

SPONSOR BELIEVED DEATEN FOR BANK

Failure of Legislature to Make Bonds Legal Securities Is Blamed.

SCHOOL FUND AGREED ON

Senate Approves House Distribution of Millage Tax and Distribution of Revenue—Combine Against Governor Made.

OLYMPIA, Wash., March 8.—(Special.)—A supplemental budget carrying total appropriations of \$3,805,000 from all funds, in addition to approximately \$12,000,000 appropriated in the main budget, was reported to the Legislature late tonight by the joint committee.

The supplemental budget carries \$1,000,000, to be collected from employers and employees under the first-aid act, and also apportions the millage tax to higher educational institutions as agreed upon today.

OLYMPIA, Wash., March 8.—(Special.)—In final session today, devoted exclusively to conference committee work and action upon reports, the Senate concurred in House amendments to the education tax levy bill and confirmed a millage distribution that totals 153 1-100ths millage. This is a reduction of 33 1-100ths mill from the original Senate total and an increase of 2-100ths mill from the House figure agreed upon by the House last night.

Although opposed to a higher total levy for education than 153 1-100ths mill the Governor acquiesced today at the conference total of 153 1-100ths mill would be accepted as the best compromise obtainable.

University to Get \$740,000. Reduced to dollars the millage distribution will provide the following revenue yearly for the various institutions: University, \$740,000; State College, \$460,000; Bellingham Normal, \$152,000; Cheney Normal, \$136,000; Ellensburg Normal, \$108,000.

The bill in question was unanimously passed by the Senate to make Federal farm loan banks eligible for investment for trust and other funds, a preliminary insular upon by Secretary of the Treasury McAdoo, in early letters to the Governor and the Legislature through Senator Ralph Metcalf, chairman of the committee in charge.

RANCHER HELD CAPTIVE

L. A. RAWLINGS OF NEAR BEND ACCUSES WOMAN.

AGED HOMESTEADER SAYS MRS. J. J. BAILEY HELD HIM BOUND FOR 30 HOURS AND THEN STOLE DEED TO FARM.

BEND, Or., March 8.—(Special.)—That he had been inveigled into the cabin of a woman homesteader to receive payment of a note and there had been bound and kept a prisoner for 30 hours while efforts were made to make a deed to his ranch, was the story told here this afternoon by L. A. Rawlings, an aged resident of the Harney holes country, east of Bend.

Mr. Rawlings told of his imprisonment when on the witness stand at a preliminary hearing of a charge of jury against the woman, Mrs. J. J. Bailey, who was brought to town yesterday by Deputy Sheriff O. K. King.

According to Mr. Rawlings' testimony he was invited to the Bailey cabin to be paid a loan he had made Mrs. Bailey. During the discussion Mrs. Bailey talked "ugly," he said, and he started to leave but was held by the woman and her 14-year-old son and bound, not being allowed to go free until late the next day. While he was tied up, he testified, the two tried to make him take a poison.

Mr. Rawlings told him to his own cabin, Mrs. Bailey broke open his trunk, he said, and took out various papers, including a deed to the ranch, which had been made out but never delivered because the purchase price had not been paid.

Rawlings, who is 72 years old, told his story to the District Attorney, when he came to Bend a few days later and a warrant was issued for the arrest of Mrs. Bailey. At today's hearing she pleaded not guilty and was bound over to the grand jury, her bond being fixed at \$750.

MARSHFIELD AFTER LANE

TELEGRAM OF INDOISEMENT FROM CITY ROUSES DISAPPROVAL.

MAYOR AND OTHERS DESIRE TO OFFER IMPRESSION CREATED, BELIEVING MAJORITY NOT REPRESENTED.

MARSHFIELD, Or., March 8.—(Special.)—Mayor R. A. Coppel said today that he and other members were interested in a move to effect the impression outsiders might get from the telegram of approval of Senator Harry Lane's filibuster in the Senate, sent from here yesterday.

Mayor Coppel said he did not believe the telegram accurately reflected the majority in this city and therefore he desires some action. The declaration or expression will not be such as to raise any question as to its status, but simply an expression of disapproval of all the filibustering at the close of Congress.

Nothing has been done yet, but it was said action would be had within a day or two. Perhaps it will come in the form of a petition, and perhaps at a mass meeting. The latter plan is not favored so much because it offers an avenue for an outburst of bitterness.

ROSEBURG PLANS "COMMUNITY SING." Plans for a big "community sing," in which hundreds of Roseburg voices will participate, either as an attraction during the Strawberry Festival or as a separate event, were started here last night. The proposition is being considered by the Roseburg Musical Society, and definite plans probably will be outlined at the next meeting of the organization.

ROSEBURG SAID TO HAVE PLINY OF AVAILABLE TALENT AND, IF UNDERTAKING THE EVENT WILL BE MADE A GRAND SUCCESS.

was incorporated in the same bill, were sacrificed in consequence. The conference committee, with only Thomie objecting, voted to accede to the Senate and the House preserved the bill by indorsing the majority committee action.

Both the teachers' pension and the mothers' pension bills, as amended, were lost in final disposition of the House calendar last night and all attempts to revive them today failed.

Late today joint committees discovered that they had crippled the state highway department entirely by the work of maintaining roads by passage of a bill throwing the total maintenance fund derived from the millage tax and automobile licenses into the hands of County Commissioners, no provision being made between the public and permanent highway departments.

Counties already have charge of permanent highway maintenance expenditure and receive the license money pro rata, but the public highway maintenance fund belongs to the state department under the existing law.

The department had asked for 35 per cent of the auto license fund, which would add \$100,000 annually to state highway maintenance. The regular allotment for the latter purpose is \$1,212,000, but not a cent of this could be used by the state under the law as amended.

The error was caught at the last moment before the bill was finally acted upon and went back to conference committee for correction. Since roads on the Pacific Highway would have been left without maintenance provision other than that granted by the county had the bill gone through and the Governor could not have vetoed the error without cutting off the appropriations.

Many Bills Passed. The present session, which is the 15th in the history of the state, is closing with the record of having passed a bond-dry law, guarantee of bank deposits act, new Capitol bill, banking code, first aid amendment to the industrial insurance code, law establishing the single standard of morals, mining code, anti-sabotage act, water code irrigation act and a new educational apportionment and higher millage levy.

It has increased the military/millage levy a tenth of a mill to provide for the erection of a memorial to the soldiers and Walla Walla and established another at Everett, this appropriation being that granted by the county. The bill finally passed is 181 as compared with 208 two years ago. The Centralia Normal bill died in the Senate after passing the House.

The Governor today signed several minor bills, among which were appropriations of \$40,000 for current expenses of the Washington State College and \$27,000 in state aid to tuberculosis hospitals.

By an amendment to the game code the State Fish Commission instead of the County Game Commission will direct the expenditure of county game funds.

State Insurance Commissioner Flashback sent word to the Legislature that he desires to investigate the Auditor Clausen, as suggested by Governor Lister in his letter to the chairman of the House and Senate appropriate committees yesterday.

error wished the \$9000 appropriated for maintaining the Governor's mansion in the State Capitol building to be transferred to the Auditor's office under the direction of Commissioner Flashback, for whose ability the Governor's letter vouched.

Both Governor Lister and Senator Metcalf forwarded the request to the House, but no action was taken upon it and the bill perished through indefinite postponement. The bill, remaining unacted upon at 2 o'clock this morning, by the Governor and Senator to whom Secretary McAdoo's communication was referred, was approved by the Governor and the Legislature through Senator Ralph Metcalf, chairman of the committee in charge.

Both Governor Lister and Senator Metcalf forwarded the request to the House, but no action was taken upon it and the bill perished through indefinite postponement. The bill, remaining unacted upon at 2 o'clock this morning, by the Governor and Senator to whom Secretary McAdoo's communication was referred, was approved by the Governor and the Legislature through Senator Ralph Metcalf, chairman of the committee in charge.

At the opening lobby and under the eye of the Governor, who happened to be visiting in the rotunda at the time, electrical representatives sent member to member after member after member to vote on the interests of the three-cornered combine.

Presently the situation developed another angle that resulted in complications from some source, which no one could trace to the Governor, it began to be understood presently that the lineup vetoed, which possibly also accomplish the appointment of new members of the State Public Service Commission, which would have charge of jitney regulation in event of the veto of that bill being overcome.

The names of George F. Cottrill, now chief engineer of the Public Highway Commission, and Robert Bridges, Port Commissioner of Seattle, began to be mentioned in this connection. Neither has ever been urged for anything but private life by the transportation interests backing the proposal to pass over the veto.

Little Hope Left for Doctors. Later in the evening word went around that not enough votes could be found to pass the jitney regulation measure and prospects for the regular medical and osteopathic measures became gloomy, although the effort to overcome the vetoes was not entirely abandoned.

Saves Eggs

Royal Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, cornbread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by adding an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following tested recipe is a practical illustration:

SPONGE CAKE DIRECTIONS—Beat sugar and water until syrupy, add a third and add to the stiffly beaten whites of eggs, beating until mixture is thick. Add the remaining three times the flour, salt and baking powder; beat yolks of eggs until thick; add a little of a time flour mixture and egg yolks alternately to white of egg mixture, stirring after each addition. Add 1/2 cup cold water and flavoring. Mix lightly and bake in moderate oven one hour.

The old method called for 6 eggs and no baking powder

ROAD BONDS BACKED

Hood River County Forms Association to Assist.

HOOD RIVER, Or., March 8.—(Special.)—At an enthusiastic mass meeting here today, with representatives present from every rural community, a campaign to aid the passage of the \$6,000,000 bonding act was launched by the organization of the Hood River County Good Roads Association.

While many local voters are reserving an opinion on the bonding act because of lack of knowledge of its provisions, it was declared this afternoon that an unqualified opponent has not yet made his appearance in the county, and after the campaign of education in every community by literature and through numerous public speakers, it is expected that the measure will be carried by a more nearly unanimous vote than has ever been cast on any issue locally.

J. Y. Nicholson was elected chairman of the Good Roads Association and N. Haxlin secretary. A preliminary committee, composed of representatives from all the county communities, with Mr. Ravlin as chairman, was appointed.

Ruthion Hill to Be Graded. Leslie Butler, a member of the advisory board of the old State Highway Commission, said at the meeting that funds were at present available for the construction of the Columbia Highway to eliminate the dangerous Ruthion Hill grade just west of the city.

Mr. Butler said that the State Highway Commission appropriated \$25,500 to match an equal amount of Federal funds under the Shawkielord act, January 15. The County Court at its regular session today received a petition asking the opening of the new portion of the road, and viewers have been ordered to make a report and hasten legal formalities.

ABERDEEN DIVISION SPLITS Naval Militia Organization Will Be Formed Into Battalion.

ABERDEEN, Wash., March 8.—(Special.)—The fourth division naval militia of this city, which now numbers 169 men, will be split into three divisions tomorrow, when four Naval Militia officers will come here from Seattle for that purpose. Aberdeen will henceforth have two divisions and Hoquiam one.

Lieutenant William Donovan will become a Lieutenant-Commander tomorrow, when the new battalion is formed. Ensign Warden Stiggle will become a lieutenant and gunnery officer, and Ensign J. C. Freeman will become a lieutenant and gunnery officer.

The new Lieutenants who will head the three divisions are H. M. Delanty, manager of the Grays Harbor Stevedore Company; Frank Rockwell, formerly chief machinist's mate of the fourth division, and H. V. Collins, manager of the Pacific Telephone Company at Hoquiam.

GARAGE ROBBERY CHARGED Albany Prisoner Says Father Was First White Resident on Island.

ALBANY, Or., March 8.—(Special.)—Arthur O'Donnell, who asserts he is a son of the first white man to establish a home in the Hawaiian Islands, is in the Linn county jail awaiting the action of the grand jury on a charge of larceny. O'Donnell was bound over yesterday by Justice of the Peace Swan. His bond was fixed at \$500, and, being unable to furnish them, he went to jail.

The charge against O'Donnell is the theft of an overcoat from O. K. DeWitt, an automobile salesman. It is said that O'Donnell also made away with some tools and accessories from the garage.

O'Donnell was arrested after he had boarded an Oregon Electric train.

WOMEN TO MEET TODAY Daughters of Revolution Are to Gather at Eugene.

BUGNE, Or., March 8.—(Special.)—Mrs. Isaac Lee Patterson, state regent of the Daughters of American Revolution, arrived in Eugene tonight to confer with the members of the Lewis and Clark Chapter on final plans for the two day's state conference of the organization, beginning tomorrow. The Portland delegation will travel on the Coos Bay train and will be joined along the way by delegations from other cities, arriving in Eugene at noon tomorrow. There are no chapters of the organization south of Eugene.

The program for the dedication of the Lewis and Clark marker of the Oregon Trail at Corvallis Pass was announced by delegations from other cities, arriving in Eugene at noon tomorrow. There are no chapters of the organization south of Eugene.

The reception to the conference will be held at Osburn Hotel from 8 to 11 tomorrow night. Colonial pages who will dance the minute have held their final dress rehearsal tonight.

BIDS ON SHELLS RECEIVED Navy Department to Use 14-Inch Explosive Projectiles.

WASHINGTON, March 8.—The Navy Department received bids today from six companies for 14-inch high explosive projectiles, the amount of the contract yet being made public. The Crucible Steel Company was low bidder both in price and time, offering to deliver in 90 days at \$25 a shell.

The same type of projectile formerly was known as common shell in the Navy, distinguished from armor-piercing shells, which cost about twice as much. The Navy ordnance bureau discovered a process some time ago, in which the common shell could be converted at small expense and with no mechanical difficulties into high explosive projectiles for use against land fortifications and scout cruisers, destroyers or other light craft.

RALPH MALONEY IS JAILED Threat to Kill Gardiner School Superintendent Is Charged.

ROSEBURG, Or., March 8.—(Special.)—Ralph Maloney, assistant chief mechanic during the construction of the Willamette-Pacific bridge across the Clatskanie river, was held in jail tonight from Gardiner and committed to the county jail on a charge of threatening to kill Joseph Hughes, superintendent of the public schools of the latter city.

Mr. Maloney blames his ex-wife for his present plight. Mrs. Maloney is now employed as instructor in the Gardiner schools. Maloney was arrested in Portland last July on complaint of his wife, but was acquitted following a trial there. On that occasion he was charged with disturbing the peace.

Stetson Hats

You'll Be Glad to See the Spring Styles in Hart Schaffner & Marx Clothes

We are in a position to show you one of the finest lines of new styles and new fabrics we have shown at any previous season.

VARSIETY FIFTY FIVE SUITS are most favored; lots of exclusive styles, many new variations of models, plenty of new patterns and fabrics; in the popular pinch-back or sport coat, in single or double-breasted, plain or patch pocket effects. These two young men are wearing them. Don't they look good?

Come in at any time and look them over. Everything that young men want at a price that spells economy.

RUSSIA ACCUSES FOE

VIOLATIONS OF USAGES OF WARFARE PROTESTED. Use of Explosive Bullets, Burning Liquid, Poisoned Missiles and Killing of Wounded Charged.

PETROGRAD, via London, March 8.—The Russian Foreign Office has transmitted to Germany, Austria, Bulgaria and Turkey a lengthy protest against alleged violations of usages of warfare, attaching citations of numerous specified instances and asserting the right to retaliate in kind. Each citation, it is said, was amply verified.

The abuses charged include the use of explosive bullets, gas, burning liquid and poisoned missiles, the poisoning of wells, misuse of parliamentary (flag of truce) and Red Cross flags, killing of the wounded, throwing of bombs on sanitary trains and the sinking of the hospital ship Portugal.

The Russian ship Portugal was sunk in the Black Sea March 30, 1916, by a Turkish submarine.

GUTHRIE DIES AT TOKIO

AMERICAN AMBASSADOR VICTIM OF APOPLEXY. State Department Informed in Brief Message From Secretary Wheeler, Giving no Details.

WASHINGTON, March 8.—George W. Guthrie, of Pittsburg, American Ambassador at Tokio, is dead. Word of the Ambassador's death reached the State Department today from Tokio in a dispatch from the Embassy.

Mr. Guthrie died today, according to the dispatch. No details as to the cause of his death are yet available.

AN OPERATION AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more medicine I took. Every month since I was a young girl I had suffered with cramps in my sides and periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. McCONNELL, 3432 Hartville Street, Phila., Pa.

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Luster With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so even if you're preparing this mixture, though at home, it's messy and troublesome. For 50 cents you can buy at any drugstore the ready-to-use preparation, improved by the addition of color ingredients, called "Wych's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair has become beautifully darkened, glossy and luxuriant.

Wavy, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wych's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and next to a good hairbrush, the best for the cure, mitigation or prevention of disease.—Adv.

RHEUMATISM PAIN

The exact cause of rheumatism is unknown, though it is generally believed to be due to an excess of uric acid in the blood. It may be also said with equal truth that no remedy has been found which is specific in all cases. In fact the literature of rheumatism shows that there are but few drugs which have not been given a trial. In the hands of one observer we find that a certain drug has been used with the utmost satisfaction, and that the same remedy will be a great disappointment. All physicians however agree that the most effective treatment is by the administration of some remedy to relieve the pain and quiet the nervous system and Dr. W. S. Schindler expresses the opinion of thousands of practitioners who have used it, that it should be given preference over all other remedies for the relief of the pain in rheumatism. It is not intended to be purchased in any quantity. They are also unsurpassed for the relief of neuralgia and all pain. Ask for A-K Tablets.

BORADENT THE MILK OF MAGNESIA TOOTH PASTE THE BETTER KIND

An Epidemic Can Start In Your Home. A garbage can (covered or uncovered) will breed millions of disease germs in one day right in your kitchen. So will an unwashed milk bottle, a clogged sink, a little old water in your refrigerator or faulty plumbing in your toilet or kitchen sink. These germs can infect your family and your neighborhood, and thus cause epidemic to spread over city, state and country. All big epidemics have small beginnings, and most of them could be prevented by proper disinfection of homes. You can disinfect your home thoroughly, easily and cheaply with Lysol because it surely kills germs and keeps flies away. Use Lysol often in garbage cans, sinks, toilets, cesspools and drains. Lysol Disinfectant. OUR SIGN IS OUR BOND. Lehn & Fink New York, N.Y.
