

RAILROADS IGNORE
LAW CONCERNING
BOX CARS

No Action Yet Taken to Meet Demand That Shortage Be Relieved at Once.

PRECEDENT IS FEARED

Companies Contend They Can Work Out Better Remedies Themselves. Association May Try Again to Accomplish Result.

WASHINGTON, Jan. 29.—The Interstate Commerce Commission's ultimatum to the railroads of the country, giving them 10 days to appoint a committee to study the shortage of boxcars, will expire tomorrow without the appointment by the railroads of such a committee.

In the order of January 20 prescribing drastic regulations designed to relieve the shortage in coal cars, the Commission notified the roads that unless the committee was named the Commission would consider taking the situation into its own hands, as it has done with reference to the shortage of coal cars.

Remedial regulations, looking to the ameliorating of the boxcar shortage will be discussed by the railroads, however, at a meeting of the American Railway Association in New York next Friday. Efforts will be made at this meeting, it is said, to frame suitable requirements for relief of the situation and to obtain authority for the enforcement of heavy penalties against roads violating the proposed regulations.

Worse Shortage Predicted.

In this manner the railroad heads hope to satisfy the demands of the Commission and to retain control of the situation in their own hands.

The car service committee of the association conferred today with Commissioner McChord with reference to the order requiring the return of coal cars to owning lines and frankly told him that while the roads would bend every energy to obey the Commission's orders, they would resist the order to act to relieve the boxcar shortage unless the railroads themselves should speedily enforce adequate measures.

Commission Means Business.

Mr. McChord is understood to have expressed himself as "meaning business" both with respect to the enforcement of the order designed to relieve the coal car shortage—failure to obey which is punishable by a \$5000 fine—and with respect to the Commission's intention to act to relieve the boxcar shortage unless the railroads themselves should speedily enforce adequate measures.

PARENTS WAIT FOR NO LAW

Way Cut Through Southern Pacific Fence for 21 Pupils.

OREGON CITY, Or., Jan. 29.—(Special.)—This advice of Truant Officer Frost was followed by residents of the Ardenwald School District, who have cut the high barbed wire fence which prevented 21 pupils of the district from attending school.

BANDON DEBATERS WIN

Myrtle Point and Marshfield Teams Are Vanquished.

BANDON, Or., Jan. 29.—(Special.)—Both affirmative and negative debating teams of the local high school won in the county contest Friday night. The affirmative team defeated Myrtle Point here and the negative defeated Marshfield at the latter place.

Criticism of School of Commerce Is Deplorable.

A. R. CLARK TELLS OF NEED

Foreign Trade Secretary of Portland Chamber of Commerce Declares Legislative Committee Made Little Inquiry.

Ansel R. Clark, foreign trade secretary of the Portland Chamber of Commerce and commercial agent of the district of Oregon for the United States Bureau of Foreign and Domestic Commerce, raises his voice among the voices of others prominent in commercial affairs of Oregon in protest against the adverse report of the joint committee of the Legislature against the School of Commerce in the University of Oregon.

Report Brings Protest.

Those business organizations of the state which have developed close and valuable co-operation with the School of Commerce are protesting the report vigorously, and Mr. Clark's statement on the subject is peculiarly pointed, inasmuch as his office represents a point of co-operation between the Federal Government, the Chamber of Commerce and the School of Commerce of the university.

MAN CALLS; WIFE WATCHED

Mrs. P. E. Everson Says Husband Is on Lookout From Ladder Top.

OREGON CITY, Or., Jan. 29.—(Special.)—When their grown daughter's beau came to call, Mrs. P. E. Everson charges in a divorce complaint filed in the Circuit Court here today, her husband, E. Everson, put a ladder against the house and kept a watchful eye on his wife until the young man left.

Dr. Ferdinand King, a New York City physician and author, says: "There can be no strong, vigorous, iron men or beautiful, healthy, rosy-checked women without iron. Nuxated Iron taken three times per day after meals will increase the strength and endurance of weak, nervous, run-down folks 200 per cent in two weeks' time in many instances. Avoid the old forms of metallic iron which may injure the teeth and corrode the stomach, and thereby do more harm than good. Take only organic iron—Nuxated Iron. It is dispensed in this city by Owl Drug Co. and all good druggists."
