Lansing Cables Second Warning and Wilson Approves Sales of Munitions.

ZAYAS BELIEVED ELECTED

Suggestion Offered That Uprising Was Precipitated by President by Causing Arrest of Political Enemies.

WASHINGTON, Feb. 14.—Reports telling of the spread of the Liberal revolt in Cuba aroused such apprehension here today that Secretary Lansing cabled a second warning to the people of the republic that the United States would not regard as local any government set up by violence.

Warlike Move Not Planned.

Minister Gonzalez' reports of the growth of the revolt were submitted by the State Department to the Secretaries of War and Navy as promptly as they were received. In neither of the military departments was there indication that any warlike move was being prepared in connection with the situation.

Secretary Baker announced that with the approval of the President a deal had been closed yesterday for the sale of 10,000 Army rifles and 2,000,000 rounds of ammunition to the Cuban government.

Shipments to Be Hastened. The President is authorized by statute to approve the sale of arms and ammunition to Cuba, whose soldiers are the only ones in the world other than American who carry the United States Army Springfield rifle.

Official news from Cuba convinced the Administration that the rebellion already has assumed greater proportions than had been expected.

Reports of the special election that was announced for today in Santa Clara and which was expected to determine beyond doubt the winner in the presidential election had not been received at the State Department late today.

Information already received from Cuba has made it appear that there was no doubt Dr. Francisco Zayas, the Liberal candidate, was elected.

Woman Pleads for Son. An appeal was received today from Mrs. Rita Castellanos in New York, urging the President to intervene in behalf of her son, a young lieutenant who is reported to have been sentenced to death on the charge of complicity in the plot.

It became known after the transmission of the warning to Cuba that a similar warning was sent to every Central American country after the overthrow of the Gonzalez administration in Costa Rica.

BY ARTHUR S. DRAPER.
