Being unable to pay the fine, as he had only 60 cents when arrested, Dolorouki went to fall. A pretty Jefferson High School girl

was the cause of Dolorouki's downfall, according to testimony in Municipal Court. CALDWELL, Idaho, Jan. 9.—(Special.)—After an all-day debate stock-holders of the Boise Water-Users' Association voted an assessment of 10 cents an acre to employ counsel to carry to Congress the fight now being waged by the settlers for a reduction of the water cost. The assessment will raise \$10,000.

The settlers declare that the original estimate of the cost of the project was placed at \$26 an acre by Government engineers. The Reclamation Service recently announced that the cost would be \$30 an acre, which would be reduced to \$70 providing certain conditions, including the formation of an irrigation district and the sale of surplus water, are met.
