JITNEY MEN PERSIST

Franchise to Operate Along Carlines Again Asked.

COUNCIL TAKES NO ACTION

Union Proposes to Draft Its Own Regulating Ordinance and Go Before People at Next City Election.

The jitney drivers' union still wants a franchise to operate jitneys over the present routes along streetcar lines to the close-in limits. In a communication submitted to the Council yesterday A. A. Thielke, president of the union, gives the answer of the Council to the proposition made by the Council that the jitneys take a franchise on routes separated at least in part from the street railway lines. "The union's representative is directed to seek further negotiations with the Council," reads the communication, "to the end that franchise be secured, if that is possible, and that if the Council is not disposed to grant franchise upon terms the union can accept, then its representative is directed to earnestly petition the Council to submit the question of what are appropriate regulations to the people at the oncoming city election for their determination." The request is made that in the meantime the jitneys be allowed to operate as at present. "The union's representative," continues the communication, "is directed to say to the Council that if agreement upon franchise terms is impossible the union will require its attorney to draft an ordinance proposing regulation of the motor bus business that will solve the difficulties in hand, and the union will go before the people at the oncoming city election and seek the passage of such ordinance. It is frankly conceded that the meeting of all the terms in the terms expressed in the demands of the Council is impossible." The Council took no action on the communication. A special meeting was set for this afternoon at 3 o'clock, at which time the application of Stephen Carver for a general franchise for jitney service throughout the city in full accord with the regulation demands of the Council will be considered. The Council yesterday approved and

James Russell Becomes Vice-President at Minneapolis.

H. C. LEONARD IS AT REST

Ashes of Portland Pioneer Will Be Sent to Relatives in East.

Funeral services for H. C. Leonard, pioneer of Portland development, who died on Saturday last, were conducted yesterday afternoon at 2:30 from the Holman Chapel. The services were jointly conducted by Bishop Walter T. Sumner, of the Episcopal Diocese of Oregon, and Rev. Thomas Jenkins, of St. David's Episcopal Church. Concluding services were at the Portland Crematorium. The ashes will be returned to relatives at Oswego, N. Y. Mr. Leonard, who was the last surviving member of the pioneer firm of Leonard & Green, owners of the first waterworks system and first gas plant in Portland, was almost 84 years of age. Piano Is Smashed to Bits. FOREST GROVE, Or., Dec. 20.—(Special.)—While students were removing a piano from the high school building Tuesday the boys lost control of the fine instrument and it crashed to the cement sidewalk and was literally smashed into kindling wood. The ivory and ebony piano keys were scattered promiscuously along the walk. The piano was being removed to a local theater, where an entertainment was to be given.

REED FACULTY LAUDS MOVE

Protest Against Deportation of Belgians Approved in Message.

Ten Mile Host to Teachers.

ROSEBURG, Or., Dec. 20.—(Special.)—A local teachers' institute was held at Ten Mile Saturday, with a big crowd in attendance. Among those who spoke during the day were O. C. Brown, County School Superintendent; F. B. Hamlin, Superintendent of the Roseburg schools; Ray Henderson, of Looking Glass; George W. Murphy, School Supervisor; H. C. Seymour, state lead-

BENSON SCHOOL GETS CUP

School of Commerce Gives Up Trophy Won by Lot.

By an unanimous vote Tuesday the High School of Commerce, which received the silver cup in the recent Food Show attendance contest, gave the cup to the Benson Polytechnic School. Last Friday representatives from Franklin, Washington, Commerce, Jefferson and Benson schools met to award the cup. It transpired that the High School of Commerce was the only

school which knew to a certainty how many students it had present at the contest. Benson claimed the largest percentage of students, but as it had no official count, the other representatives refused to concede them the cup. The meeting was deadlocked, so it was decided to draw for the cup. Commerce won. Tuesday the students decided that it did not want a cup which it had not really won. On a motion of one of the students the cup was unanimously voted to Benson.

REED FACULTY LAUDS MOVE

Gratification at the attitude of the American Government in protesting the deportation of Belgian men by the German government, is expressed in a message signed by all of the members of the Reed College faculty, which has been forwarded to President Wilson. Similar memorials have been drafted and sent to the President from various institutions of learning in the United States, the idea having originated at Harvard and the Massachusetts Institute of Technology. The memorial also petitions that the representations of the United States to Germany be defined in terms of an official protest and that the Government use every effort to obtain the co-operation of other neutrals in a similar protest.
