Manufacturers and Wholesale Distributors.

The Management of the Bohemian Restaurant desires to announce the opening for business at their new location, 127 West Park street, between Washington and Alder streets, this morning at 6:30 A. M.

Our specialty dishes, for which we are famed, can be obtained nowhere else in the city. Our extensive menu, changed daily, is varied to suit the tastes of all. The quality of our pastry and rolls is unexcelled. We will manufacture our own ice creams and ices in a variety of new and delicious flavors.

This new home of the Bohemian has been specially built and handsomely furnished to accommodate the needs of our growing business and we take pride in inviting our patrons to enjoy our commodious and attractive quarters. We wish to express our appreciation to our many patrons who have borne with us in patience under the cramped and unsatisfactory conditions at the old stand, and we wish to assure them that no expense has been spared in our efforts to make the new home as attractive, sanitary and efficient in every detail as it is possible with modern machinery and appliances to effect that end.

Not only do we bespeak for our new home all of the foregoing, with added accommodations, which double our former seating capacity, but we also wish to state that the high standard of excellence in the quality of food, and in the preparation and

service of the same, will be maintained with scrupulous care. The growth of our business has been beyond our fondest expectations and has been due entirely to our efforts to serve the most wholesome food the market afforded, prepared in the most delectable manner by an expert chef, seasoned to suit the most fastidious and served at prices within the reach of all. To meet this unusual growth our new home was built for us, and it shall be our constant aim to merit your continued patronage.

We extend a cordial invitation to our friends to visit us in our new home, and we welcome any new patrons who may care to give us a trial.

Our aim shall be not merely to furnish a place in which to eat, but to so appeal to the eye, comfort and palate of our patrons that they will look forward with pleasure to a repast in our restaurant.
