Waylaying of Non-Strikers Mentioned as Showing Need of More Adequate Legislation. Labor Replies to Charge.

STATE CAPITOL, Salem, Or., Jan. 23.—(Special.)—More than 500 persons jammed into the Senate chamber tonight to hear arguments by spokesmen opposing delegations for against the proposed anti-picketing, and boycott, and banner law.

The hearing was before members of the Multnoman delegation, but many others from both houses of the Legis-

lature were there.

A delegation of 148 Portland business men appeared to make a showing for the measure. Representing the other side of it were about 100 union metal workers of the Metal Trades Council, who came up from Portland for the hearing and 150 delegates from the State Federation of Labor, now in session at Salem.

sion at Salem.

The delegation took no action to-night, but a meeting to decide on a course probably will be called tomor-row.

Bill to Be Offered Today.

Representative K. K. Kubli, how-ever, has announced that, regardless of any action by the delegation, he will introduce the anti-picketing bill

Representative D. C. Lewis, who presided at the hearing, said all who desired to speak on either side would be heard. He called on Cr Hodson, who headed the business men's delegation, to present his case first.

"There is no such animal as peaceful picketing," was the keynofe sentence of Mr. Hodson's argument for the bill. The same thought was emphasized by other business men.

"It is in anticipation of what we, as business men, know is certain to come that we ask the law. We don't want to go to that point where a man will

Mneleny Attacks Settlers. The principal commercial fishing in-terests at the river's mouth are those of Roderick Macleay. Thomas' bill would seriously curtail the Macleay activities. Macleay was on hand to-night to save his privileges and vigorously assailed the upper river people.

He pointed out that they already de-nied him the right to take steelheads and that now they come "like spoiled babies," to cripple his operations fur-ther. He contended that the steelhead are lost in the irrigation ditches along the stream. The upper river people answered that the Macleny operators kill

General White Points Out Need for Increase to Meet Federal Standards and Cites Records.

STATE CAPITOL, Salem, Or., Jan. 22 (Special.)—One hundred and fifty-five thousand dollars for the Oregon National Guard and \$15,000 for the Oregon Naval Militia were voted by the joint ways and means committee tonight Several members of the committee favored larger sums, and the allowance as made was unanimous. It was indicated by members of the committee that an additional sum may be made later if the state finances will permit.

permit.

The committee's action followed two meetings at which the needs of the Guard and Naval Militia were presented by Adjutant-General George A. White, who came from the Mexican border for the hearing. The sums allowed are identical with those appropriated two years ago. An increase of 6 per cent had been asked, but the increases were cut tentatively until the committee has finished with the budgets of the various institutions.

General White explained that a liberal appropriation was needed to en-able the Guard to meet the new Federal regulations which, if complied with, bring large disbursements in pay to the men. He showed that nothing was asked except for necessities. He called attention to the record made by the Guard in the recent mobilization and the efficiency displayed by the Oregon troops on the border, they being the first units to arrive at the border ready

for action.

Senator La Follette was among those who favored liberal treatment of the who favored liberal treatment of the service. Senator Strayer suggested that the normal budget be allowed at first meeting was given up principally this time and the increases asked for, aggregating \$10,000, were then tentatively cut by a narrow vote. There appears to be a strong inclination in the committee to allow this \$10,000 increase later.
