German Invention Renders Useless Detectors Employed by Britain.

NAVAL BOARD REPORTS

Secretary Daniels to Submit New Devices to Test Against Yankee Submarines—Blockade May Be Attempted Also.

BY JOHN CALLAN O'LAUGHLIN.

WASHINGTON, May 8.—(Special).—At the moment when the Navy Department has reason to believe that an answer to the submarine menace has been found...

U-Boat 10 Miles Away Detected.

The fact of the presence of a submarine was sufficient, however, to cause the steamer to send out a wireless for help...

Device Detailed to Daniels.

William L. Saunders, chairman of the Naval Consulting Board, Elmer A. Sperry and several other members of the board, revealed to Secretary Daniels...

American Submarines Will Endeavor to Attack American Warships Equipped with the Device.

Mr. Edison has made constant reports to the Secretary of the Navy, but he has been careful not to claim any prize...

Blockade Also Desired.

Secretary Daniels is not only seeking a device to locate the submarines, but also a plan which promises success in preventing the U-boats from getting to sea.

Ship Will Be Risked.

It may be that a blunder was responsible for failure; it may be that as a result of suggestions obtained from the British and French...
