PORT MAY ASK FOR REFUNDING OF LOAN

Nearly Half Million Advanced Two Years Ago to Keep Jetty Work Going.

CASH IS NEEDED ON RIVER

Channel West of Swan Island to Be Cut This Year if Freshet Does Not Hold Dredgers Too Long in the Columbia.

Funds advanced to the War Department by the Port of Portland Commission two years ago, totaling \$475,000, and which were used to tide over con-struction work on the north jetty because there was a delay in the passage of the rivers and harbors bill by Con-gress, may be sought by the Port body, as it is feeling the loss of funds through the tax limitation measure enacted for the state last year. L. B. Smith, a member of a com-

mittee of young men of the community which has interested itself in several municipal questions, spoke of the mat-ter before the Commission yesterday, Saying that while it was highly com-mendatory action on the part of the Commission to provide money for the fetty project in an emergency, he did not believe the Government really ex-pected to retain the money, although it was not stipulated at the time it was to be repaid. He urged that steps be taken to obtain the sum,

States Senator Chamberlain is now endeavoring to have the continuing ap-propriation for the north jetty insert-ed in the present rivers and harbors act, though the jetty is declared finished, and instead of that, it has been suggested he try to regain the Port's money, also \$25,000 the Port of Astoria contributed to the jetty fund, through which it was possible to keep the protect going.

present facilities consist of a modern system of tools and saws and five building berths, and it is said three times the number of ways can be provided if needed.

The property being purchased at Columbia City by Somarstrom Brothers is owned by the McBride, Caples and Dolph families. Edmund C. Giltner, formerly secretary of the Chamber of Commerce, who is interested in the property and concerned in drawing the industry to that section, admitted last night the coming of the Oakland interests, confirming as well that the said those behind the latter yard were unknown to him, and the actual building of a plant probably hinges on orders from the Government.
