EVERY AMERICAN

in this fateful crisis should fully understand its causes and future effects.

Read THE BOOK OF THE HOUR, characterized by the New York Tribune as

"THE AUTHENTIC EXPRESSION OF THE HIGHEST ASPIRATIONS, THE BROADEST AND MOST PENETRATING VISION AND THE MOST PROFOUND CONVICTIONS OF THE AMERICAN NATION."

The War and Humanity

By JAMES M. BECK

Author of "The Evidence in the Case."

First published in November, 1916, this powerful discussion of America and the World War has made a deep impression on both sides of the Atlantic. It made history in its potent influence upon American public opinion.

"I most earnestly hope that there will be a wide circulation of Mr. Beck's 'War and Humanity.' It is the kind of a book which every self-respecting American who loves his country should read. I believe that its circulation throughout the whole land would have a very real effect in educating public opinion as to the duty of America in this great world crisis." Extract from the Foreword by THEODORE ROOSEVELT.

"Mr. Beck's volume was a classic the moment it appeared. We know of no more logical and lucid discussion of the essential facts and problems of the great war, nor any more truly, consistently and even vigorously American in its spirit."—N. Y. Tribune.

"One of the most virile and convincing books that the great war has produced in any country of the world."—N. Y. Sun.

"Dignified, clear and dispassionate, a masterly analysis of fundamental factors, leavened with noble and persuasive sentiments."—London Telegraph.
