

OREGON TROOPS MAY START IN TEN DAYS

Funston Notifies Department Relief Will Be Given as Soon as Possible.

WASHINGTON COMING NEXT

More Than 1500 Refugees Following in Wake of Pershing's Army on Way Out, Bringing All Their Movable Property.

OREGONIAN NEWS BUREAU, Washington, Jan. 29.—The War Department today received word from General Funston that Troop A and Battery A of the Oregon National Guard, will be relieved of duty at the Mexican border in the near future.

The exact date of their departure is not yet determined. They will start for home as soon as two troops of cavalry from General Funston's command can be sent to relieve them. The department expects the Oregon boys to be en route northward in about ten days.

The Washington troops remaining on the border, Troop B, Cavalry, and Company A, Signal Corps, are to be returned to their homes as quickly as they can be relieved by regulars.

Formal Order Expected Today. Specific orders releasing these troops from border duty have not been issued, but probably will be announced by the War Department tomorrow.

EL PASO, Tex., Jan. 29.—More than 1500 refugees are following in the wake of the American expeditionary forces on their march out of Mexico. An American cattleman who came to the border at Columbus, N. M., today, said the refugees were streaming along the communication trail for more than five miles behind the main column of General Pershing's troops and were enveloped in a great cloud of dust.

Mormons were riding in automobiles, covered wagons of the prairie schooner type, in farm wagons and on horses and mules, according to the cattleman. They were driving their milch cows ahead of them, while behind tramped hundreds of natives, Chinese and others who had no means of transportation on the long trek to the border.

Nothing that could be brought out was left behind, it was said, and many of the settlers in the beautiful valley of the Casas Grandes River carried all of their worldly possessions with them.

Worst Is Yet to Come

The head of the troop column was expected to reach Ojo Fedeo tonight and camp near the water holes there. This is approximately 40 miles from Colonia Dublan and is considered the easiest part of the journey out. From Ojo Fedeo to Tres Papeles (Three Windmills) is considered the worst part of the journey to the border. There is no water in this stretch of 20 miles and the country resembles a desert, with sand, bear grass and cactus. Many of the refugees who are "hiking" on foot are expected to suffer on this part of the trip out.

National Guard encampments here which have been abandoned since the troops went home will be used to house the refugees until they can find homes. A large number of vacant tent-houses and mess huts at the camp of Pennsylvania troops have been offered to the Mormon leaders here and probably will be accepted for the refugees.

General Pershing's column is expected to reach Laguna de Palomas by Friday and hold a general review there Sunday, after the regular cavalry arrives from Colonia Dublan. The entire expedition will then march into Columbus from Palomas, a distance of seven miles, it is expected that this last march will take place Monday.

RECEPTION TO BOYS PLANNED

Chamber of Commerce Probably Will Be Asked to Co-operate.

Acting Adjutant-General W. W. Wilson, of the Oregon National Guard, had not received notice officially yesterday that the Oregon troops at the border had been ordered home, and until he has official notification he will be unable to say definitely when Battery A and Troop B will be mustered out.

In the meantime plans for some form of reception for the returning troops will receive consideration. It is probable that the Portland Chamber of Commerce will be asked to co-operate in arranging for a suitable reception.

It probably will be the middle of February before they arrive in Portland. The fact that they will be moved from a tropical territory at this time of the year will be taken into consideration and any lengthy outdoor program or strenuous athletic contest will not be planned, as sudden change and undue exposure might cause illness. The general health of the men at the present time is said to be excellent.

LAWSON IS CONTRADICTED

(Continued From First Page.)

President's note Mr. White had arranged a meeting between the German Ambassador and Lawson.

Mr. White after saying he had frequently entertained Bernstein at his home here and that they were friends of long standing, testified that Lawson had sought to have him arrange a meeting with the ambassador, but that the request had been made at least a

year and a half ago. He said the request had come to him through Lawson's "confidential man, McSweeney," and that he had told McSweeney to arrange the meeting himself. White said he did not know whether the meeting ever took place.

Friendship With Lawson Probed

Mr. Whipple inquired closely into Mr. White's friendship with Lawson during the period prior to the publication of the note. He developed that the two frequently met in New York, but White would not admit that they had discussed stock market speculation and the effect that the war and peace situation would have on the market, "except in general terms."

In response to questions from Representative Bennett, Mr. Fisk said in the course of his examination, that it was his judgment that the market prior to the publication of the President's note was in "an overbought condition," and ready for a violent drop. All it wanted was an excuse.

"I never," he declared, "talked, dreamed of or imagined a pool for stock market speculation with Mr. McAdoo or any other Government official. Our business is not stock gambling."

In closing his testimony, Mr. Fisk made the voluntary statement with the still thought Lawson's statement probably was the result of a "disordered brain," and severely criticized him for dragging the name of Harvey Fisk & Sons into the inquiry.

Perjury Charge Suggested. "Lawson should be taken at his word," Fisk said, "and placed behind the bars on the basis of what he has said. He wantonily handles the name of a reputable citizen. If his statement is the result of a disordered brain, as it appears to be, he may be sent to the insane asylum in his own way."

Lawson, it developed today, had been ordered to remain in touch with the still thought Lawson's statement probably was the result of a "disordered brain," and severely criticized him for dragging the name of Harvey Fisk & Sons into the inquiry.

HOSE MAY BE EMPLOYED

One Mexican Takes Five Baths and Sells Extra Certificates to Less Daring Countrymen—Women Attack With Bottles.

EL PASO, Tex., Jan. 29.—Preparations were being made tonight on both the American and Mexican sides of the river to stop any further rioting at the international bridge tomorrow morning when the port opens at 7 o'clock.

Through Andres Garcia, inspector-general of Carranza, consulates, the Juarez police and military will co-operate to prevent further demonstrations and a large number of de facto troops and gendarmes will be stationed at the Mexican end of the bridge when the port opens.

A conference between General Pablo Gonzalez, of the Carranza army of the north; Chief of Police Maximo Torres, of Juarez, and Inspector-General Garcia was held at the Carranza consulate here late today, at which plans were made for preventing further demonstrations against the quarantine restrictions placed on this port by United States health officers because of the presence of typhus fever in Northern Mexico.

Chief of Police Torres announced he would arrest all agitators who attempted to start a riot again. He said there were five Villa partisans known to have been in the mob today and they would be arrested as traitors if they appeared tomorrow. He also said eight American gamblers were in jail in Juarez on minor charges not connected with the riot.

Brigadier-General George Bell, Jr., announced tonight he would leave the situation to the local peace officers, unless a request was made for the assistance of his troops. He said, however, his bridge guards would assist in enforcing the quarantine. It was suggested to the troops tonight to use streams of water from fire hoses to disperse the mob if it formed again tomorrow morning.

The mob of men and women crossed the boundary line marked on the international bridge today to throw bottles and rocks at the soldiers and Government inspectors.

One Mexican took five baths today and sold his extra certificate to other Mexicans.

MEN ARE PREPARING TO LEAVE

Drills and Guard and Patrol Duty, However, Will Continue.

WITH THE OREGON TROOPS ON THE BORDER, Camp John H. Beaman, Col., Jan. 29.—(Special.)—United States troops on the border today will leave here for Oregon to be mustered out on the arrival of the Pershing expedition at the border was received here today. The district commander declined to make an official statement as to the probable date of the withdrawal of the Oregon troops.

News of an early return was received joyfully by the Oregon men, although there was no demonstration. They have been deceived so often by rumors that they are suspicious of anything short of positive orders.

Captain George A. White, who returned to duty in command of Troop A last Saturday, declined to discuss the report, although he credits the information received in his own mind. He said active preparations for quick departure when orders are received. Men are busy packing property and preparing to leave. Mustered-out soldiers are necessary reports, so that there will be no delays later.

Drills will not be suspended, however, nor will guard and patrol duty, for the time being.

FAMINE THREATENS RUSSIA

Food Plentiful but Distribution Organization Is Poor.

LONDON, Jan. 29.—Russia is experiencing famine in the midst of plenty, according to an undated article in the Times from a correspondent in that country. The article refers chiefly, but not exclusively, to Petrograd and Moscow.

The writer believes that there is enough food in Russia to supply the entire population for two years, but owing to the inadequacy of the railroads, the lack of organization and coordination in distribution, the people in some districts find it difficult and even impossible to get supplies.

The people of Petrograd have to stand in line for many hours to obtain meat, bread, milk, sugar and vegetables. The thermometer in the capital is sometimes 20 below zero.

HOUSE PASSES DRY BILL

(Continued From First Page.)

day was that of Representative Ballard, of Astoria, who said that the prohibition law had put 53 saloons out of business in that city and that the town never was so prosperous as it has been since.

"There certainly is an emergency in this case," he insisted. "The only ones who don't want it are the people with the big stomachs and small consciences."

Representatives Sweeney and Jones of Lane added their words of support and Lewis put in his objections. Lewis was one of the two members of the House who voted against the prohibition bill two years ago. He objected this time for several reasons. One was that the penalties are too severe, and another that the regulations to prevent illegal importation are not severe enough.

Lafferty Votes for Bill Eventually. Forbes called for the previous question, but Lafferty got a chance to speak on a point of personal privilege. He said that in spite of his objection to the liberties granted clergymen, he was going to vote for the bill. He didn't want to be understood as opposed to any church or religious organization.

The rollcall was a monotonous succession of yeas with the seven interruptions already recorded. Representative Crandall took occasion, in voting "yea," to express his profound convictions on the temperance question and to pay a tribute to the W. C. T. U.

While every one in the room knew how the vote had gone a heavy volume of applause greeted the reading clerk's announcement of the result.

The room soon cleared of spectators and as the House started to settle down to its routine business Joe Singer, the sergeant-at-arms, marched up the cen-

PEACE DEBATE IS COMING

ISSUE MAY BE PRECIPITATED IN SENATE TODAY.

Administration Leaders Plan to Forestall Extended Discussion—Cummins to Talk at Length.

WASHINGTON, Jan. 29.—General discussion of President Wilson's peace address is expected in the Senate tomorrow, Senator Cummins having given notice of his intention to call up then his resolution to set aside special time for debate on the subject.

Administration leaders are planning to delay a motion originally made by Senator Stone to refer the resolution to the foreign relations committee, but debate on the motions themselves may take a wide range, including discussion of the Monroe Doctrine and the Washington and Jefferson pronouncements against foreign entanglements.

Democratic Senators insist this is not the time for prolonged discussion, in view of the press of legislation, and as an alternative proposal for quick disposition of the subject they have under consideration a resolution which they declare it to be the sense of the Senate that the address of the President does not propose abandonment or limitation of the American Monroe Doctrine.

Involve an alteration in policy which would send armed forces of the United States into foreign territory for any purpose except to preserve the peace of this country or protect American rights.

Senators Hitchcock and Williams, Democratic members of the foreign relations committee, will look after the interests of the Administration tomorrow in the absence of Senator Stone. Senator Cummins proposes to address the Senate at some length before urging adoption of his resolution.

BRIDGE WORK YET HEAVY

All Will Not Be Done on Interstate Span Until June.

VANCOUVER, Wash., Jan. 29.—(Special.)—While the Interstate bridge will be shown open to traffic February 15, it will be June before every detail of the work has been completed.

A wooden railing, with posts and bars similar to the wooden railing along portions of the Columbia Highway is to be put up along both the Union-avenue and Derby-street approaches. The 18-foot macadam roadway on the Derby-street approach is yet to be made. Roadways giving access from the approach to Hayden Island and the Union stockyards are to be finished. The lights along the approach must yet be installed and wired.

The method of taking toll has been tentatively decided upon. A ticket-seller will be stationed at each end of the bridge and tickets must be purchased before crossing the bridge. The ticket-taker will be located in the center of the bridge. Commutation ticket books are planned to make it easier for those who cross regularly. Toll from people crossing on the streetcars will be paid by the company as shown by the fare register.

GENERAL DANKL RETIRED

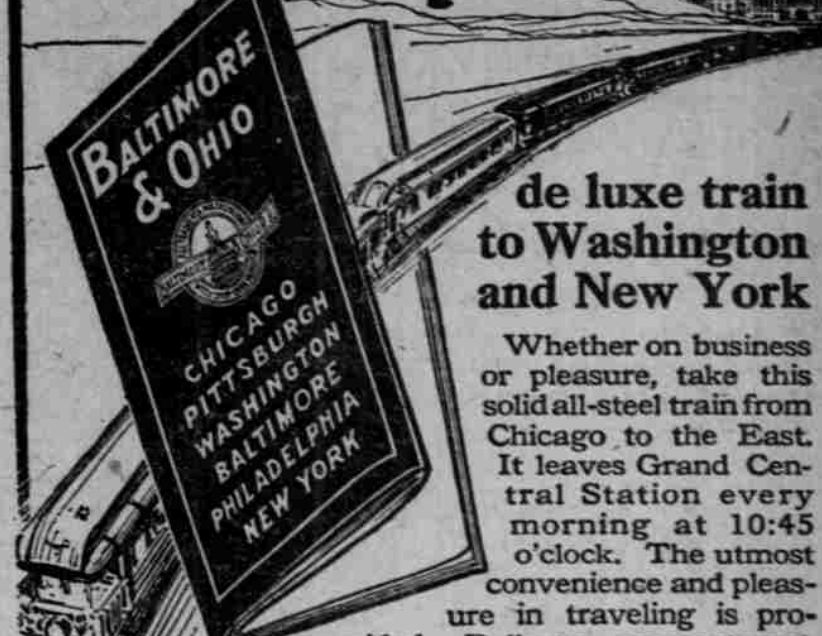

Austrian Commander in Ill Health to Join Imperial Bodyguard.

AMSTERDAM, via London, Jan. 29.—The Berlin Vossische Zeitung reports the retirement of General Dankl, one of the best-known commanders in the Austrian army, from field service. Emperor Charles has written to General Dankl regretting that the com-

STOPPED CHILDREN'S CROUP COUGH

Scared mothers who dread the hoarse cough of croup at night will find a sure, quick help in Foley's Honey and Tar. It stops croup quickly, and it given at bed time will prevent the dreaded attack. Mrs. Billie Mayberry, Eckert, Ga., writes: "Three weeks ago two of my children began choking and coughing and I saw they were having an attack of croup. I gave them Foley's Honey and Tar at bed time, their cough stopped, and by morning all signs of croup were gone." Croup, whooping cough, tickling throat, bronchial and all cripes coughs quickly stopped. Try it.
