The various women's clubs were not able in the limited time to take official action to call the Governor's attention to the matter, but many members took individual action and dispatched personal telegrams.

The argument urged is that Mr. Plummer is largely responsible for the bringing of the great National Education convention to Portland and that he should not be custed from his office before the convention is held. It was pointed out that Mr. Plummer is the president of the school directors' section of the National Education Association and will be called to preside over that department at the National convention.
