Telephone Engineer Expects

PRICES CONSIDERED LOW

C. H. Cogswell Presents Figures to Realty Board, Showing Growth in All Sections and Says Peace Will Bring More.

The officials of the Pacific Telephone & Telegraph Company are framing their development plans on the basis of a 500,000 population in Portland in 1937, according to C. H. Cogswell, of New York City, consulting engineer of the company, who addressed the Portland Realty Board at the Hotel Benson yesterday noon on "Potential Factors Contributing to the Growth of Portland."

"After a detailed survey of the situation we estimate that the present popu-

the realters through charts in what districts houses renting for \$40 and more are situated, where population has increased and decreased, and the ten-dencies of the wholesale and manufac-

"The cost of living in Portland is

Portland to Grow After War.

"After the close of the war in Europe I believe the people now living in the congested industrial centers of the East will move to such cities as Portland, Or.

"To analyze Portland today we find it is a trading center, a railway center, an inland port, a college town, a city of institutions. There are wholesale, jobbing and banking houses, many factories and it is an attractive city to live in.

ilive in.

"There are four conditions on which the future of manufacturing at Portland depends—a market fer manufactured products, initiative and capital. competition and labor.

"Portland is a large commercial and business center. A large proportion of the business for the trade territory is done in offices at Portland. There are 1977 business firms in 53 office buildings, and a total of 2932 firms doing business from offices at Portland. Thus there is a population of 33 persons to each firm doing business from an office.
