LIQUOR TRADE STIRRED
FRENCH SALOON KEEPERS SAY NATION FACES RUIN.
Source of Wealth Declared Menaced. Drys Contend Profit Is Greater in Light Wines and Beer.

PARIS, Dec. 15.—The decision of the government to prohibit the consumption during the remainder of the war of alcoholic beverages, with the exception of wines and beers, has caused consternation in the liquor trade, although it is but the logical culmination of a series of restrictive measures which have been taken since the outbreak of hostilities.

M. Grizard, president of the Saloon Keepers' Federation, and M. Delross, president of the Provision Dealers' Association, declare the new measure will

bring ruin to 350,000 saloonkeepers now mobilized and fighting for their country, and that it will dry up one of the sources of national wealth. On the other side, it is pointed out that, aside from consideration of the health of the people, alcohol is needed urgently in the manufacture of munitions, for which purpose increasing quantities are being imported. The amount expended for this purpose in the present year is about 130,000,000 francs, compared with 30,000,000 francs last year.

M. Riemann, secretary of the Anti-Alcohol League, says the prohibition measure will not injure the saloon keepers, but, on the other hand, will benefit them, as they would get small profit with the doubled taxes on spirits, while the sale of wine, beer, cider, tea and coffee will yield handsome returns. The distillers will lose nothing, M. Riemann contends, as their whole output will be taken for industrial purposes.

To catch hair as it is being cut by a barber, an inventor has patented a circular piece of fabric with the edges turned up to be fastened around a man's neck.

SUIT MAY BE SENSATION
C. A. BEAN ASKS \$60,000 FROM MAN WHO WON WIFE AWAY.

CLARE S. WILLIAMS, DEFENDANT, NOW IS CORVALLIS STUDENT, HUSBAND OF WOMAN, AND HAS WEALTH.

MONROE, Or., Dec. 14.—(Special.)—The case of Clarence A. Bean, of Hoquiam, Wash., against Claire S. Williams, of Corvallis, for \$60,000 for alienation of Bean's wife's affections, which has been transferred from Multnomah County to the Benton County Circuit Court for trial, promises to develop into one of the most sensational suits ever tried in this county.

Mr. Williams until recently conducted the Central Hotel at Philomath, is now a student at the Oregon Agricultural College, and has a one-fourth interest in the reputed \$1,000,000 estate of his grandfather, the late Richard Williams, of Portland, which will pass to him when he becomes 30 years of age. He is now 24.

The complaint alleges that Mr. Bean married Hilda Lind, who is at present Mrs. Williams, in November, 1912, and that their married life was happy. They had one child, Virginia Grace Bean, who is now three years old, and in the custody of her father. On December 27, 1914, Bean took Williams to his home as a friend and introduced him to his wife.

The complaint goes on to state that Williams afterwards commenced to make love to Mrs. Bean, and that by statements of his wealth and that he could and would make her happy, he induced her to leave Bean and their child and join him in Portland. Mrs. Bean got a divorce from her husband in November, 1915, and shortly after married Williams.

The first successful attempt to obtain the breeding of mussels under control has been made at the Fairport (In.) station of the United States Bureau of Fisheries, following many trials by various methods.

WOMEN ARE 'UNIONIZED'
INDUSTRIAL WORKERS BUSY IN SPOKANE UNDER COVER.

Hired Girls and Laundry Employees Particularly Sought and 100 Are Reported as Listed.

SPOKANE, Wash., Dec. 15.—(Special.)—Agents of the Industrial Workers of the World, operating under a shroud of secrecy, have been organizing workingwomen, particularly domestic and laundry workers, in Spokane for more than a month. The union of female toilers has reached a membership of nearly 100, according to John Doran, National organizer of the I. W. W., now in Spokane.

The agents for the new organization are women, according to Doran, and have spent much time visiting Spokane's "hired girls" and other workers,

encouraging them to subscribe to the union, pointing out to them the strength of organization and the benefits to employees. The system, as worked out in Duluth and in Denver, provides for regular meetings, constitution and by-laws, paid secretaries, the keeping of lists of homes, hotels, restaurants and office buildings and record of the kind of treatment dealt out by employers, together with the wages paid.

BRIDE WON IN EAST
HOOD RIVER ORCHARDIST WEDS COLLEGE SWEETHEART.

HOOD RIVER, Or., Dec. 15.—(Special.)—News has just been received here of the wedding at Cincinnati, O., of Asa B. Cutler, a prominent East Side orchardist, and Miss Ruth Hyndman. The wedding is the result of a college friendship, when Mr. and Mrs. Cutler were students at the University of Illinois.

Mr. and Mrs. Cutler will spend two months on honeymoon trip, visiting relatives of the bridegroom at Rock-

ford, Ill. his old home, and traveling through Southern California. They will visit Mr. Cutler's parents, Mr. and Mrs. A. E. Cutler, at Pasadena.

The young couple will be at home on their East Side ranch about February 1.

STOPS STUBBORN COUGHS
The simplest and best way to stop coughs is to take Foley's Honey and Tar. You get the curative influence of the pine balsam together with the mollifying effect of the honey and other healing ingredients. It leaves a soothing coating on the inflamed tickling throat, raises phlegm easily and puts a quick end to hard, wearing coughs. R. F. Hall, M.D., Va., writes: "One bottle of Foley's Honey and Tar stopped a troublesome bronchial cough and irritation that had bothered me for fifteen years." Your dealer sells it. Try it.
