A New York broker writes of the pros-

New Low Records for Russian and Italian Remittances.

GERMAN RAID IS FACTOR

Stock Market Is Irregular and Under Restraint-Motor Issues Are Strengthened by Pool Manipulation-Steel Is Lower.

NEW YORK, Jan. 17.—New low records for Russian and Italian exchange, which registered the greatest discounts since the outbreak of the war, the reported activities of German raiders in South Amesican waters, causing marine insurance to mount to prohibitive rates, and the conservative toe of seed trade authorities were among the influences which made for restraint in today's irregular market.

The acute weakness of remittances to Petrograd and Rome, rubies being quoted at 22.05/and lires at 6.98, was attributed by dealers in foreign exchange to the inability or refusal of those countries to meet the requirements of our bankers.

United States Steel, which at one time showed a slight gain over the previous with 1 to 2 for other active industrials.

The activity of pools was observed in the temporary strength of motor issues. Various miscellaneous issues also derived their impulse from professional sources.

Total sales amounted to 755,000 shares.

Stoadiness ruled in the limited bond dealings, international issues showing less activity. Total sales, par value, 35,360,600. United States bonds were unchanged on call.

CITY SQUAD SOLVES FIRE MYSTERY FOR COUNTY.

Responsibility for Destruction of Parkrose Station Is Fixed Few Hours After Grand Jury Asks Ald.

From November 25, 1916, to Januar 16, 1917, efforts were made to faste the responsibility for the burning the station of the Portland-Troutda electric line at Parkrose on someone At 4 o'clock last Tuesday afternoo the grand jury asked Deputy Distric Attorney Robison to request the cit. arson squad to take up the investiga tion. The fire was outside the city limits, but Captains Groos and Roberts of the arson squad went to work on th

case.

By 10 o'clock that night three suspects were in the County Jall, two of whom had confessed.

John Langosky, aged 20; Roy Hayward, aged 18, and Ralph Sievers, aged 19, are the young men who were taken into custody for starting a fire "to watch it burn."

"The activity of the arson squad in this case is one argument for the need of a state fire marshal under whom would come cases occurring outside city limits," said Mr. Robison yesterday.
"The percentage of farm fires has increased during the past year, while city fires have decreased in Oregon."

JEWELER HELD TO JURY A. F. Clauss Alleged to Have Sold Misbranded Jewelry.

A. F. Clauss, a jeweler with an establishment in the Macleay building. ST. LOUIS, Jan. 17,—Wheat closed: May, was bound over to the Federal grand \$1.37\%; July, \$1.48\%. jury yesterday by Commissioner Drake

on charge of having sold misbranded jewelry.

The first test of the ring involved in the complaint was objected to by Mr. Clauss on the ground that the piece tested was taken from the place in which the ring had been soldered together. Commissioner Cannon had two other pieces taken from parts of the ring selected by the jeweler himself and gave them to two separate assayers for further test.

Both tests returned less than 16 karats, although the ring is alleged to have been branded as an 18-karat piece of gold.

CHICAGO MARKET NERVOUS

Bulls Take View That Destruction of Cargoes Will Have Same Result as Natural Consumption of Cereal.

CHICAGO, Jan. 17.-Wholesale destruction of merchant ships falled to exercise a permanontly depressing influence of the wheat market. In the end prices, although nerv-ous, wore at the same as yesterday's finish to be off, with May at \$1.87% to %, and to the off, with May at \$1.87% to %, and July at \$1.50% to %c. Corn advanced 1 to 1%c het and oats gained \$4c to %6%c. Some leaders on the buil side of the market took the position squarely that so far as the ultimate effect on prices was concerned, no real difference could arise whether wheat went into the sea or into the human stomach. Advices as to farm reserves in Kansas were builish. Export demand made friends for corn. The market showed independent strength throughout the day regardless of translept downward turns in wheat,

Outs reflected the action of corn.

Pork advanced to the highest price since 1809, \$30.27% a barrel, January delivery. Other provisions also averaged higher.

MEASURE IS DEFENDED

PURPOSE OF SENATE BILL 78 EX-PLAINED BY MRS. OFRIDAY.

Head of Consumers' Lengue Says Object Is to Reduce Work Hours for Women From 60 to 48 a Week.

Opposition to Senate bill 78, introduced in the Legislature Tuesday by Senstor Gill, is mistaken, says Mrs. William Ogburn, president of the Consumera' League, which spensors the measure. She declares the bill is not measure for an eight-hour day for all women workers, but it merely limits the hours of work for any one week, reducing the number from 60, as at present, to 48.

reducing the number from 66, as at present, to 48.

"It is not an eight-hour bill at all," said Mrs. Ogburn yesterday, "nor does it state anywhere that hours of work for women shall be limited to eight. Those who oppose the bill evidently are mistaken and have not studied it.

"The Congress of Mothers favored the adoption of this measure, although Mrs. George McMath, president of that organization, has come out against it. She says she opposes it on the ground that she is against an eight-hour bill for the reason that the women workers themselves are against it.

"The way similar laws work elseword day, with a half-holiday on Saturdays. Men get this concession in the East already and we see no reason why women workers here should not have it, with the same consideration probable in the future for men workers as well."
