and I told them my story. I told the same story in every hamlet and store and to every shepherd of the district.

Advertising Need Felt.
"I might tell you young business men that I started out also believing firmly in judicious advertising and I procured a small car and a woman chauffeur and it was soon noised over the two counties of Hood River and Wasco that my chauffeur was running the car and I was running for office. "Some of the men said that the women ought to stay in the home, 'where they belong.' True, and some of them are, or rather the majority of them are, but some others have another vision. This Representative is a wife and mother of two boys and I'm still doing housework and will continue to do it. Can you beat that?"

"We women are interested in legisla-
