PORTLAND, FRIDAY, MARCH 9, 1917.

WHAT IS THE DIFFERENCE? Objection is made by some per-

sons to the proposed arming and protection of American ships against attack by German submarines in the barred zone on the ground that the United States has also denounced the allied blockade of Germany as illegal, and that strict neutrality requires the War precedent set by Britain. Several same protection to American ships Eritish ships were condemned by our bate on the armed neutrality bill:

This bill does not say anything about ds out to our merchantmen that they I be protected against the unlawful at-

Mr. President, Germany is not the only country that has closed the high seas to American ships. Great Britain has closed and denied to our ships the right to travel upon certain portions of the high seas. She has not sunk any of our ships. Why? Because they have not gone there. They have not braved her power. That is why, and the only reason why she has not done it. Why do not our merchant ships insist upon going to Germany?

British blockade because it is effective. Germany does not even call her naval operations a blockade, but only warns is a wide difference, ships that, if they enter a certain barred zone, they will be attacked. If Germany did call these operations a blockade, neutrals would be under no obligation to respect it, for it is not entering the barred zone are only 9 or 10 per cent, which implies that the chances are about ten to one that they will not be sunk.

But our State Department has disputed the legality of the British block-ade in some respects, and it is therefore contended that our Government should arm ships to resist capture by British cruisers and should use the same instrumentalities to protect them against the British as are to be used against the Germans. Why is this not

In the first place, the Upited States

has not disputed the general legality nor effectiveness of the British block ade; we have only denied that cerillegal. As to almost all of these points, Great Britain refers us to precedents established by the United States during the Civil War, to which they are disputed questions of law nffecting property rights, such as we are bound by our general arbitration treaty to submit to arbitration. If that did not bind us, the Bryan peace treaty would. Resistance to capture of ships would be an act of war, and Manual the Bryan treaty forbids the United States and Great Britain to resort to war until, after failure of diplomatic negotiations, a year has been devoted to inquiry by a commission and to efforts at amicable settlement upor the basis of its findings. Cur dispute with Germany concerns not only property rights but human life, and is therefore not arbitrable. Even if it were, we have no arbitration treaty with Germany, and no Bryan peace treaty has been made with that power.

The question then arises whether the points in dispute between the United States and Great Britain are so se rious as to justify us in ignoring the 1000 miles from shore to seize block-ade-runners, one British ship being captured as far away as the Cape Apparently, it is designed that the

The American protest relates to the manner, not to the fact, of its

exercise. There is reason to believe that, when the war is over, the United States will have a stiff bill of damages for Great Britain to settle, but if we wait till then we shall only follow the Civil War precedent set by Britain. Several bound for German ports against seiz- lower courts, but their decision was ure by the allies. Senator Jones dwelt reversed by the Supreme Court after

Britain waited. Hence the reasons for acting differently toward Britain and Germany are that their cases are not parallel. Britain enforces an effective blockade and, though we maintain that it is tainted with illegality, only property Mr. President, Germany is not the only rights are involved; they will not suffer seriously by delay and, in any event, we are debarred from a resort to force by the arbitration and the numanity and we cannot brook delay in obtaining a remedy, for every day's Our ships do not attempt to run the delay may cost life, which cannot be restored, nor are our hands tied by arbitration and Bryan treaties. There

HIS ALIBIS.

The alibi of Senator Lane, in his first great failure to support the President in the German crists, consisted that he had gone out on the Senate veranda to take the night air, and they locked the door on him, and he couldn't get back. But he would have voted no, he says. The Senator's explanation of the vote he didn't cast is he casts.

If we get the Senator's viewpoin of the occurrences in the Senate last Sunday, It is that he was present and voting, and talking, but he didn't know what he was voting on or talking

"I was unable," he says, "to procure the original document from the com-mittee, so edid not know, nor do I know, what it contained. It disappeared before the debate upon its contents, for what reason I do not understand.

It does not appear, however, that if he had known what was in the resolution, the muddled Senator would have voted aye; for he had an amendment which would have fixed everything all right, if only he could have offered it. He might as well have

Meanwhile, let us hope the Senator will expose the wicked conspiracy of the Senate to prevent him from ascer-taining the contents of a document under consideration. For there must have been a plot to keep him in the dark. How else can it be explained tutional right to rise in his seat and ance." Inviving up to

works, or he should change his job.

It is a far cry from the above method of keeping the skin around a boil sogry, hot and fility from the use of hot linseed poultices.

There are certain conditions in which there is not the normal resistance to bacterial invasion through the skin, and in which boils are prone to develop. For instance, for some reason not understood, diabetics are prone to carbuncles and boils. So marked is this tendency that a person who has carbuncles and repeated crops of holls should have his urine examined for sugar. In addition, he will do well to stop the stop eating sugars, sweets, desserts, bread and potatoes.

lng of unlimited powers in the hands neutrality bill, refusing to allow it to of one man in a crisis like this; and come to a vote, when they were well that even without first allowing Congress sufficient time for adequate discussion.

With regard to the loud condemnation of Senator Lane by the Portland City Council, as reported in the Portland City Council, as reported in the Portland papers of March 5, I simply wish to say that the worthy council must not be regarded as speaking for the state of Oregon. There are others, though less noisy—and there are many though less noisy—and there are many though less noisy—and there are many through the supplies that Congress was almost unantended to had the Nation was almost unantended to had the Nation was almost unantended to had the President in his policy of dealing with the German submarine warfare.

I believe that all the civic societies of this city and every citizen should the president that all the civic societies of this city and every citizen should the president that the civic societies of the civic societies of the civic societies.

I believe that all the civic societies of this city and every citizen should the president than the nation was almost unantended to have a submarine was a submarine was almost unantended to have a submarine was though less noisy—and there are others, of them, too—who thoroughly disagree with them, and who heartly thank Senator Lene for his sane and manly stand. Yours for peace.

F. C. ROSELAND.

Pastor St. John's Church, Silverton,

Tell the traitors all around us. That their oruel words we know. In every battle kill our soldiers. By the aid they give the foe, Our battle has been, and still is, a subreme effort to keep out of war by proving to our possible enemy that the Nation is united in its resolve to defend it is two. its rights.

The words and actions of men like these create the opposite impression and donviction, and are just the way to Involve us in the war.

The time now is when the Government needs, and is entitled to, the unities are eligible for citizenship of the qualified support of every attitude. qualified support of every citizen. C. B. PYE.

PORTLAND, Or., March 8.—(To the Editor.)—I have read the article "50-50 Matrimony." by A Bachelor Man. A bachelor is one of those substitutes you call man shifts all responsibilities on to woman, goes through life with duty forgotten and love denied. There is also a letter by Allen L. Lambert on the same subject. There is no question but he is the same specie as A Bachelor Man.
