ONIONS AT SIX-CENT MARKET

Growers Realize Another Advance With Strong Demand.

Onions are up another half-dollar with growers now able to make sales at \$6. The demand at this extreme price is strong enough to justify onion men in believing the price will be maintained. Jobbers find it difficult to keep pace with the growers market and some of the dealers are still selling onions for less than the farmers are receiving. In San Francisco the carlot market has been made in believing to market and some of the dealers are still selling onions for less than the farmers are receiving. In San Francisco the cause of the high price, is offset, as a market factor, by the lightness of stocks.

good deal today to lower the price of wheat. The market closed heavy, %e to 3%e net lower, with May at \$1.51% to \$1.51% and July at \$1.51% to \$1.51%. Corn lost % \$1c to 101%c and eats %c to %c. In provisions the outcome was the same as yesterday's finish to 17%c down.

Bears in wheat quickly took advantage of word that revised official figures put the total Canadian crop of 1818 at \$1.000,000 bushels in excess of the total which was announced last October. During the early trading indications seemed to point to a continued absence of any important revival of export business.

Assertions that the British government was selling at Winnipeg drove wheat prices sharply downward in the last hour. Traders here were disposed to connect the Winnipeg selling with the increase of the Canadian crop total. Late breaks in the market here were due partly also to lack of confirmation of fresh export sales in the United States.

Corn was depressed by the weakness of wheat.

FISHING TANGLE ARGUED

UMPQUA ANGLERS AND COMMER-CIAL FISHERMEN UNAGREED.

Question of Whether River Will Be Open or Closed Will Be Left for Legislature to Adjust.

ROSEBURG, Or., Jan. 26.—(Special.)—
Roseburg, Or., Jan. 26.—(Special.)—
Rev. M. C. Reed is the new president of the Chautauqua assembly owing to a readjustment of the official roster.
C. B. Lamkin is vice-president; R. P. Campbell, secretary; G. G. Eubanks, tressurer. C. W. Root has been elected to a vacancy on the board of directors. from all sections of Douglas County met here today in an effort to agree upon legislation regulating fishing in the Umpqua, River. The anglers of this vicinity have asked that the Umpqua River be unobstructed from 6 o'clock Saturday evening until 6 o'clock Monday morning, but this is opposed by the commercial fishermen at the mouth of the street nouth of the stream.

Representatives of the cannery in

Representatives of the cannery interests at Gardiner and Reedsport said today that they were opposed to an open river during the silverside season, but were not opposed to the river being left open one day each week during other times of the year. No agreement was reached here today, and it is probable that the fight will be carried into the Legislature.

The fishing industry brings more than \$190,000 into Douglas County annually, and the cannerymen and commercial fishermen assert the industry will be endangered by opening the river during the "running" season.

A bill now before the Legislature provides for opening the river one day each week, and for a closed season from April 15 to May 15 and from November 20 to December 21.
