BENTON MACKAYE SEEKS SUBSTI-

An interesting phase of Government service is represented by Benton Mackaye, who arrived in the city Washington, D. C., yesterday. Mr. Mackaye, who is the brother of Percy Mackaye, one of the country's foremost playwrights, has a particular problem which he is interested in and which he is working on as one of the important tasks involved in his occupation of

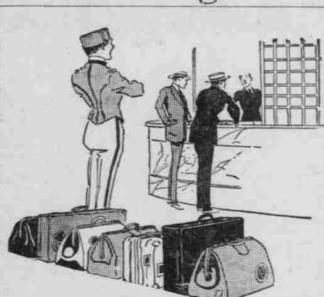

forest examiner.

The development of community settlements in Government forests is the ultimate object which Mr. Mackaye has in mind. The settlement which he conceives is to be a substitute for the "hobo" camp, which at present offers one of the few places of refuge to itinerant lumber jacks and other dwellers in the forest. The Government plans to back Mr. Mackaye in his plan, and steps are now being taken for gathering data which will aid in the first experiments.

In the regular discharge of his duties. Mr. Mackaye visits many of the forest ultimate object which Mr. Mackaye has
