E. H. Keller Leads Marksmen at Green Lake Traps With 98 in 100.

H. R. EVERDING BREAKS 97

Washington State Amateur Honors Go to J. H. Hopkins, of Seattle, as Oregon Contestants Are Not Eligible.

SEATTLE, Wash., April 30.—(Special.)—Members of the Portland Gun Club carried off many of the high honors in the last day's programme of the annual Washington state trapshooting tournament held here under the auspices of the Green Lake Gun Club, but the fact that they were non-residents made them ineligible to win the state championship.

E. H. Keller, one of the eight members of the Portland club, broke 98 out of 100 in the main event and second place was tied between Henry R. Everding, secretary-treasurer of the Portland Gun Club, and J. H. Hopkins, of Seattle, each with 97.

The winning amateur of the main event is entitled to represent Washington at the annual grand American handicap, but he must be a resident of Washington. For this reason Mr. Keller and Mr. Everding automatically gave up their positions and J. H. Hopkins, of this city, became the champion amateur trapshooter of Washington.

McKelvey Wins Shoot-off. The runner-up position was tied between C. E. McKelvey, of Seattle, and C. A. O'Connor, of Spokane, each with 94 birds out of 100. On the shoot-off for the tie, McKelvey ran 60 birds and O'Connor missed his one, thereby giving McKelvey the runner-up honors.

The 100-bird event today was won by C. E. McKelvey with 146. E. H. Keller, of Portland, and Henry R. Everding, of Vancouver, Wash., and Henry R. Everding, of Portland, all tied for second with 145 out of 150.

A professional like a non-resident, can shoot in a registered shoot along with the amateurs, but he must shoot for large trophies and prizes. He is not eligible for the money or trophies unless competing in an open event, which is so designated by the Interstate Association.

Many Attend Shoot. Those in the Portland party who attended the local shoot, were Abner Blair, Peter J. Holohan, professional; Miss Gladys Reid, Henry R. Evg. Hug, E. H. Keller, Frank M. Tompkins, Fred Friedlander, professional.

The Portland party while here put in a strong word for local shooters to attend the Oregon state shoot at Salem, Or., next Sunday, Monday and Tuesday.

SPORTS NOT DRYING

French and British Fronts See Real Athletics.

REVIVAL GREAT WITH PEACE Competent Judges of Pugilism in East Fail to See How Champion Willard Need Have Any Fear of Losing Crown for White.

Although the war has eliminated the major portion of athletic competition throughout the European countries, sport has not been entirely abandoned, and there is plenty of evidence to support the belief that there will be a general revival of athletics following the declaration of peace. Many observers of the physical condition of the troops have stated it as their opinion that the training necessary to fit the young men for the modern battlefield has produced a new type of European manhood which will instinctively turn to sport with extraordinary zest as soon as arms are laid aside.

It is a matter of record that many forms of athletic competitions are constantly being indulged in on all fronts, just back of the firing lines, and these games are particularly encouraged by both the French and English army authorities. Football, baseball, cricket, golf, wrestling, boxing and foot racing are all participated in by the soldiers and the organization of these sports with teams from other countries which may later desire to compete against an All-Scandinavian combination.

A committee was appointed to prepare a new code of eligibility and competitive regulation that will be uniform throughout Scandinavia. It was informally announced that this step was deemed advisable in view of the athletic challenge which this association is prepared to issue following the close of the war.

Competent judges of pugilism, who have witnessed the various bouts of recent months in which Fred Fulton, Jim Coffey, Carl Morris and Frank Moran have participated, appear to be a unit in the opinion that Champion Willard's title is not in danger. None of the quartet has shown boxing skill equal to that possessed by the champion. With the possible exception of Norris, Willard is easily superior in physical strength and has demonstrated ability in the opinion of these three nations or with teams from other countries which may later desire to compete against an All-Scandinavian combination.

The Scandinavian countries steady progress in the development of athletic standards is reported, notwithstanding the fact that these nations are far more affected by the great conflict than neutrals at a greater distance. An example of the upbuilding and broadening of sport throughout this section of Europe is found in the recent Scandinavian Athletic Congress held at Stockholm.

This congress was formed at the suggestion of the Swedish A. A. U. and was attended by representatives from the athletic organizations of Norway, Denmark and Sweden. At the conference it was agreed that the new body should have full charge of all arrangements looking toward athletic meets between these three nations or with teams from other countries which may later desire to compete against an All-Scandinavian combination.

A number of the larger Eastern colleges have awakened to the fact that they acted too hastily in declaring off all intercollegiate athletics following the declaration that a state of war existed. Intermural competition has been found to be a failure as a substitute and individual entries, with rearranged schedules are being advocated to rectify the situation created by the first burst of patriotism.

PRACTICAL-MINDED men were quick to discover how well Fatimas exactly suited their smoke-needs. Fatimas were found to be comfortable. Not alone because they are cool and comfortable to the throat and tongue. But because they do not intrude on busy minds. OREGON FOOD CAMPAIGN (OFFICIAL) Planning Garden.

AFTER provision has been made for all of the 100-foot rows, there will remain a strip 20 feet wide, the length of the lot. This should be planted to corn for depth of 60 feet. The next 35 feet should be used for tomatoes, pole beans, cucumbers and Summer squash. The remaining 15 feet should be worked up very finely before planting lettuce, onions and spinach.

The varieties suggested in this table are some of the standard, but they may be substituted by any of the well-known seed houses. As far as possible home-grown seeds should be secured, and patronage to seed houses from without the state should be as a last resort.

This planting table is worked out for a lot 50 by 100 feet and is sufficient. If planted intensively, to supply vegetables for the average family through the Summer and Fall, and provide a surplus which can be prepared for use through the Winter months.

Do not plant the seeds until the ground has been thoroughly prepared by plowing or spading to a depth of six inches and then thoroughly worked down and packed with a fine, loose mulch on the surface.

Care in the matter of getting the rows straight will make the cultivation easier.

PORTLANDER AT FRONT BRITISH WAR HOSPITAL.

Graduate of Willamette Medical College Says He Will Be Transferred to France Soon.

In Grayling War Hospital, at Chichester, England, one Portland young man is "doing his bit." He is Dr. Walter R. Anderson, a graduate of the medical college of Willamette University. His letters from one of the first base hospitals of the allies are brimming with interest.

"The big Spring drive is on," he wrote on April 19, to Walter M. Gadsby "and we have been ordered to clear our hospital as quickly as possible. Most of the cases come with first aid dressings and are frightfully wounded."

Dr. Anderson comments in gratified tone on the treatment accorded those who are aiding England with her wounded. His hospital is located near the Duke of Richmond's estate, and the golf course opened each week for the recreation of the medical men and attendants. "They are very good to us during what little leisure we have," he adds.

Crossing on the Adriatic, the Portland physician experienced all the thrilling doubt of those who "go down to the sea" when the U-boats are unleashed. "The ship was kept in inky blackness," he writes. "Just inside the zone we were met by a fast cruiser, who fired a continuous war in. However, it was no protection against mines and not altogether against submarines."

Dr. Anderson reports that he will be transferred to service in France during the Summer, but is now kept in England by the shortage of medical men and the stream of cases to attend to.

Don't Blame "Spring Fever" For That "Down-and-out" Feeling

Your Blood Needs a Thorough Cleansing Just Now.

As Spring approaches, the impurities that have been accumulating in the system throughout the winter begin to clog up the circulation, causing a general weakness and debilitated condition that is generally known as "Spring fever."

The first symptoms are usually a loss of appetite, followed by a gradual lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown. Children just at this season are peevish and irritable and become puny and lifeless.

This whole condition is but the result of impurities in the blood that have been accumulating and make themselves felt more distinctly with the change of seasons. They show that nature needs assistance in giving the system a general housecleaning.

Everybody just now needs a few bottles of S. S. S., the great vegetable blood remedy, to purify their blood and cleanse it of impurities. It is good for the children, for it gives them new strength and puts their system in condition so they can more easily resist the many ailments so prevalent in Summer. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young.
