW CONCEPTION DESIRED

Rector of St. David's Declares Mysticism Must Be Admitted, as Pure Intellectualism Will Not Hold Members.

"America is in danger of losing her soul." Such was the assertion made yesterday morning by the Rev. Thomas Jenkins, rector of St. David's Episcopal church when using as a theme, "The Gospel According to You."

"This country thinks that because of its isolation it cannot be embroiled in the European war, yet that isolation will not forever be its safeguard."

"Our religion must be a religion of mysticism. Religion that is purely intellectual fails. The church cannot survive without culture and education, yet it must contain mysticism. The gospel, according to St. John, showed that religion to be most successful must mystify."

"We know what the gospel according to St. Matthew, St. Mark, St. Luke and St. John is because they wrote it down and sealed their convictions with their lives. The gospel according to you is the gospel that is revealed through you in your daily acts."

"We cannot make the church win with an eighteenth century idea of what her duty toward men should be. We cannot win with a puritanical conception of religion to win men's hearts. Our fault today is that of falling below the gospel carriers of the first century, whereas we should be just 19 degrees more advanced."

"We must understand something about the men with whom we deal in order to accomplish our end. We should have, and are now moving to, a larger freedom of action. The church cannot execute its mission with a very little consideration for people."

"We speak of missionary work and are met with cold answers, yet in America there are 60 per cent of the people absolutely unattached to any church. American religion seems to be satisfied with the giving of a dime. She is losing her soul in her prosperity. The exaltation of God is the primary condition of a healthy social order."

Rev. Mr. Jenkins made an earnest appeal for widespread personal service, "for," said he, "the success of the church and of this diocese, must be determined by the gospel you are teaching everywhere."

WAR CAUSE ANALYZED

REED PROFESSOR DECLARES RACIAL HATRED BLAMELESS.

Technical Descriptions Given in Proof of Theory That Disturbance Is of National Kind.

Race hatred is not the cause of the European war—in the opinion of Dr. William F. Ogburn, professor of sociology at Reed College. Dr. Ogburn is of the opinion from his studies of racial types in Europe and their geographic distribution that, if the war is to be interpreted in terms of hatred, national and not racial animosity is to blame for the trouble.

"If the war were being fought out on racial lines," he said, "Northern Germany and Northern France would be united against the southern portions of these countries. In the northern portions of both France and Germany we find the Baltic race. A tall, fair-haired people with blue eyes, blonde complexion and long dolichocephalic heads. In Southern France and Germany we find the Alpine race, a stocky people with dark hair, hazel eyes, round brachycephalic heads and a darker complexion than the Baltic people."

"We hear of the race struggle between Germany and England, but both nations belong to the Baltic racial type. The Oriental Turks are also fighting against Oriental nations in the British and French forces. The Slavic peoples of the Alpine type throughout the Balkan Peninsula are fighting on different sides. If we study the lines of national boundary, we will find that they run longitudinally while the racial lines of Europe run latitudinally. The war is between nations and their conflicting political organizations and cultures rather than between peoples whose racial traits are different."

CANDIDATES ARE CHOSEN

Washougal Is to Hold City Election in December.

WASHOUGAL, Wash., Nov. 19.—(Special.)—At a general caucus of the voters last night candidates for Councilmen and City Treasurer were selected to be voted on at the regular city election in December.

The following were nominated for Councilmen for a two-year term: W. E. Harvey, G. W. Brock, H. Sadovasser, J. Gibbons, Egbert Nagel, and C. H. Christensen; for Treasurer, William Rich and B. E. Carpenter.

Banker Leaves to Seek Health. WASHOUGAL, Wash., Nov. 19.—(Special.)—C. M. Keep, a banker and capitalist of this section, left this week with his family for San Diego, Cal., where he will spend the winter for his health.

NEW PLANT LIKELY

Chevrolet Company Expected to Build Assembling House.

HALF BLOCK UNDER OPTION

Property on Savier Street Being Cleared by Owner and \$100,000 Factory Would Provide Employment for 75 to 100.

The half block on Savier street between Twenty-fifth and Twenty-sixth streets will likely be the home of a \$100,000 assembling plant and factory for the Chevrolet Motor Company, of Michigan. Preliminary instructions from the Chevrolet Company have been received in Portland, making practically certain that the Title & Trust Company for \$22,000. The buildings on the property, has optioned it to that company. Last week when Mr. Garland began tearing down 15 small buildings on the property preparatory to some apparent construction work, he declined to announce the principal, which has until December 15 to take up the option.

Since that time, however, the Chevrolet Company has telegraphed and written instructions to Portland which practically is definite information that the Chevrolet Company is the holder of the option and will take it up.

The plant projected by the Chevrolet Company would be similar to the Ford plant on the East Side and would employ from 75 to 100 men.

The man who tills was stamped as the only true gentleman by Dr. Joshua Stansfield, pastor of the First Methodist Episcopal Church, in his address delivered last night. True success he declared to be the taking of that which comes and using it well, and he emphasized the impossibility of winning any kind of success without work.

On the other hand Dr. Stansfield said that the secret of most failures is that people have a wrong view of God and a wrong estimate of themselves. "In God's world the only true gentleman is a working man," he said. "Any one else is to be pitied, call him what you may—either a hobo or an aristocrat."

Nuxated Iron to Make New Age of Beautiful Women and Vigorous Iron Men

Say Physicians—Quickly Puts Roses Into the Cheeks of Women and Most Astonishing Youthful Power Into the Veins of Men—It Often Increases the Strength and Endurance of Delicate, Nervous, "Run-Down" Folks 200 Per Cent. in Two Weeks' Time.

A WONDERFUL DISCOVERY WHICH PROMISES TO MARK A NEW ERA IN MEDICAL SCIENCE.

NEW YORK, N. Y.—Since the remarkable discovery of organic iron, Nuxated Iron has taken the country by storm. It is conservatively estimated that over five million persons daily take it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. So much so that doctors previously skeptical have now become converts of far more beautiful, rosy checked women and vigorous iron men.

Dr. King, a New York physician and author, when interviewed on some subject, said: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale. The flesh flabby. The muscles lack tone, the brain fags and the memory fails and often they become weak, when it is not, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

In America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, dextrin, etc., are the staple foods. These are found. Refining processes have removed the iron of Mother Earth from these iron-rich foods. The iron of these methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss.

Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. Sauer, who has studied abroad in Great Europe, and is a specialist in iron, said: "As I have said a hundred times over, organic iron is the greatest of all iron tonics. It is the only iron tonic that is absorbed into the blood. It is the only iron tonic that is found. Refining processes have removed the iron of Mother Earth from these iron-rich foods. The iron of these methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss."
