Quarantine Is Justified.

School Superintendent Arant and Attorney Kitchin Charged With Violating Health Officer's Rules-No Cases Serious.

The measles rebeillon of Union, in which the school authorities of that city defied the local Board of Health, is now well in hand, according to advices received yesterday by Dr. David N. Robers, president of the State Board of Health. Pifty cases of the disease are in various stages of convalescence, the schools are closed, Superintendent E. E. Arant is under arrest, and Attorney R. J. Kichen is awaiting trial for breaking quarantine in his own home.

Thus matters stood when Superintendent E. E. Arant, acting on the advice of the Board of Education, appeared at the prescribed temple of learning and took down the quarantine flag, burning it. Two days afterward he was arrested on the charge of destroying a quarantine flag, and was bound over to the grand jury. The school closed again, and abruptly. In the home of Attorney R. J. Kichen the maindy was visiting, and the quarantine imposed by the Board of Health proved irksome to him. He broke quarantine. He was arrested, and now awaits trial.

Schools Bar Some Children.

City Health Officer Marcellus stated yesterday that children who have not had the disease, but who come from homes where someone is afflicted with measies, are barred from school attendance. The disease is held to be a reportable one, but is not quarantineable, Dr. Marcellus said A card is displayed on afflicted houses.

According to incomplete records in the office of State Health Officer Roberg, the disease was widespread in the state during the month of January. Forty-three cases were reported from Clackamas County; 16 from Clatsop, 23 from Douglas, 13 from Head River, six from Jefferson, four from Linn, 39 from Marion, four from Multnomah, excluding the city of Portland; five from Polk, five from Wallowa, two from Wasco, six from Washington and one from Yamhill.

"These statistics are very incomplete," said Dr. Roberg, "due to the negligence of physicians in reporting. The situation at Union, and elsewhere in the state, but serves to emphasize the urgent need for legislation providing a uniform and compulsory health inspection of Oregon schools. Until this is accomplished, similar situations are bound to arise and clashes of authority will occur."
