Linn Farmers Pian Big Year.

ALBANY, Or. March 8.—(Special.)—With wheat and oats bringing a record price last season Linn County farmers are working hard for a big acreage the coming harvest, and more Fall grain has been planted in this county than for many years. Everywhere possible farmers planted a great deal of grain last Fall, and will be in shape to devote all remaining acreage to Spring crops. There will be no wasts of available farming land in this section of the state this year.

METAL SHARES HOLD WELL

Early Advances in Specialties Ar Generally Eliminated in Later Dealings--Moderate Liquidation in High-Grade Rails.

NEW YORK, March 5.—A relapse to the listless conditions of last month was the most striking feature of todays market. Dealings fell away by 30 to 40 per cent in comparison with the operations of recent days, and the number of issues traded in surfered corresponding reduction.

Such changes as occurred in prices of important stocks represented little more than the caprices of the trading element. United States Steel and allied shares were steady to strong most of the session, with coppers oils, motors, sugars and the usual equipments, utilities and fertilizers.

The more substantial advances, very few of which were fully retained, included Texas Company, which rose 5% to 234, with 3 each for International, Agricultural Chemical preferred and American Cotton Oil preferred.

Rails continued to show general heaviness, with further moderate liquidation of high grade, including Chicago & Northwestern and other grangers. Total sales, 540,000 shares.

Operations in exchange were nominal, sterling and marks hardening with another setback in rubles. Maintenance of the prevailing discount rate by the Bank of England was ascribed to the reduced liability reserves reported by that institution.

Bonds were steady, except for a further decline in Distillers' Scoutilies 5s to the new low record of 63, Total sales, par value, \$2,365,000. United States bonds were uncleased to the States bonds were uncleased to NEW YORK, March 8 .- A relapse to the

ALL CEREAL RESERVES ARE LIGHTER Farm Holdings of Wheat, Corn, Oats and Barley on March 1.

WASHINGTON. March 8.—Inventory of the quantity of cereals of the 1916 crops remaining on farms March 1. made by the Department of Agriculture and announced in its March crop report today, disclosed a material reduction of stocks as compared with other years. Heavy exports of wheat, corn and oats to supply the warring Eucopean nations have reduced farmers stocks. High prices offered for those cereals have been so tempting to farmers that the department has issued warnings to farmers not to part with their valuable seed and thereby endanger the coming season's crops.
