TROOPS ARE MOVING

Washington, However, Secretive as to Plans.

REBEL LEADERS COMBINE

Villa and Zapata Said to Be Preparing to Contest With Carranza for Territory—Sending of Ambassador Delayed.

WASHINGTON, Jan. 23.—Troop movements preliminary to the withdrawal of the American expedition from Mexico are being carried out at the southern extremity of the American line under War Department orders, and as soon as they are complete the main body of the expedition probably will start north. For the first time officials admitted that the withdrawal of outposts from El Valle and other points about Colonia Dublan had more than a local significance, and was being carried out on orders from Washington. They made no announcement as to the probable time when the general northward

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid which flows in the blood, affecting the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive processes, and remains there because the liver, kidneys and skin are too torpid to carry it off. Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and through the blood on the liver, kidneys and skin, which it stimulates, and at the same time it improves the digestion. Get Hood's Sarsaparilla today. Sold by all druggists.

movement would begin, and would not even admit that withdrawal of Pershing's troops after 10 months in Mexico was at hand. Since the effort to effect an agreement with General Carranza ended in failure, the Administration has indicated that its next step would be made known through action rather than by announcement.

Villa and Zapata in Alliance. Officials are much interested, but apparently little concerned, over growing evidences that a determined struggle for possession of the territory evacuated by Pershing may be in progress soon between Carranza troops and revolutionists.

Today's official dispatches said Villa and Zapata, the most conspicuous revolutionary leaders, had allied themselves for operations against the de facto armies and that 8000 men had been concentrated near Chihuahua for a Villa campaign in the north. Since Carranza declined to accept the Atlantic City protocol, officials here have indicated that such problems as the one developed about Chihuahua would be referred to Carranza for settlement, but that he would be held responsible by the United States government for their settlement in such a way as to protect American interests.

Arms Embargo in Abeyance. Meantime raising of the embargo on arms to Mexico and the dispatch of Ambassador Fletcher to Mexico City remain in abeyance. There were indications today that the prospect of sending the Ambassador to his post had been made more indefinite by two developments construed in some quarters as a renewal of practices of the Carranza government against which the United States has protested repeatedly. Officials are surprised and perplexed over the drastic measures taken by the first chief against two banks whose metallic reserve recently was seized, and by what some contend is a revival of persecution of the Roman Catholic clergy.

Information reaching the British Embassy today from an official of the Bank of London & Mexico and the National Bank of Mexico was that the bullion and specie taken from the banks was a loan only in the sense that it was forced. From the Bank of London & Mexico the amount taken was valued at 4,000,000 pesos. The National Bank's quota was 5,000,000 pesos. Remaining in the vaults of the first are 16,000,000 pesos, and the institution's officers fear this may also be removed. Agents of the de facto government are in possession of the building and the keys to the vault.

British and French Protest. The problem presented by the seizures has been called to the attention of the State Department again by representatives of the stockholders, who are for the most part British and

French. If representations are made by the American State Department they probably will be based on the assumption that the interests of American stockholders may be injured.

The fate of the two priests arrested in Mexico charged with conspiracy remained unknown here late today. The State Department already has made earnest representations in their behalf. Both at the State Department and at the White House scores of telegrams and letters were received today appealing to exercise every power to prevent their conviction and execution. Cardinal Gibbons was among those who sent such appeals.

Boise Woman Ill in Portland. Mrs. Bessie Hawley Tucker, daughter of ex-Governor James H. Hawley, of Boise, Idaho, is at the Portland Surgical Hospital recovering from a serious illness and operation. Attendants at the hospital last night reported Mrs. Tucker much improved, and her rapid recovery is looked for.

Sunnyside W. C. T. U. to Meet. The Sunnyside Woman's Christian Temperance Union will meet Thursday afternoon at 2:30 o'clock at 1110 East Salmon street. Mrs. Swopes will speak on the anti-cigarette movement and there will be special music.

Polish Students Join Army. BERLIN, Jan. 23.—(By wireless to Sayville, N. Y.)—The Gazette Norddov reports that all the students of Warsaw University have joined the new Polish army in a body.

Bolivian Aviator Killed. BUENOS AYRES, Argentina, Jan. 23.—Captain Alarcon, a Bolivian aviator, was killed today while making a flight.

CZAR'S ACT MAKES HIT

RESCRIPT TO PREMIER CLEARS ATMOSPHERE IN NATION.

Clause Promising Benevolent Attitude Toward Duma Received With Much Elation.

PETROGRAD, Jan. 21, via London, Jan. 23.—A profound impression has been made here by the rescript addressed by Emperor Nicholas to the new Russian Premier, Prince Golitzine, calling upon him, among other things, to see that the Government devotes its first attention to the question of supplies for the armies of Russia. The rescript is regarded as a clear presentation of the problems which have oppressed the nation for the last six months, as well as an exhortation to more prompt and energetic action in meeting them. The clause promising a more benevolent attitude on the part of the government toward the legislative chambers is received with particular elation and has dissipated the gloom which prevailed after the recent postponement of the sessions of the Duma and Imperial Council.

Chehalis Plais More Paving. CHEHALIS, Wash., Jan. 23.—(Special.)—Instructions were given City Attorney Murray by the City Commissioners yesterday to draw up the necessary resolutions, ordinances, etc., for paving Cascade avenue from Prindle street to Main street, 2 1/2 feet wide. To pave North street from Pacific avenue to Market street is the desire of prop-

erty owners of that street, and a petition will be started immediately to that effect.

Hood River Club Elects. HOOD RIVER, Or., Jan. 23.—(Special.)

The Hood River Rifle Club, organized according to the specifications of the United States War Department, has elected officers for 1917 as follows: R. E. Johnson, president; P. F. Snow, vice-president; George I. Howe, secretary; H. R. Fields, treasurer, and A. R.

Cruikshank, executive officer. The Rifle Club is now making arrangements for quarters for an indoor target. Target practice on the range established on the Button place, east of the city, will be resumed with the coming of Spring weather.

Bethlehem's Bid on Shells for the United States Navy

To the American People: The Secretary of the Navy has awarded contracts amounting to over \$3,000,000 to a British bidder for 14 and 16-inch projectiles for the Navy, for the reason that the British firm offered prices very much below those of American manufacturers, including ourselves.

We know nothing of the basis upon which the British bids were made, but the public is entitled to know the facts upon which we ourselves bid for this work.

Two years ago we took contracts to make 4,200 14-inch shells at a price of \$1,515,000 (with heavy penalties for delayed delivery). Despite the fact that all our experience and facilities have been strained to fulfill these contracts, up to now not a single shell has been accepted by the Government, although, on the work already done

We have expended in wages, materials, etc., \$447,881 Expended in making tests for the Government, 75,000 Making our total actual expenditure up to date, \$522,881 And we have not received a SINGLE DOLLAR on these contracts

In addition liberal enforcement of the contract might involve payment of penalties for delayed delivery already amounting to \$678,016.

Navy Department tests are now so severe that neither we nor, so far as we know, any other manufacturers have yet been able to produce in quantity 14-inch shells which will meet them.

In the light of our experience, and having no other basis, we bid for 16-inch shells approximately the same rate per pound as that upon which the Navy Department actually awarded a 14-inch shell contract one year ago.

CHAS. M. SCHWAB, Chairman EUGENE G. GRACE, President Bethlehem Steel Company

MAJESTIC, SUNDAY, JAN. 28 THE DA BARA in "The Darling of Paris" From Victor Hugo's "Hunchback of Notre Dame." Unquestionably her best picture.
