SOUTH TAKES DATS

Market Favors Shipment to California.

HOLDING STEADY WHEAT

Buying in Interior Is Not as Lively as at Close of Last Week-Eastern Demand Continues, but Car Shortage Interferes.

The firmness of the California cats mar ket would indicate that a large business could be done in this cereal here on the basis of about \$37 if transportation fabasis of about \$57 it transportation cilities were better. A fair-sized shipment. the Merchants' Exchange bids were firmer than Saturday at \$35.75 and \$36.

The country wheat markets were not as lively as in the closing days of last week, but, nevertheless, the market was very steady in spite of the break at Chicago, due to the stoppage of export buying.

There were inquiries from the East, but as the car situation is no better than it was, they did not lead to much business.

ANIONS—Oregon buying prices, \$2.00 per sack, country points.

GREEN FRUITS—Apples, new, 50c@1.50; per box; pears, \$1@1.50; grapes, lugs, \$1.50; cashbas, 3c per pound; cranberries, \$12@1.50; per barrel. Bids at the Exchange were irregular, ranging from 1 cent lower to 1 cent higher than Saturday.

Foreign Situation.

LIQUIDATION IS

Pressure Chiefly Affects Coppers War Shares, Marines and Investment Marines-Steel Also Suffers With Other Leaders.

NEW YORK, Dec. 11,-Trading in today's narket was governed sargely by the c of foreign affairs and a late rise in c money to 10 per cent, the professional er ment utilizing these developments to depr the general list. In point of fact the 10 p

suit of the political conditions in England and France, and apprehension was height-ened by further declines in Anglo-French is and City of Paris 6s to new low records cidentally. Austrian exchange registered w minimum with further unsettlement

new minimum with further unsettlement in marks.

Early prices were mostly above last week's final quotations, the favorable bank statement and the United States Steel November tonnage being viewed as bullish factors. The list reversed its course before the end of the first hour, however, with lowest prices toward the feverish close.

Leading shares showed net declines of 1 to 3 points, with a loss of 18 points for Bethlehem Steel on a single transaction.

Pressure was most prenounced in the copper group, equipments and munitions, shipping shares and rails, investment issues in the latter group yielding 1 to 2 points on moderate offerings. United States Steel held steady for a time, but fell more than a point on the more extensive selling of the later dealings.

Among the few noteworthy exceptions to Among the few noteworthy exceptions to the lower trend were Ajax Rubber, which rose over 5 points to the new high record of S9%, and Central Leather, the latter, however, forfeiting much of its 3% advance. Ohio Gas was the only utility to display marked strength at a gross gain of 5 points. Total sales of stocks, 1,025,000 shares. Sentimentally at least, today's market was affected by the further break in commodities, especially cotton, and advices from the West, where the agitation resulting from increased cost of necessaries, has caused speculative interests to modify their commit-

COTTON CROP ESTIMATE IS REDUCED Government Reports Production This Year

Government Reports Production This Year at 11,511,000 Bales.

WASHINGTON. Dec. II.—Further reduction in the estimated size of this year's cotton crop was recorded today in the Department of Agriculture's final report putting the production at 11,511,000 equivalent 500-pound bales, exclusive of linters. That is 126,000 bales less than forecast after the last condition report in October. Indications at the beginning of the growing reason were that a crop of approximately 14,286,000 bales would be produced, but storms and insects wrought have with the growing plants as the season progressed. The acrease planted was the fourth largest on record.

The average price per pound paid to produces of cotton on December 1 was 19,6 certs. At that price the season's crop is worth \$1,079,30,516, exclusive of the value of linter cotton and seeds.

List year 11,191,820 equivalent 500-pound bales were grown, and during the five years, 11,100 to 1914, the average was 14,259,201 bales. The record crop was grown in 1914.

When 16,134,930 bales were produced.

WINTER WHEAT IS BELOW NORMAL Lighter Crop Expected in Eastern Washing-ton and Northern Idaho.

ton and Northern Idaho.

LEWISTON, Ida., Dec. II.—(Special.)—A
dry Fall and an early Winter have resulted
in a smaller acreage of Winter plowing than
before known in the Eastern Washington and
Northern Idaho grain beit. This is the report received by the grain companies of this
district, and there is general apprehension
that the crop acreage next year will be
materially below the normal.
It is explained this condition will not only
affect the 1917 grain crop, but the large
amount of plowing and seeding next Spring
necessary to bring the crop acreage to normal will mean the Summer fallow plowing
cannot be given attention until very late in
the season and this may reduce the acreage
of corn and beans.
