RUMANS STILL PURSUED

Terrific Battles Fought on Mountain Tops, Resulting in Teutons Reconquering Wide Terrain Lost to Foes Recently.

BERLIN, Nov. 24.—(By wireless to Sayville, N. Y.)—While the advance of the German and Austro-Hungarian armies in Western Wallachia shows their pushing force is unbroken, says the Overseas News Agency, the Teutonic allies have offensive in the Northern Carpathians of Moldavia.

Combat over the last piece of Hungarian soil held by the Russians near Tulgheas Pass developed into an extensive mountain battle. ROUMANIANS ON OFFENSIVE

All Bridges Across Danube Have Been Destroyed.

BUCHAREST, via London, Nov. 24.—Roumanian forces have assumed the offensive in the Province of Dobruja, says the official statement issued today by the Roumanian War Department.

LONDON, Nov. 24.—A Rome dispatch to the Wireless Press says all the bridges across the Danube have been destroyed.

AGREEMENT IS SIGNED

(Continued From First Page.) and see these people suffer as they do because of the chaos that has come from civil war.

"This country is pacific but is not pacifistic. It will fight willingly when it can fight for something worth while and when the fighting is not impossible, to make the duty unnecessary if this may be. And so, through many weeks, we have striven to get upon a basis that will prepare the way for a new Mexico—one in which the Mexicans and Americans can live with some assurance of safety. But this is a long way off yet."

"We have jumped only two or three of the hurdles. We can see the way out, but it is not always possible to persuade other nations to follow the right way. The proposed reduction of the new export taxes on ores and bullion and the postponement of the duties as to forfeiture of mineral lands as well as the agreement reached with reference to withdrawal of troops and border control, are all indications of the growing desire of the industrialist Government to meet those standards which the United States and countries of Europe have a right to expect."

One of the official copies of the protocol was taken by Albert J. Paul, of the Mexican commission, who left here tonight for New York by way of Washington Monday for Mexico to submit it to General Venustiano Carranza for his approval. The other copy will be delivered to the American Government by Secretary of the Interior Lane, chairman of the American commission, who left here late today for Washington.

The protocol is ratified by two governments the commission will reconvene December 8 to resume the discussion of other questions affecting the protection of life and property of Americans and other foreigners in Mexico. If ratification by either government is withheld, the work of the conference will be declared at an end. Where the adjourned sessions of the commission will be held was not determined when the conference was finished. The question was left to Secretary of State Lansing and Ambassador designated at Washington. Following is a paraphrase of the agreement to which the last signature was affixed today: "First, The American troops now in

Chihuahua shall be withdrawn within 40 days from the approval of the protocol by the respective governments, provided that within that time the conditions in that part of Mexico have not become such as to endanger the American border. In such event the time shall be extended.

Each to Maintain Own Patrol.

"Second, The American Army shall patrol the American side of the border and the Mexican army the Mexican side, but this shall not preclude cooperation between the two forces to preserve peace upon the border.

"Third, It shall be left to the commanding officers of the armies on the border of both nations to enter into such arrangements for co-operating in operations against bandits whenever it is possible.

"Fourth, The American Government reserves the right to pursue into Mexico marauders coming from Mexico into the United States so long as conditions in Northern Mexico are in their present abnormal state."

The right of the American Government in pursuit of bandits was not incorporated in the protocol, but was made the subject of a supplementary memorandum. The Mexicans had contended earnestly against signing any agreement in which they appeared to sanction what they termed the violation of their National territory. It was the agreement of the Americans finally to limit themselves with stating the attitude of the United States in a separate memorandum that induced the Mexicans to sign the agreement.

Americans Oppose Recession.

It became known that the first request of the Mexicans for a recession was submitted to General Carranza all the facts in the case and to obtain from the American Government their agreement to submit to General Carranza all the facts in the case and to obtain from the American Government their agreement to submit to General Carranza all the facts in the case.

The clause providing for the withdrawal of the American forces provides that should the bandits in Chihuahua appear near the border in such force as to prove a menace, the American troops acting independently or in conjunction with the Mexican forces may disperse them. In such case the time for their withdrawal shall be extended to such time as made necessary by the developments.

Mexicans to Move Forward.

The Mexican commissioners agreed that, as the American troops are withdrawn, Mexican troops shall be moved forward to occupy the territory relinquished. The disposition of the Mexican troops shall be left to the Mexican command. General Trevino is to have charge of the plan of withdrawal and the right to use the railroad to Juarez for the transportation of his troops and the movement of his supplies if he desires.

Papers Said to Have Revealed Plan to Assassinate Chief of Garrison.

FIELD HEADQUARTERS, AMERICAN PUNITIVE EXPEDITION, Mex., Nov. 23, via radio to Columbus, N. M., Nov. 23.—Three women were executed Wednesday morning at El Valle, for alleged plotting against the life of General Gonzalez Cuellar, chief of the Carranza garrison there. Margarita Acosta is supposed to have been in Villa's employ as an investigator. She is said to have revealed a plot which Carranza officers say listed Colonel Diaz and even the investigating officer himself as participants in the plot.

The woman was called before Colonel Diaz and General Trevino and was found on her, it is said, indicated this. She also is said by the Carranza officers to have carried papers signed by General Trevino in connection with the plot.

BERLIN, Nov. 24.—(By wireless to the Associated Press, via Sayville, N. Y.)—The War Office announced tonight that the army groups of Field Marshal von Hindenburg and General Ludendorff are moving toward the Danube at several places. The exercises were in charge of H. J. Snively, Parade of stock-show winners, Shetland ponies' drills and exhibitions of fancy driving and riding were given.

Most of the exhibitors will go from here to Lewiston and from there to the Portland show.

Sentiment appeared in favor of removal to some larger city, but at the annual banquet last night in the Commercial Hotel, Lewiston, the proposition was defeated.

It is certain, however, the decision will depend not only on the financial side of the proposition, but also on the question of adequate attendance which is considered also.

VILLA'S DEFEATS WITH HEAVY LOSSES

Desperate Attempt to Take Strategic Position Before Chihuahua Falls.

COLUMNS ARE CUT DOWN

Defenders Send Force of Cavalry to Intercept Fleeing Bandits Before They Reach Trains on Which They Came.

JUAZRES, Mexico, Nov. 24.—Francisco Villa and his troops are camped tonight outside of Chihuahua City, after returning this afternoon to renew an attack which lasted until 9 o'clock tonight. This announcement was made tonight by Carranza officials here.

It is said that Villa's apparent retreat early this afternoon was a military ruse. After General Osuna pursued a column for some distance, another large body of bandits appeared in another quarter and again attacked.

Osuna, it is said, returned with his forces to the city.

Telegraphic communication between Juarez and Chihuahua City remained open tonight.

CHIHUAHUA CITY, Mex., via El Paso Junction, Nov. 24.—Another attack by the Villa bandits from the east was begun at 8 o'clock today and was repulsed, as were the previous attacks by the bandits, with heavy losses to the attacking forces.

The machine guns again did deadly execution in the ranks of the bandits, who crept up from the east under cover of a deep arroyo, or dry wash. When they broke and ran in disorder the heavy artillery took up the brunt of the fighting, as the machine guns were outranged.

General Trevino's cavalry, pursued the bandits and completed their rout. The Villa forces fled toward the northwest and now are believed to be out of touch with the remaining Villa commands.

Governor Trevino Wounded.

Among the wounded today was Governor Francisco Trevino, brother of General Trevino, who was shot in the hand. Two officers of General Trevino's general staff were killed.

The body of General Julio Acosta, one of Villa's commanders, was found to the west of the city, as was the body of Andres Sada, Villa's secretary.

General Acosta was killed in action by Colonel Cadera, of the Carranza cavalry column, in the cavalry engagement yesterday.

General Trevino, though wounded yesterday, was again in command today and made an inspection of the fortifications with his staff.

Attempt to Storm Hill Fails.

An effort was made by the Villistas early this morning to storm Santa Rosa Hill and capture the artillery. General Gonzalez Cuellar's infantry remained quiet and allowed the bandits to approach within easy rifle range before opening fire. When the advancing men were close, General Cuellar's men poured a murderous fire into the first ranks of the Villistas.

Red Cross Aiding Wounded.

The wounded are being cared up and the dead buried by volunteer and military Red Cross squads. General Trevino is now making an effort to ascertain the number of the Villa attack and expects to have a definite estimate of the losses in a short while.

Oroona, but that town, as well as Turu-Severin, has been occupied by the Teutonic troops.

Violent fighting has been renewed in Dobruja. Bucharest says the attempt by the Germans to cross the Danub at Zimniza, 70 miles southwest of Bucharest, failed. Fighting has been reported in the region of Silistria, and it may be that the German crossings of the river were made between the Tchernavoda and Glurevo.

The Russians and Romanians have taken the offensive in Dobruja. The Romanians advanced on the front and occupied five towns 15 miles north of the railway line. The Russians progressed to 12 miles north of the railway line and made a Russian offensive in Dobruja was thrown back.

Serbian troops have occupied Rapesch, east of Monastir. North of Sobudol the Serbians put the Germans to flight.

There has been no important infantry activity in France. Artillery bombardments by both sides north and south of the Somme have increased.

In the eastern and Austro-Italian theaters there has been little activity. In Armenia, Constantinople says, the light troops have advanced their right wing 20 miles against the Russians.
